ISBN 978-184-495-0508

The purpose of this publication is to provide the Statutory Financial Statements for Dorset County Council for the period from 1 April 2015 to 31 March 2016.

This document also includes summary information relating to the Dorset County Pension Fund, which the County Council administers on behalf of its own staff and those of other Dorset Local Authority employees and certain other admitted bodies.

The Council provides a wide range of services for the citizens of Dorset, including education, social services, transport, planning, trading standards and libraries. Decisions relating to these services are made by the Elected Members of the Council, each Councillor representing a particular part of the County. Services in Bournemouth and Poole are administered by separate, Unitary Authorities serving those areas.

In addition to the full County Council, which meets quarterly, during 2015/16 the Council operated a Cabinet which met monthly. There were also Overview Committees which dealt with the main service areas and which met on a quarterly cycle. An Audit and Scrutiny Committee also met bi-monthly with responsibility for scrutinising decisions of the Cabinet and examining financial and audit arrangements. In addition there were five regulatory committees dealing with issues such as planning appeals, rights of way etc and a Standards Committee which promotes probity and high standards of conduct throughout the Council.

On 1st June 2016 a new structure was introduced, replacing the Overview Committees with Overview and Scrutiny Committees which are linked to the Council's stated outcomes, healthy, independent, safe and prosperous. The Audit and Scrutiny Committee becomes the Audit and Governance Committee.

Further details about the County Council, the six District Councils in Dorset and their respective services are available on the web site www.dorsetforyou.com.

Certification by Chief Financial Officer

I certify that these Financial Statements give a true and fair view of the financial position of Dorset County Council and of its financial performance for the year ended 31 March 2016.

These Financial Statements were authorised for issue as draft, subject to audit, on 31st May 2016 and authorised again as a final, audited set of financial statements on 20th September 2016.

Richard Bates
Chief Financial Officer

20th September 2016

Independent auditor's report to the members of Dorset County Council

We have audited the financial statements of Dorset County Council for the year ended 31 March 2016 on pages 34 to 68. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014. Our audit work has been undertaken so that we might state to the members of the Authority, as a body, those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Authority, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Chief Financial Officer and auditor

As explained more fully in the Statement of the Chief Financial Officer's Responsibilities, the Chief Financial Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom, and for being satisfied that the financial statements give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Authority's and the Group's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Chief Financial Officer; and the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the Narrative Statement to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the financial position of the Authority and the Group as at 31 March 2016 and of the Authority's and the Group's expenditure and income for the year then ended;
- give a true and fair view of the financial transactions of the Pension Fund during the year ended 31 March 2016 and the amount and disposition of the Fund's assets and liabilities as at 31 March 2016; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

Matters on which we are required to report by exception

The Code of Audit Practice requires us to report to you if:

- the Annual Governance Statement which accompanies the financial statements does not reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007; or
- the information given in the Narrative Statement for the financial year for which the financial statements are prepared is not consistent with the financial statements; or
- any matters have been reported in the public interest under Section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of, the audit; or
- any recommendations have been made under Section 24 of the Local Audit and Accountability Act 2014; or
- any other special powers of the auditor have been exercised under the Local Audit and Accountability Act 2014.

We have nothing to report in respect of these matters.

Conclusion on Dorset County Council's arrangements for securing economy, efficiency and effectiveness in the use of resources

Authority's responsibilities

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities

We are required under Section 20(1) (c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Comptroller and Auditor General (C&AG) requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by C&AG in November 2015, as to whether Dorset County Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The C&AG determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether Dorset County Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2016.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, Dorset

County Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Conclusion

On the basis of our work, having regard to the guidance issued by the C&AG in November 2015, we are satisfied that, in all significant respects, Dorset County Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2016.

Certificate

We certify that we have completed the audit of the financial statements of Dorset County Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice.

September 2016

NARRATIVE STATEMENT TO THE ACCOUNTS

Financial performance against budget

Overall performance against the budget for the year to 31 March 2016 was an overspend of £3.8m against service budgets. This was offset by underspends of £550k on central budgets and in year changes to minimum revenue provisions (MRP) of £2.6m (explained on page 15) which reduced the in-year overspend to £688k. Backdated MRP adjustments to 2008 were also made totalling £4.4m which results in the reported figure being an underspend of £3.7m.

The budget itself was based on the last year of funding outlined in the coalition government's Spending Review 2013. The spending review itself brought a funding reduction of £11m for the County Council. When added to demographic, price and other upward pressures on expenditure, this resulted in the authority needing to deliver more than £15m of savings in the year.

Savings were identified through the *forward together* transformation programme and managed through the forward together Board. Despite an overall underspend, there were some key areas of overspend in specific directorates caused by severe pressure on services.

In Children's Services, for example, there has been sustained high pressure on the base budget provision for children in care, causing the family support service to overspend by £5.5m. In terms of volume of provision, the County Council acknowledged that resource needed to be added on a short-term as well as a permanent basis and this was addressed in the 2016/17 budget strategy.

In Adult & Community Services, there were overspends against demand-led budgets including direct payments, support for people with a learning disability, specialist services for older people and supported living.

The Environment and Economy Directorate and the Chief Executive's Department were both underspent – by £0.865m and £0.448m respectively. Corporate budgets including contingency, minimum revenue provision (MRP) - see notes below - and interest were underspent, principally due to the cumulative impact in 2015/16 of the MRP changes.

More details of the performance against budget are set out in the notes to the financial statements.

Adults and Community Services

Adult and Community Services is the largest Directorate in the County Council. The gross annual revenue budget is £163.4m with income totalling £42.6m which is around 46% of the County Council's net budget.

The current economic situation continues to be extremely challenging, resulting in significant and on-going reductions in Government funding. With an increasing demand for services, reduced funding and a need to achieve efficiency targets, the Directorate faces significant challenges in delivering its commitments in the medium term.

In line with national demographic trends the demand for adult social care services in Dorset continues to rise and will do so for many years to come. The numbers of younger adults with complex needs and older people continues to rise increasing demand for services and budget costs. In Dorset:

- The number of children with multiple and complex problems requiring support has increased in two years (2012-14) from 284 to 292 per 10,000 (3%) though this is still well below the national average of 7%.

- 26% of the population is aged 65+, compared to 17% nationally. This is expected to increase by 2.2% each year.

As part of the Pathways to Independence transformation programme, from 1 July 2015, certain in-house services were separated from Dorset County Council, combined with services from Bournemouth Borough Council and the Borough of Poole, and used to launch a Local Authority Trading Company (LATC) called Tricuro.

Tricuro provides the following Dorset County Council services:

- Residential services – including residential care homes and care homes with nursing.
- Reablement services – intensive short-term home care to help people get back on their feet after illness or hospital stays.
- Day services – support, rehabilitation and skills training for independent living, plus opportunities to socialise.

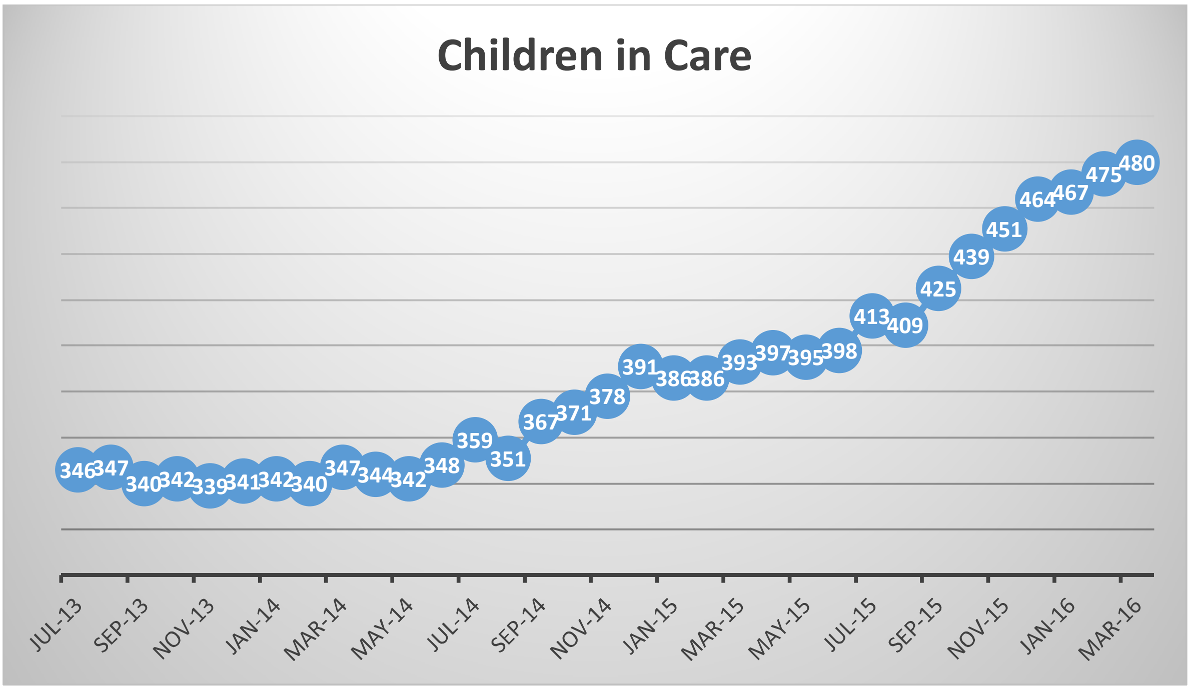
Children's Services

Children's Services has overall safeguarding responsibility for the 67,400 children across the County. It operates 117 maintained schools teaching 30,711 pupils. There are a further 55 academies or free schools teaching 19,149 pupils outside of County Council control. The County Council is responsible for providing school places and an additional 654 were made available during 2015/16, through a combination of new building and reconfiguration of existing space within the estate. A further 254 places will be made available for the 2016/17 financial year.

As part of its safeguarding role the County Council has seen an increase in the number of children that have been taken into its care during 2015/16. The graph below shows the monthly picture since July 2013, which has seen numbers in care move from a steady figure of around 345 start to increase from July 2014. The increase in this financial year has been from 393 at 1st April 2015 to 480 as at 31st March 2016, an increase of 87 (22%).

Demographic changes means that the numbers in care are expected to reduce during 2016/17, with early intervention work and permanency planning allowing further reductions as the year progresses.

During March the service was subject to an inspection by Ofsted under the single inspection framework (SIF). The outcome of the inspection was received on 4 May 2016 with the judgement that the authority requires improvement.



Environment and the Economy

Dorset has:

- 1,406 square km of Areas of Outstanding Natural Beauty, covering 55% of its total land area
- 135 Sites of Special Scientific Interest, covering 18,730 hectares
- 9 National Nature Reserves
- 62 Regionally Important Geological and Geomorphological Sites (with further under consideration)
- 1,227 Sites of Nature Conservation Interest
- 91 km of heritage coast
- 114 km of the Jurassic Coast-World Heritage site
- representatives of 85% of all species of mammals living in Britain, along with 90% of our birds
- 80% of our butterflies, 70% of our dragonflies, and nearly all our reptiles and amphibian species.

The Environment and Economy service maintains:

- 3,753km of roads
- 2,282km of footpaths and cycle ways
- 1,450 other structures including bridges
- 47,731 street lights, illuminated signs and bollards
- 7,844 traffic control and information systems.

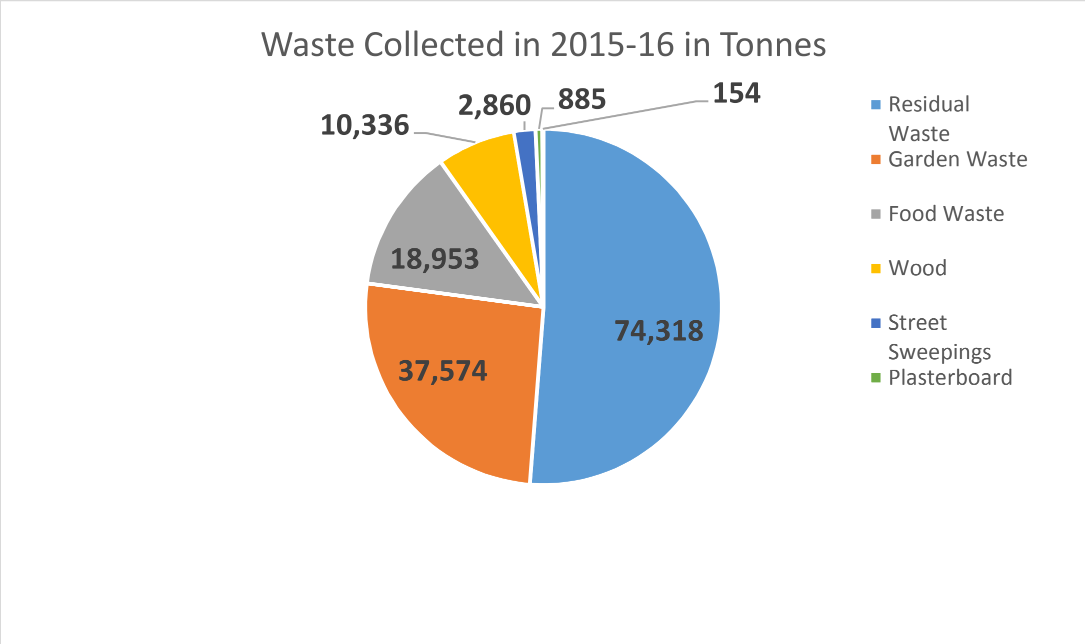
In addition, the service oversees the provision of public transport in Dorset, providing financial support to a number of routes and also promotes the Dorset economy through activities such as the Superfast Broadband project which will bring a superfast service to over 95% of Dorset premises.

NARRATIVE STATEMENT TO THE ACCOUNTS

Dorset Waste Partnership

The County Council, in partnership with District and Borough Councils in Dorset, provides the waste collection and disposal services to the residents of, and visitors to, Dorset through the Dorset Waste Partnership.

Over 145,000 tonnes of waste was collected in 2015/16 with the tonnage, by type of waste, shown below –

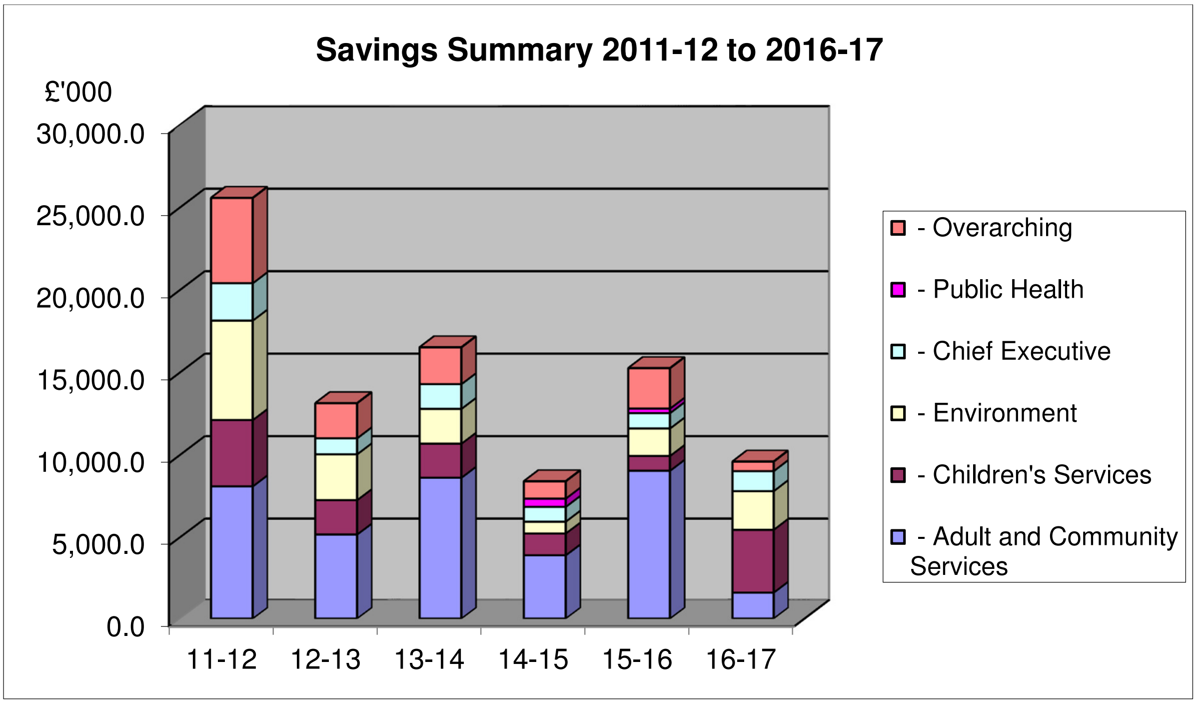


Recycling rates are around 60%.

Savings History

Dorset County Council have made just short of £79m of savings between 2011-12 and 2015-16, with a further £9.6m planned for 2016-17. The table and graph below shows how this has been distributed across services.

SAVINGS SUMMARY	2011-12 £'000	2012-13 £'000	2013-14 £'000	2014-15 £'000	2015-16 £'000	2016-17 £'000
- Adult and Community Services	8,104.0	5,179.8	8,628.0	3,900.0	9,050.0	1,602.0
- Children's Services	4,020.9	2,089.1	2,063.2	1,344.0	900.0	3,865.0
- Environment	6,029.8	2,778.5	2,110.2	722.0	1,664.0	2,346.0
- Chief Executive	2,264.8	971.8	1,498.7	896.0	930.0	1,214.0
- Public Health	0.0	0.0	0.0	500.0	275.0	0.0
- Overarching	5,169.5	2,125.8	2,231.6	1,050.0	2,450.0	576.0
	25,589.0	**13,145.0**	**16,531.7**	**8,412.0**	**15,269.0**	**9,603.0**



Staffing and restructuring

During the year there was significant reorganisation and restructuring work as the council transformed to deliver a lower cost organisation and manage cuts to its funding from central Government.

Headline FTE numbers reduced by 1,121 to 7,101 in the year. But when adjusted for the impact of Academy transfers (Academy staff are no longer employed by the County Council) and the TUPE transfer of staff to Tricuro, the real reduction in FTE numbers is 121.

Tricuro

On 1 July 2015, in partnership with Bournemouth Borough Council and the Borough of Poole, Dorset County Council launched Tricuro. Tricuro is a group of two companies established under *local authority trading company* principles to take the transfer of the three authorities' supply-side Adult Social Services business. The following table shows how many staff were transferred into the company from the three councils under the TUPE regulations.

Council	**Headcount**	**FTEs**
Dorset County	1,201	607.6
Bournemouth Borough	313	233.2
Borough of Poole	87	64.4
Total	**1,601**	**905.2**

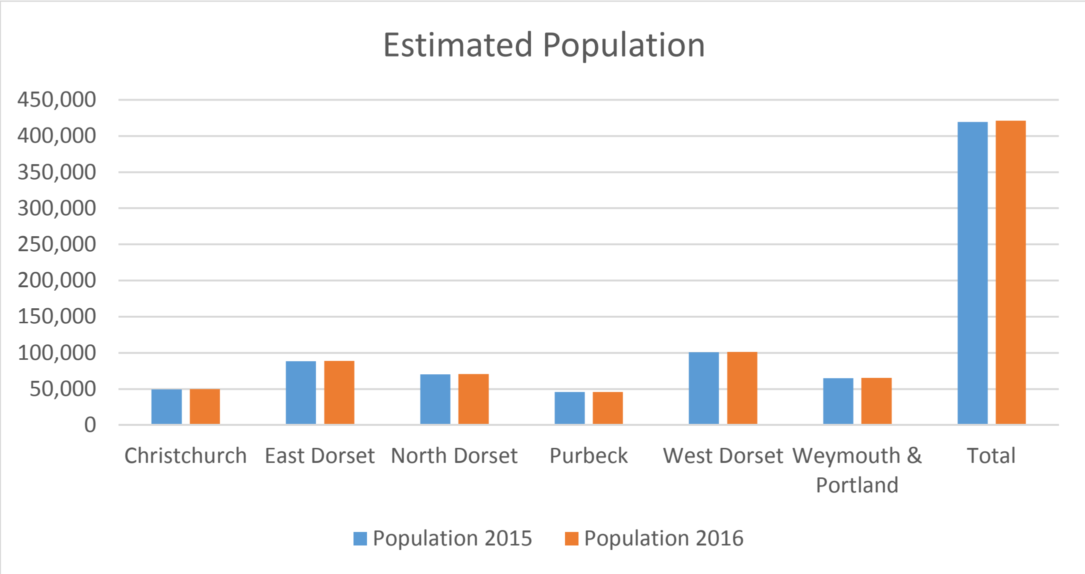
Each authority owns one ordinary share in Tricuro Support Ltd, which in turn owns 100% of the equity of Tricuro Ltd. The value of business carried out by Tricuro in a full financial year is expected to be around £40m (the part-year to 31 March 2016 saw the company turn over £31m). A partnership agreement regulates the way in which the three councils manage Tricuro, including a profit/cost sharing agreement. Dorset County Council is contracted to provide support services to Tricuro for three years (until 30 June 2018). The value of this contract was £0.881m for the nine months to 31 March 2016. Bournemouth Borough

Council also provides certain support services to the company. The cost of this was £0.652m for the nine months to 31 March 2016.

Dorset County Council treats Tricuro as a joint venture, under the rules set out in IFRS11 (joint arrangements). More technical information about this is set out in the accounting policies section of the financial statements and in the notes covering group accounting.

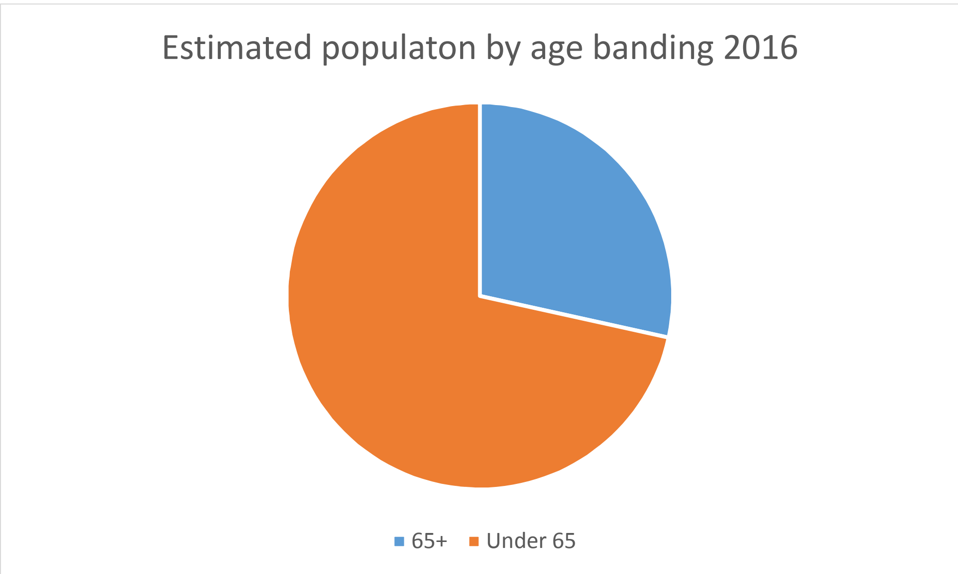
Population Data

The County Council provides services to a total estimated population of 421,140, a small increase over the population in 2015 which is estimated to stand at 419,602. The graph below shows the population across the Borough and District council boundaries within the region of Dorset that is served by the County Council.



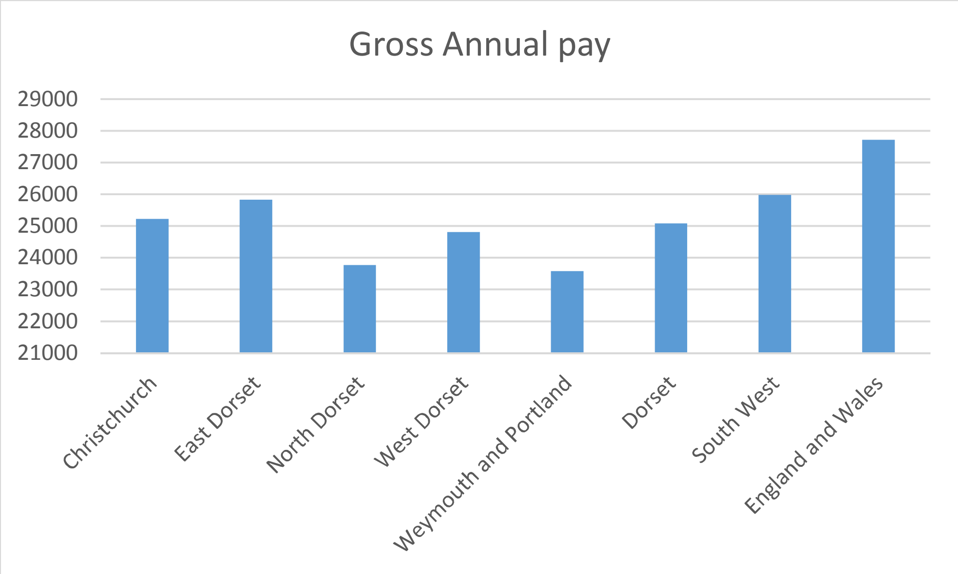
Source: 2014 based District Projections , Dorset County Council and Office for National Statistics

A significant proportion of the population is over retirement age, with an estimated 28% being over 65 years of age by 2016.



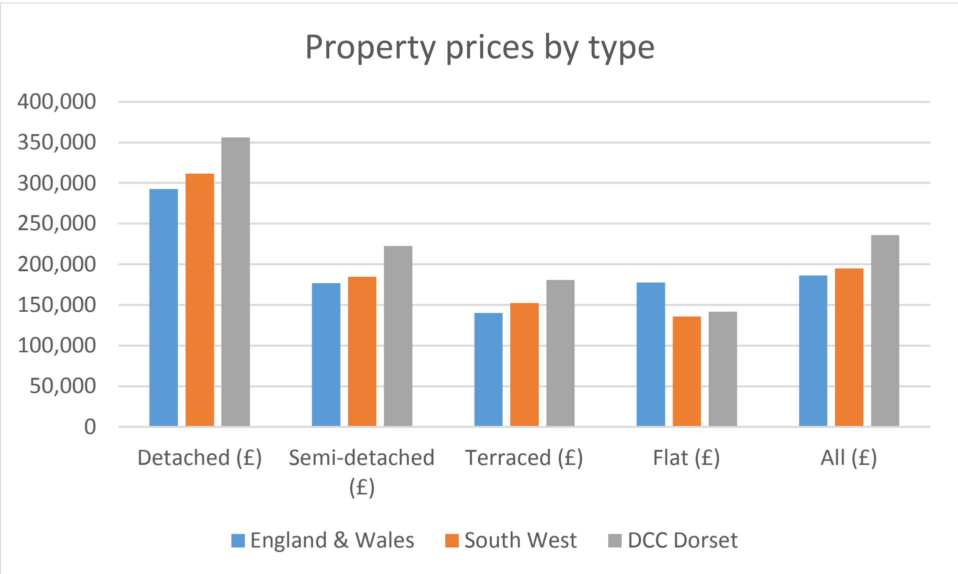
Source: 2014 based District Projections , Dorset County Council and Office for National Statistics

The average full time earnings for the area served by the County Council is shown on the chart below, across the council boundaries and in comparison with the South West and with England and Wales. The full time earnings for Dorset are lower than for the South West, and lower than for England and Wales.



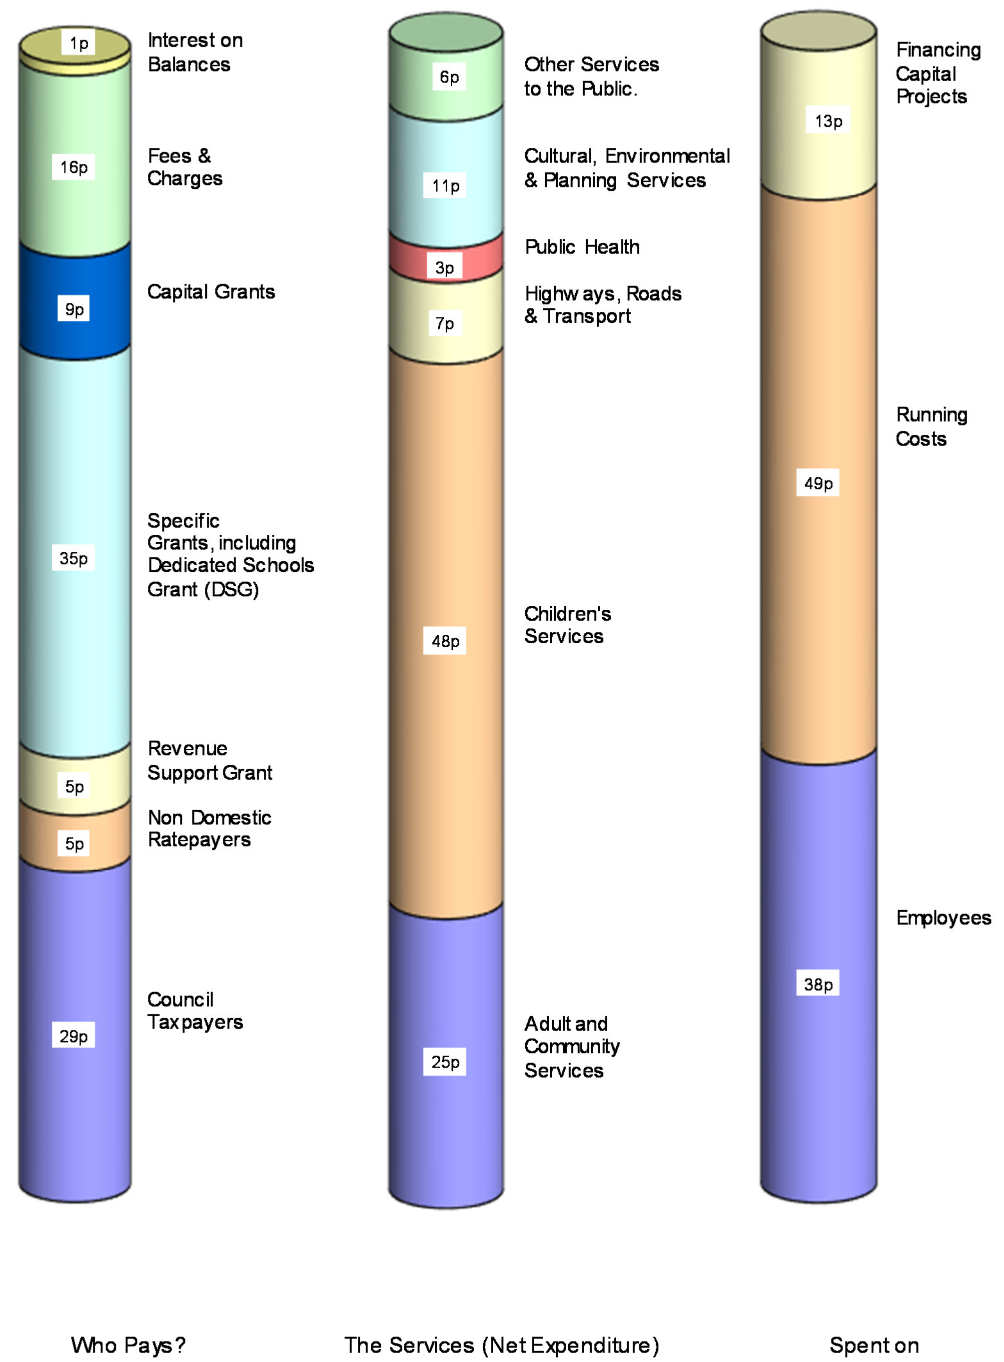
Source: Annual Survey of Hours and Earnings 2015, Office for National Statistics

The average price of properties in the region of Dorset served by the County Council is shown below, compared with the South West and with England and Wales. The average price of properties in Dorset is higher than the South West region, and higher than for England and Wales.



Source: House Price Index, Land Registry

Where the money comes from - and how each £1 is spent

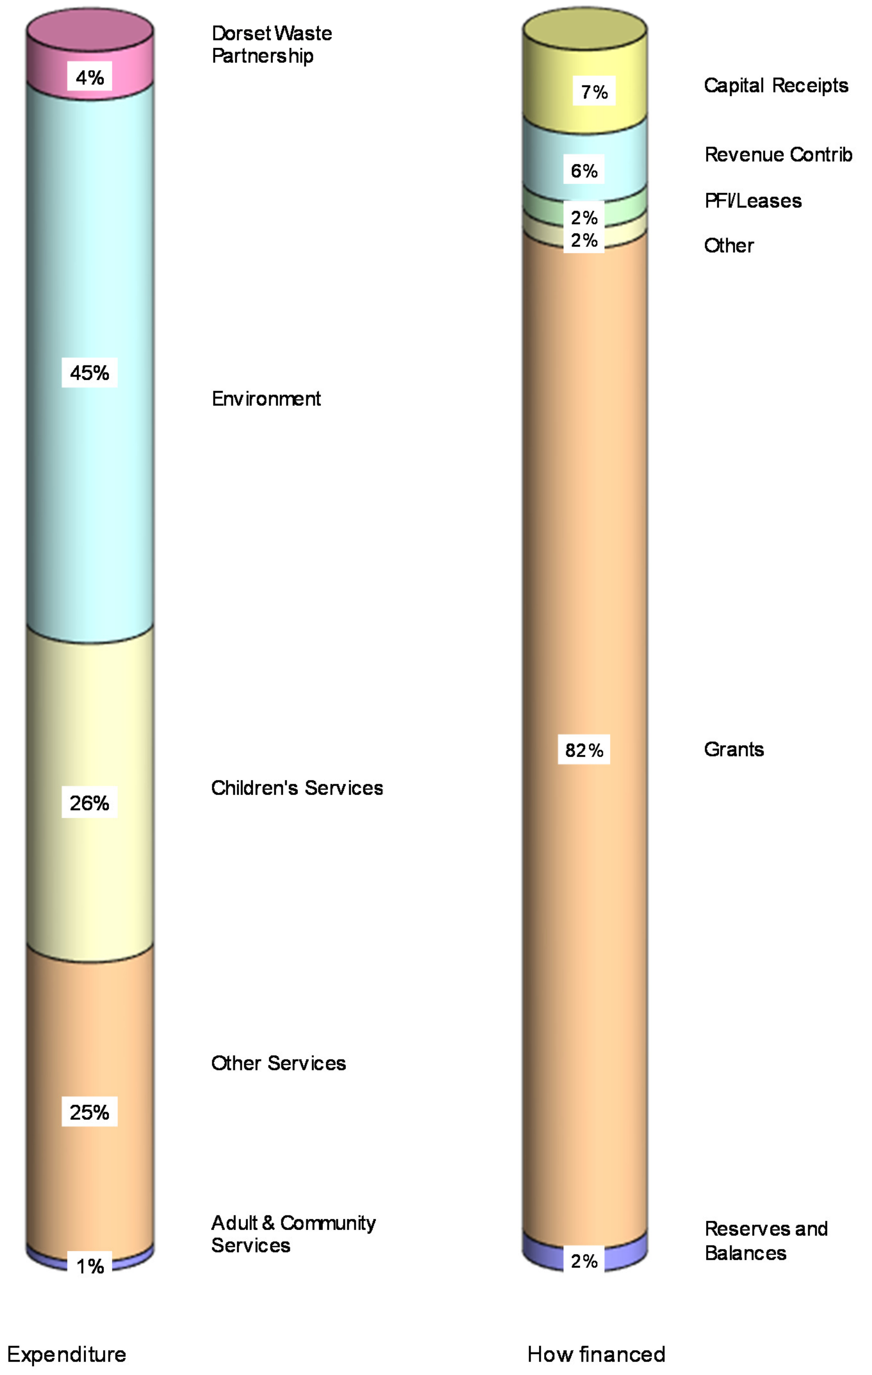


The columns show the proportion of each £1 that is received from or spent on the indicated categories. The first column shows the sources of income to the County Council, the second indicates the demands on the County's resources made by each service, and the third column shows how the money is spent in terms of employee costs, running costs and capital charges.

Capital Spending

The following charts show how the capital spending for the year of £88 million is distributed over the services provided by the County Council, and how it is financed.

Environment Services includes countryside, county farms and highways. Other services includes IT equipment.



Reserves & balances

A full analysis of the Authority's reserves is provided in the notes to the accounts. The level of usable reserves (those which the Council can use to deliver services) decreased by £20.6m during the year. The level of the Council's general balances (usable reserves which have not been specifically earmarked for a particular purpose) increased by £2.7m, mainly due to the MRP changes. The balance of this general fund, at £14.7m in total, which is close to the middle of our designated operating range which spans £10m to £20m.

Spending Review 2015 and the local government finance settlement resulted in a reduction of nearly £18m to the County Council's base funding for 2016/17. Not only was the level of reduction significant but there was no warning or consultation on the changes to the funding formula that delivered this outcome. As a result, when setting the budget strategy for 2016/17 the County Council had to apply £2.2m of its reserves to achieve the balanced budget required by statute. The funding reductions themselves continue past 2016/17 however, and despite prudent use of reserves to balance the 2016/17 position, the Council will lose a further £30m of funding by the end of the current parliament.

Minimum Revenue Provision

Minimum revenue provision (MRP) is a charge to the Council's revenue account to provide for the repayment of outstanding capital borrowing. By regulation, the County Council is required, annually, to determine for the current financial year, an amount of minimum revenue provision which it considers to be prudent. Until 31 March 2015, the County Council made provision at a rate of 4%.

During 2015/16 the County Council changed the provision rate to more closely align MRP with the lifespan of the assets against which borrowing was applied. Where capital expenditure was incurred before 1 April 2008, MRP will continue to be charged at 4% of the outstanding capital financing requirement. For capital expenditure incurred between 1 April 2008 and 31 March 2010 and funded through borrowing, the council will also continue to calculate MRP at a rate of 4% - based on the asset life being at least 25 years. For capital expenditure incurred on or after 1 April 2010 provision will be made based upon the asset life method but increased to 40 years and therefore 2.5%.

Although this is a change in the calculation, it does not constitute a change in accounting policy, so there is no need for prior period adjustment and the adjustment to the cumulative total MRP has been made in 2015/16. This cumulative adjustment is the key reason why the Council's budget has effectively underspent this year.

Borrowing and funding sources

The Prudential Borrowing system enables councils to borrow for capital investment without Government consent, as long as they can afford to service the debt. Before 2005/06 the Council did not exercise its powers to borrow for expenditure not supported by Government grant. However, primarily to provide funding for the schools modernisation programme in the capital programme, from 2005/06 the County Council borrowed without grant funding support. At the end of 2015/16 the County Council's capital financing requirement was £287.3m, with just under £39m relating to PFI schemes and finance leases. Total external borrowing was £184.3m externally, with the remainder financed temporarily from internal balances.

Provisions, contingencies and write-offs

Movements in provisions, contingent and other long-term liabilities are disclosed in the notes to the financial statements. There have been no material changes in amounts during the year.

During the year the council wrote-off £58k of trade debt that was deemed irrecoverable.

Changes in statutory functions

There were no changes in statutory functions that require disclosure during the year.

Events after the balance sheet date

There were no significant events between the balance sheet date and the approval of these financial statements which would require disclosure or adjustment of the statements.

However we were informed in May 2016 by the scheme administrator of Municipal Mutual Insurance (MMI) that our levy has been raised to 25% and a further demand of £272k was received in relation to 2015/16. Dorset County Council has sufficient funds to meet this further payment in its earmarked reserves and thus no further provision is required. See note 40 of these accounts for further details.

Adopting the measurement requirements of the Code of Practice on Transport Infrastructure Assets

CIPFA/LASAAC has agreed that the 2016/17 edition of the Code will adopt the measurement requirements of the CIPFA Code of Practice on Transport Infrastructure Assets, as amended in 2013 (or any subsequent amendments to that Code that may be issued) ie measurement on a Depreciated Replacement Cost (DRC) basis. This change will constitute a change in accounting policy from 1 April 2016 and therefore should require full, retrospective restatement in accordance with the requirements of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and IAS 1 Presentation of Financial Statements as adopted by this Code.

However, exceptionally, the 2016/17 Code will include an adaptation to IAS 1 for the transition for the move to measuring the Highways Network Asset at Depreciated Replacement Cost so that there is no requirement to restate the preceding year information or for an opening balance as at 1 April 2016. The change will therefore be accounted for as an adjustment to opening balances as at 1 April 2016.

Pension Fund

The recovery in global financial markets since the major fall in market values in 2008/09 has slowed in 2015/16. Note 7 on page [73] shows that the Fund as a whole had investment assets of £2.276bn at 31 March 2016, marginally down from £2.325bn at 31 March 2015 but still significantly ahead of the £0.999bn low of the financial crisis at 31 March 2009. Note 12 details the pension performance of the Fund for the year to 31 March 2016, which showed a total positive return of 0.08% against a benchmark of minus 0.92%. The triennial valuation conducted by the Fund's actuary as at 31 March 2013 showed an increase in liabilities and at this valuation the net liabilities were valued at £444m, up from £434m as at the 31 March 2010 valuation. This resulted in the Fund having a funding level of 82%, meaning the investment asset value was 82% of the total liabilities. The liabilities are long term in nature and represent all future retirement commitments, meaning that there is not an immediate problem for the Fund. The valuation in part has been affected by the historically low discount rate (related to bond yields) used in the calculations. Currently the cash flow continues to be positive with the Fund receiving more cash in the form of contributions from employees and employers, than it pays out in the form of pensions. In addition to this, surplus investment returns add to the positive cash flow position. The next actuarial valuation, as at 31st March 2016, will be provided by the fund Actuary during 2016.

Basis of preparation

The accounts for 2015/16 are prepared in accordance with:

- the Accounts and Audit Regulations 2015
- the CIPFA Code of Practice on Local Authority Accounting 2015/16
- the CIPFA Service Reporting Code of Practice (SERCOP) for the Comprehensive Income and Expenditure Statement.

This narrative statement provides context for the financial performance of the Council for the financial year and for its financial position as at 31 March 2016. In addition, separate summarised accounts are included in this document for the Dorset Pension Fund. Each set of accounts has its own explanatory notes, which provide further information.

The Primary Financial Statements comprise:

i) Comprehensive Income and Expenditure Statement (Pages 34 to 37)

This statement summarises the Council's total income and expenditure for the year. The statement shows the cost for the year of providing services in accordance with generally accepted accounting practices (under IFRS), rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations - which is different from the accounting cost. The difference between the accounting cost and costs chargeable to taxation are adjusted through the *statement of movement in reserves*.

There are separate statements are for DCC as a single-entity and the DCC group.

ii) Balance sheet (Page 38)

The balance sheet shows the value of assets and liabilities recognised by the County Council at a specific point in time. The net assets of the Authority (assets less liabilities) are matched by the reserves held. Reserves are reported in two categories. The first category, *usable reserves,* are those that the Authority may use to provide services - subject to the need to maintain a prudent level of general funds. The second category, unusable reserves, comprises funds that the Authority is not able to use to provide services. This category includes reserves such as unrealised gains and losses (for example the Revaluation Reserve) where amounts would only become available to provide services if the assets were to be sold, and reserves that hold timing differences shown in the *Movement in Reserves Statement* line *Adjustments between accounting basis and funding basis under regulations*.

The balance sheet identifies, in columnar format, the financial position both for DCC as a single-entity and for the DCC group.

iii) Statement of Movement in Reserves (Pages 39 to 40)

This statement shows the movement in the year on the different reserves held by the County Council, analysed into usable and unusable amounts. The *Surplus or (Deficit) on the Provision of Services* line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund for taxation purposes.

The Statement of Movement in Reserves identifies, in columnar format, the financial position both for DCC as a single-entity and for the DCC group

iv) Cash Flow Statement (Page 41 to 42)

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the County Council generates and uses cash and cash equivalents by classifying cash flows under a number of specified headings.

There are separate statements are for DCC as a single-entity and the DCC group

v) Notes to the Financial Statements (Pages 43 to 68)

These give further information and explanations of the figures in the primary financial statements. There are disclosures covering the single-entity and consolidated (group) information.

vi) Dorset County Pension Fund Accounts and Notes (Pages 69 to 81)

These summarise income and expenditure transactions and net worth of the Dorset Pension Fund, followed by further explanatory notes relevant to the Pension Fund.

Richard Bates

Chief Financial Officer

Trevor Jones

Chairman of the Audit & Governance Committee

STATEMENT OF RESPONSIBILITIES

The following statement describes the respective responsibilities of the County Council and the Chief Financial Officer for the Financial Statements.

The County Council is responsible for:

- securing appropriate arrangements for the proper administration of its financial affairs and ensuring that the nominated officer, namely the Chief Financial Officer, has the responsibility for them;
- managing its affairs so as to ensure the economic, effective and efficient use of resources and the safeguarding of assets;
- approving the Financial Statements.

The Chief Financial Officer is responsible for:

- the preparation of the Council's Financial Statements (including those of the Dorset County Pension Fund) so as to ensure they give a true and fair view of the financial position at the accounting date and its income and expenditure for the year;
- selecting suitable accounting policies and applying them consistently;
- making reasonable and prudent judgements and estimates;
- complying in all material aspects with the Code of Practice on Local Authority Accounting in the United Kingdom and Best Value Accounting;
- keeping proper, up to date, accounting records, and taking reasonable steps for the prevention and detection of fraud and other irregularities.

Further information about policies, procedures, publications and contact details for the County Council and other relevant local authorities can be found on the dorsetforyou.com web site.

1 INTRODUCTION

These accounts have been prepared in accordance with the principles recommended in the (IFRS Compliant) Code of Practice on Local Authority Accounting (The Code) and the Service Reporting Code of Practice (SERCOP), issued by the Chartered Institute of Public Finance and Accountancy (CIPFA). In complying with The Code, these Financial Statements also comply with International Financial Reporting Standards (IFRS) as they apply to Local Authorities in England.

2 ACCOUNTING CONVENTIONS & MEASUREMENT BASES

The Financial Statements of the Authority are prepared on the basis of historic cost except where disclosed otherwise in Accounting Policies or notes, or where required by IFRS. Areas where there is divergence from the historic cost convention typically include the revaluation of property, plant and equipment; inventories and certain financial assets and liabilities. The Financial Statements have been prepared with due regard to the pervasive accounting concepts of accruals, going concern and primacy of legislative requirements.

3 REVENUE RECOGNITION

The revenue recognition principle is a cornerstone of accrual accounting and determines the accounting period in which revenues and expenses are recognised. The County Council's policy is that revenues are recognised when they are realisable and are earned (usually when goods are transferred or services rendered), no matter when cash is received.

4 CHANGE OF ACCOUNTING POLICIES

Accounting policies are the specific principles, bases, conventions, rules and practices applied by an entity in preparing and presenting Financial Statements. An entity is permitted to change an accounting policy only if the change is required by a standard or interpretation; or results in the Financial Statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity's financial position, financial performance, or cash flows.

If a change in accounting policy is required by a change in reporting standards, the change is accounted for as required by that new pronouncement. If the new pronouncement does not include specific transition provisions, then the change in accounting policy is applied retrospectively. Retrospective application means adjusting the opening balance of each affected component for the earliest prior period presented, along with other comparative amounts disclosed for each prior period presented, and restating them as if the new accounting policy had always been applied.

5 PRIOR PERIOD ADJUSTMENTS

Prior period adjustments are material adjustments applicable to prior periods arising from either changes in accounting policies, or the correction of material errors. Prior period adjustments are accounted for by restating the comparative figures for each prior period presented in the primary statements and notes and adjusting the opening balances for the current period for the cumulative effect.

6 EVENTS AFTER THE BALANCE SHEET DATE

These are defined as events, which could be favourable or unfavourable, that occur between the end of the reporting period and the date that the Financial Statements are authorised for issue.

An adjusting event is an event that provides evidence of conditions that existed at the end of the reporting period, including an event that indicates that the going concern assumption in relation to the whole or part of the enterprise is not appropriate. An adjusting event is one where the Financial Statements are adjusted to reflect the event.

A non-adjusting event is an event that is indicative of a condition that arose after the end of the reporting period. Non-adjusting events are disclosed in the Financial Statements if it is considered that non-disclosure would affect the ability of users to make proper evaluations and decisions, but the Financial Statements themselves are not adjusted to include the financial impact of it.

7 FINANCIAL INSTRUMENTS

In accordance with IFRS 7 and IFRS 9, financial assets and financial liabilities are recognised in the Authority's Balance Sheet when the Council becomes a party to the contractual provisions of the instrument.

Financial assets

The Authority has three classes of financial assets being:
(a) cash and cash equivalents
(b) investments
(c) trade receivables.

Trade receivables are recorded within debtors and payments in advance and disclosed separately in note 34.
Investments are shown either as long term investments or temporary investments in the Balance Sheet and analysed in note 31.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at each Balance Sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted. For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of a provision account (though this itself netted off within the receivables total). Changes in the carrying amount of the provision account are recognised in the Comprehensive Income & Expenditure Statement.

Cash and cash equivalents

Cash is defined as cash in hand and deposits with any financial institution repayable without penalty or notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

Financial liabilities
The Authority's financial liabilities are classified within the other creditor or liability headings as appropriate and disclosed within the notes to the Financial Statements.

Short term financial liabilities
Short term liabilities including short term borrowing and trade payables are carried at fair value.

Long term financial liabilities
Borrowings are initially measured at fair value, net of transaction costs. PFI liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability.

8 CONTINGENT LIABILITIES
In accordance with IAS 37, a contingent liability is:

(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the authority, or;

(b) a present obligation that arises from past events but is not recognised because;
(i) it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, or;
(ii) the amount of the obligation cannot be measured with sufficient reliability.

No provision is made in the accounts for contingent liabilities. Details of any other liabilities are disclosed in the notes to the Financial Statements.

9 AGENCY ACCOUNTING
Council Tax revenue is reported in the Comprehensive Income and Expenditure Statement on a full accruals basis. The Authority also shows a share of the Billing Authorities debtors and creditors for Council Tax, proportionate to the relative demand on the Collection Fund.

10 REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

Where capital expenditure does not result in the acquisition of a non-current asset, or is incurred on an asset not belonging to the County Council (such as a Voluntary Aided school), the expenditure is charged directly to the relevant service in the year it occurs, with the necessary appropriations from the Capital Adjustment Account shown in the Statement of Movement in Reserves.

11 INTANGIBLE ASSETS

i Recognition

Expenditure on the purchase of computer software licences is capitalised as intangible non-current assets. Internally developed intangible assets can only be capitalised where they satisfy the criteria set out in IAS 38. There are no such assets for Dorset County Council.

ii Measurement

Purchased intangible assets are capitalised at cost, and are unlikely to be revalued unless there is a readily ascertainable market value.

iii Amortisation

Intangible assets are amortised on a straight line basis over their useful economic lives, with no residual value. Intangible assets are amortised over periods ranging from 2 to 4 years.

iv Charges To Revenue

Capital charges to services are for depreciation or impairment. These charges are reversed in the Statement of Movement in Reserves (General Fund Balance) so the cost to the local taxpayer is unaffected by capital accounting requirements.

v Impairment

Impairment of intangible assets is taken to the Revaluation Reserve in the first instance, and will only be charged to Surplus or Deficit on the Provision of Services once the balance on the reserve in relation to the intangible asset has been reduced to zero.

vi Reversal of impairment

Intangible assets are reviewed annually to determine whether there is any indication that an impairment loss recognised in earlier periods for an asset may no longer exist or have decreased. If any such indication exists, the recoverable amount of that asset is estimated.

The reversal of an impairment loss of an asset (previously recognised in Surplus or Deficit on the Provision of Services) is only permitted to be recognised if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If there is an indication that the impairment loss recognised for an asset may no longer exist or may have decreased, this may indicate that the useful life, the depreciation method or the residual value need to be reviewed, even if no impairment loss is reversed for the asset.

The reversal of an impairment loss previously recognised in Surplus or Deficit on the Provision of Services shall not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. Any excess above the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years is treated as a revaluation gain and charged to the Revaluation Reserve.

12 FOREIGN CURRENCY TRANSLATION

In accordance with IAS 21, income and expenditure arising from transactions in foreign currency are translated into sterling at the exchange rate in operation on the date on which the transaction occurred. Balances denominated in a foreign currency are translated at the prevailing exchange rate at the Balance Sheet date.

13 GRANTS & THIRD PARTY CONTRIBUTIONS

All grants and contributions are realised in the Comprehensive Income & Expenditure Statement once there is reasonable assurance that any conditions applying to the income will be fulfilled, in accordance with IAS 20. Capital grant is initially transferred to the Capital Grants Unapplied Account. When the associated capital expenditure has been incurred, the grant is transferred to the Capital Adjustment Account. Unspent revenue grants are transferred to an earmarked revenue reserve. Once the expenditure is incurred the reserve is applied to fund that expenditure.

14 INTEREST

Interest receivable on temporary investments is reported in the Comprehensive Income & Expenditure Statement in the period to which it relates. Interest payable on external borrowing is fully accrued in order that the period bears the full cost of interest relevant to actual borrowing. Other types of interest (e.g. for finance leases) are reported in service accounts. An analysis of all interest payable is disclosed in the notes to the Financial Statements.

15 INVESTMENTS

The Authority holds no investments in companies or marketable securities. Short-term cash surpluses are invested with other Local Authorities, banks and building societies in accordance with the CIPFA Code on Treasury Management as detailed in the notes to the Financial Statements. Details of investments held by the Pension Fund are disclosed in the notes to the Pension Fund Financial Statements.

16 LEASES

In accordance with IAS 17, leases are classified as finance leases when substantially all the risks and rewards of ownership transfer to the lessee. All other leases are classified as operating leases.

For operating leases where DCC is the lessee, lease payments are recognised as an expense in the Comprehensive Income & Expenditure Statement over the life of the lease on an accruals basis.

For finance leases where DCC is the lessee, at the start of the lease term, the Authority records an asset and a corresponding liability at the lower of the fair value of the asset and the present value of the minimum lease payments. Finance lease payments are apportioned between the finance charge and the reduction of the outstanding liability so as to produce a constant periodic rate of interest on the remaining balance of the liability. Depreciation on finance leases is consistent with that for other property, plant and equipment.

For operating leases, where Dorset County Council is the lessor, lease receipts are recognised as income in the Comprehensive Income & Expenditure Statement over the life of the lease on an accruals basis. Where Dorset County Council is the lessor for a finance lease, at the commencement of the lease term, the Authority records a finance lease in the Balance Sheet as a receivable, at an amount equal to the net investment in the lease.
The Authority recognises finance income based on a pattern reflecting a constant periodic return on its net investment outstanding in respect of the finance lease.

Land and buildings elements of a lease of land and buildings are classified and accounted for separately. Leased land is always treated as an operating lease; buildings are assessed separately to determine whether they are finance or operating leases.

17 LEASE TYPE ARRANGEMENTS

IFRIC4 sets out the principle that in recent years, arrangements have developed that do not take the legal form of a lease, but which convey rights to use assets in return for a payment, or series of payments. Such arrangements are deemed to be leases where:

(a) fulfilment of the arrangement depends on a specific asset
(b) the arrangement conveys a right to control the use of the asset.

In such cases, the transaction is deemed to be a lease and is assessed as to whether it is an operating or finance lease and accounted for accordingly. Dorset County Council has no such arrangements in place.

18 PFI Schemes

The County Council is party to two long term contracts under the Private Finance Initiative (PFI); one for the provision of a replacement secondary school, the other for the provision of street lighting. The Authority accounts for both of these schemes in accordance with IFRIC 12 (Service Concessions). Both schemes are recorded as assets in the Council's Balance Sheet with corresponding liabilities which are discharged over the period of the contract.

19 OVERHEADS (SUPPORT COSTS)

Support Services are corporate activities of a professional, technical and administrative nature that are carried out in support of the direct service provision of the Authority. The Service Reporting Code of Practice requires Authorities to adopt consistent policies when allocating the costs of these services to users. These activities are fully allocated over all services on the basis of use. Time recording systems are operated by central support services to enable more accurate recharges of costs to customers. Charges for office accommodation are based on the floor area allocated to services. Other centrally provided services are recharged on the basis of actual usage, e.g. IT Services, or by direct charges to customers, e.g. printing.

Service level agreements defining the agreed quantity, cost and types of service to be provided for individual managers are also used in relation to the limited number of internal trading organisations operated by the Council. Contractual agreements have been established by a number of Directorates of the Authority to provide services to, amongst others, further education colleges, Care South, Dorset Police and Dorset Fire Authority.

Some overheads are not apportioned, recognising the Council's status as a multi-functional, democratic organisation. These costs are shown as part of the Net Cost of Services under the Corporate and Democratic Core heading in the Comprehensive Income & Expenditure Statement, along with certain other non-distributed costs relating to pension benefits.

20 PENSIONS

The cost of pensions is accounted for in accordance with IAS 19.

The net total of the following amounts is recognised in the Surplus or Deficit on the Provision of Services except to the extent that the Code requires or permits their inclusion in the cost of an asset:

a) current service cost
b) interest cost
c) the expected return on any plan assets and on any reimbursement right recognised as an asset
d) past service cost
e) the effect of any curtailments or settlements.

21 PROVISIONS

In accordance with IAS 37, the County Council maintains provisions to meet liabilities arising from past events, where it is deemed that there will be a future obligation, but the timing and precise amount are uncertain. The adequacy of the County Council's provisions is reviewed annually. Provisions are measured at the present value of the expenditure required to settle the obligation, where the time value of money is significant.

The Council maintains external insurance only for major risks, self-funding the remaining significant elements of risk. A provision has been established to meet insurance liabilities not covered externally. Provisions are separately disclosed on the face of the Balance Sheet, classified as to current or non-current liabilities (all are deemed to be current liabilities).

22 REDEMPTION OF DEBT

The County Council finances a proportion of its capital spending by borrowing and is required to charge a prudent percentage of the previous year's Capital Financing Requirement in the Comprehensive Income & Expenditure Statement in each financial year. Details are shown in the notes to the Financial Statements.

23 RESERVES

A number of earmarked reserves have been established to meet future expenditure. These include reserves to finance particular capital projects and reserves to smooth irregular expenditure. Many new reserves were established with the transition to IFRS, due to the change in accounting policy for grants and other contributions.

Reserves which are the result of IFRS compliance (rather than reserves held for designated purposes by the Authority) continue to be shown separately within note 51.

24 INVENTORIES

In accordance with IAS 2, stocks and stores held at the year-end are valued at the lower of cost and net realisable value. Certain minor stocks are not valued (e.g. stationery) and are therefore excluded from the Balance Sheet. The requirement for stock is regularly reviewed.

25 PROPERTY, PLANT & EQUIPMENT

i Recognition

The Code requires Authorities to maintain asset registers to record information on their capital assets. These assets are valued and revalued periodically by professional valuers, for inclusion in the Balance Sheet in accordance with IFRS 13 and IAS 16.

A de-minimis level of £25,000 has been applied to Land and Buildings. There is no de-minimis for other asset classes.
Property, plant and equipment is capitalised if:

(a) it is held for use in delivering services or for administrative purposes
(b) it is probable that future economic benefits will flow to, or service potential will be supplied to the Authority
(c) it has a useful economic life of more than one year
(d) the cost of the item can be measured reliably.

The main assets will be classified as follows (RICS Valuation – Professional Standards UK 2014 – UK Appendix 5: 2.1):

Property, plant and equipment (PPE):

These assets form the majority of the County Council's portfolio and are used in the delivery of services and/or the production of goods. These operational assets may be rented to others, but would not be held solely for that purpose or they would be re-classified as investment assets (INV). The County Council holds no investment assets which fall to be valued in the 2016 valuation report.
PPE assets are tangible fixed assets that bring longer-term economic benefits or service potential to the authority

Property, plant and equipment - Surplus (PPES):

Surplus Assets are formerly PPE assets which have been declared surplus to service needs and the needs of the County Council. These are non-operational assets which are yet to meet the criteria of asset held for sale (AHS)

Assets held for sale (AHS):

Assets held for sale is the next classification afforded to PPES assets which are being marketed for disposal. The asset must be immediately available for sale and the sale of the property must be highly probable and anticipated to be within a year. AHS should be measured at the lower of carrying amount and fair value less costs to sell.

ii Measurement

Assets will be valued to either Fair Value (FV) or Current Value (CV):

Fair Value (FV) - defined under IFRS as: 'The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date'. Fair Value applies to the measurement of PPES and AHS categories of assets. For most practical purposes the figure to be reported as the Fair Value of an asset is likely to be conceptually the same as that which would be reported as market value and implies the highest and best use of that asset in the principal or most advantageous market.

Current Value (CV) – defined as: the amount that would be exchanged for the asset in its existing use. Several methods are identified as appropriate for arriving at a CV

Existing Use Value (CVEUV) - is to be used only where the asset is occupied by the authority and which provides a service potential where an active market exists. EUV is defined as: The estimated amount for which a property should exchange on valuation date between a willing buyer and a willing seller in an arm's-length transaction after proper marketing and where the parties had acted knowledgeably, prudently and without compulsion, assuming that the buyer is granted vacant possession of all parts of the asset required by the business, and disregarding potential alternative uses and any other characteristics of the asset that would cause its market Value to differ from that needed to replace the remaining service potential at least cost.

Depreciated Replacement Cost (CVDRC) is a method of valuation which provides the current cost of replacing an asset with its modern equivalent asset less deductions for all physical deterioration and all relevant forms of obsolescence and optimisation. Where DRC is used as the valuation methodology the 'instant build' approach is used. This method of valuation is applied to assets for which there is a good degree of observable specialisation or for which there is no readily reliable or observable market data.. It should be noted that the DRC method of valuation does not represent the figure that could be achieved if the asset were to be placed on the market for sale. It is a representation of the value of the asset to the authority while it is providing service potential.

Assets are re-valued with sufficient regularity to ensure that the carrying amount (net book value) of an asset does not differ materially from that which would be determined at the end of the financial year in which the 2016 valuation report is prepared.

Comparable evidence, BCIS build costs and Baseline build costs will be compiled and assessed and utilised as appropriate to provide the values for each asset. Dorset Property Buildings and Design services will be utilised to provide component details for each asset as required, including updates to previously componentised assets as required and where replacement of elements has occurred.

In respect of DRC valuations the Valuer will rely on projected BCIS data utilising the first quarter 2015 average prices index for the relevant class of asset. Due regard will be given to the Baseline cost directive where appropriate.

In respect of DRC calculations where multiple age buildings exist on one site, an average age and obsolescence factor will be applied, taking into account the age and type of structures and the anticipated replacement cycle of the asset as assessed by the service head/asset team

Valuations of land may include calculations utilising a Residual Valuation approach to arrive at a Fair Value where there is limited suitable comparable data to available.

Section 2.10.2.29 of the Code iterates IFRS 13 in the provision of valuation hierarchy levels for assets classified as PPES and AHS to increase consistency and comparability in fair value measurements and related disclosures. These are categorised into three levels

Level 1 Inputs – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date
Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3 Inputs – unobservable inputs for the asset or liability.

The highest priority is given to quoted prices (unadjusted) in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The assets valued in the 2016 valuation report are not identical and therefore hierarchy 1 reporting and disclosure is not possible. All assets held at PPES and AHS attract a hierarchy level 2 unless specifically stated in the special assumptions of the 2016 valuation report

Where the MV of an asset valued using the DRC method is:

- significantly lower than that attributed to the continued occupation and use by the authority it will be noted in the notes section of the summary valuation.
- significantly higher for a readily identifiable use the value will also be given in the same notes section.

County Farms are categorised as Property Plant and Equipment (PPE) and have been valued on a CVEUV basis as tenanted farms to be re-let on a rolling and planned basis for the foreseeable future due to established County Council policy drivers. There will be occasional rationalisation of farm units which may release additional value but which would not be appropriate to report against any of the assets due to the overriding principle of maintaining a County Farm asset base. The County Farms are valued using capitalised net income flows: this approach excludes any alternative use, FV basis or break-up value: if those policies were reversed all County Farms would display considerably higher FV figures

At the end of April 2016 the Valuer undertook an impairment or material economic change review to ensure that assets are carried at no more than their recoverable amount (i.e. the amount to be recovered through use or sale of the asset). This year end assessment is required to indicate if an asset might be impaired or had any material economic change to its value.

iii Impairment

Assets are reviewed annually for evidence of impairment. Impairment is the reduction in the recoverable amount of a non-current asset below the amount at which it is being carried in the Balance Sheet. It can be the result of physical damage, use, obsolescence or the passing of time. If any indication of impairment exists, the recoverable amount is estimated. Upward revaluation of an asset is matched by an increase to the Revaluation Reserve to reflect an unrealised gain. Where an asset is impaired (downward revaluation), the value of the asset is written down to the recoverable amount as soon as the impairment is recognised. Impairment losses on revalued assets are recognised in the Revaluation Reserve, up to the amount in the Reserve for each respective asset and thereafter charged to Surplus or Deficit on the Provision of Services.

iv Reversal of impairment

Assets are reviewed annually to determine whether there is any indication that an impairment loss recognised in earlier periods for an asset may no longer exist or have decreased. If any such indication exists, the recoverable amount of that asset is estimated.

The reversal of an impairment loss of an asset (previously recognised in Surplus or Deficit on the Provision of Services) is only permitted to be recognised if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised.

If there is an indication that the impairment loss recognised for an asset may no longer exist or may have decreased, this may indicate that the useful life, the depreciation method or the residual value need to be reviewed, even if no impairment loss is reversed for the asset.

The reversal of an impairment loss previously recognised in Surplus or Deficit on the Provision of Services shall not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. Any excess above the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years, is treated as a revaluation gain and charged to the Revaluation Reserve.

v Disposals

Capital receipts from the disposal of property and other assets owned by the Council, less up to 4% of the cost of the sale, are credited to the usable capital receipts reserve and used to finance new capital expenditure.

vi Gains and losses on disposal of assets

A gain or loss arises when the proceeds from the sale of an asset differ from the net book value of that asset in the Balance Sheet. The gain or loss is shown in the Other Operating Income & Expenditure section of the Comprehensive Income & Expenditure Statement and reversed out in the Statement of Movement in Reserves (General Fund Balance).

vii Depreciation

Tangible non-current asset depreciation is charged in the Comprehensive Income & Expenditure Statement where the assets have a finite useful life. This includes buildings in accordance with the requirements of IFRS. As part of the annual valuation of assets, the Valuation and Estates Manager determines the estimated useful life of the properties.

The depreciation charge is based on equal annual instalments over the expected life of the asset with no allowance for residual value. Generally, vehicles and equipment are depreciated over periods of 2 to 10 years and buildings over periods of 20 to 60 years. No depreciation charge is made for land or community assets. Infrastructure assets are treated on a pooled basis and are depreciated on a reducing balance basis.

viii Charges to revenue

Capital charges to services are for depreciation and/or impairment only. These charges are reversed in the Statement of Movement in Reserves (General Fund Balance) in order that the cost to the local taxpayer is unaffected by capital accounting requirements.

ix Subsequent expenditure

Where subsequent expenditure enhances an asset beyond its original specification, the directly attributable cost is capitalised. Subsequent expenditure which does not add to the future economic benefits or service potential of the asset, is expensed in the Comprehensive Income and Expenditure Statement in the year in which it is incurred.

x Componentisation

Component accounting has applied (prospectively) since 1 April 2010. Component accounting is the separate recognition of two or more significant components of an asset for depreciation purposes (ie as if each component were a separate asset in its own right) where the useful life is substantially different.

Each part of an item of property, plant or equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. Assets are reviewed for componentisation whenever they are acquired, revalued, or enhanced.

The annual valuation exercise that is carried out by the Authority revalues a proportion of the Council's assets each year. A policy for assessing these assets for componentisation was developed with the Valuations & Estates Team and approved by the Auditors in 2010/11. This looks at componentising over a six year period.

xi Component derecognition

Where a component is replaced or restored, the carrying amount of the old component is derecognised to avoid double-counting and the new component reflected in the carrying amount, subject to the recognition principles set out in accounting policy 26(i) and 26(ix). This includes derecognition of parts of an asset not previously recognised as a separate component, the componentisation of which has been triggered by the replacement or restoration.

xii Residual values

DCC does not use residual values in its asset accounting or depreciation calculations. The accounting policy is to depreciate the full cost of the asset over the useful economic life.

26 DONATED ASSETS

Donated assets, transferred to the Authority for nil consideration, are recognised immediately at fair value as assets on the Balance Sheet. The asset is recognised in the Comprehensive Income & Expenditure Statement as income unless the transfer has a condition that the Authority has not satisfied. In which case the asset is credited to the Donated Assets Account and recognised in the Comprehensive Income & Expenditure Statement once the condition has been met. Donated assets are valued, depreciated and impaired in accordance with the accounting policies for other noncurrent assets.

27 VAT

Income and Expenditure excludes any amounts relating to VAT, as all VAT collected is payable to HM Revenue and Customs and all VAT is recoverable from them.

28 HERITAGE ASSETS

FRS 30 defines a heritage asset as one with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture. The Code offers further interpretation of this definition: "heritage assets are those assets that are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations. They are held by the reporting entity in pursuit of its overall objectives in relation to the maintenance of heritage."

DCC has interpreted this to mean that an asset is not classified as a heritage asset merely because it has certain qualities (e.g. a listed building). It is the intention to preserve the asset for future generations that is important, coupled with a demonstrable contribution to knowledge and culture.

Operational heritage assets have always been shown in the Balance Sheet under their appropriate classifications. These assets continue to be shown in this way and carried in accordance with the other asset accounting policies set out herein. FRS 30 and the Code (4.10.2.7) do not apply to such assets.

Heritage assets (other than operational heritage assets) are measured at a valuation in line with FRS 30. The standard states that the valuation may be made by any method that is appropriate and relevant. Buildings are valued at depreciated replacement cost. Other Heritage assets are not deemed to have a material value and the cost involved in valuing them would be disproportionate to the benefit received by the users of these Financial Statements.

Dorset also owns significant volumes of archive information and collections. These are not included in the Balance Sheet as the cost of valuation would not be commensurate with the benefits of the information and the valuations would not be readily ascertainable in many cases.

29 INVESTMENT PROPERTY

Investment property is defined by IAS 40 as property (land or a building, or part of a building, or both) held to earn rentals or for capital appreciation or both, rather than for:

(a) use in the production or supply of goods or services or for administrative purposes, or

(b) sale in the ordinary course of operations.

Changes to fair value of Investment Property are taken to Surplus or Deficit on the Provision of Services and then reversed out to the Capital Adjustment Account.

30 ACQUIRED AND DISCONTINUED OPERATIONS
Activities are considered to be acquired only if they are acquired from outside the Public Sector. The Code does not include local government reorganisation since any 'machinery of government' changes are neither acquired nor discontinued operations. Similarly, activities are deemed to be discontinuing only if they are transferring outside of the Public Sector, or if they are ceasing completely.

Notwithstanding this, note 5 provides information about schools which achieved/plan to achieve Academy status in 2015/16 and 2016/17.

31 EMPLOYEE BENEFITS
Salaries, wages and employment-related payments and any termination benefits are recognised in the period in which the service is received from employees. Annual leave not taken at the end of the financial year is accrued for in the Surplus or Deficit on the Provision of Services, in accordance with IAS 19.

32 DCC GROUP – BASIS OF CONSOLIDATION
DCC Group Accounts have been produced using the Equity Method of consolidation. The DCC Group position is shown either in separate, or alongside the Authority only single-entity Financial Statements. Disclosure notes to the Accounts relate to the Authority single-entity only unless otherwise stated.

33 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR DCC GROUP ACCOUNTS
The accounting policies of Tricuro Support Ltd joint venture are aligned where applicable with those of Dorset County Council.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

2014/15 Net Spending £'000	Gross Spending, Gross Income, Grants & Net Expenditure on Continuing Operations	2015/16 Gross Spending £'000	Income £'000	Specific Grants £'000	Net Spending £'000

1. Accounting standards that have been issued but not yet adopted

Appendix C of the Code requires Local Authorities to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the Code for the relevant financial year. Standards that fall into this category are:

IAS 19 - Employee Benefits
annual improvements to IFRSs (2010 - 2012 Cycle)
IFRS 11 - Joint Arrangements
amendment to IAS 16 - Property, Plant and Equipment
IAS 38 - Intangible Assets
annual Improvements to IFRSs (2012 - 2014 Cycle)
amendment to IAS 1 - Presentation of Financial Statements

All of these standards will be incorporated into the Code from 2015/16 and will be complied with by the Authority. However, none have material impact for the Council and none warrant specific disclosure in these accounts.

2. Related party transactions

Central Government

Significant grants are received from the Department for Education, the Department for Communities & Local Government and the Department of Health. Other Government Departments provide smaller levels of grant.

Specific Grants are set out in the Comprehensive Income and Expenditure Statement and Note 13.

Other Local Authorities and Bodies levying demands on the council tax

Levies paid to other bodies during 2015/16 included the following material transactions: -

2014/15 £'000		**2015/16 £'000**
559	Environment Agency	**567**
203	Southern Sea Fisheries Committee	**203**

The County Council administers the Dorset County Pension Fund on behalf of its employees and those of other local authorities in the county and other admitted bodies (charities or former local authority bodies such as Housing Associations). Employers' Contributions to the Fund are shown in the pension fund accounts.

Transactions with Bournemouth and Poole Borough Councils, Primary Care and Hospital NHS Trusts in respect of the pooled budget scheme are detailed in Note 24.

The Head of Legal & Democratic Services was Clerk to Dorset Fire Authority. The Chief Financial Officer was Treasurer to Dorset Fire Authority and Treasurer to the Dorset Police & Crime Commissioner. The County Council supplied services to these authorities as detailed in the following table.

2014/15 £'000		**2015/16 £'000**
169	Dorset Police & Crime Commissioner	**170**
164	Dorset Fire Authority	**166**

At the end of the financial year, amounts owed by related parties were as follows: -

2014/15 £'000		**2015/16 £'000**
126	Dorset Police & Crime Comm (Capital Financing)	**125**
245	Dorset Police & Crime Commissioner	**63**
232	Dorset Fire Authority	**101**

Elected Members, Staff & close families

All Councillors, Senior Officers and purchasing staff have been informed of the requirements and the need for disclosure. Some Councillors are appointed by the County Council to boards of voluntary bodies or charities in receipt of support from the County Council.

3. Disclosure of nature and extent of risk arising from financial instruments

The County Council's activities expose it to a variety of financial risks, the key risks are:

Credit risk – the possibility that other parties might fail to pay amounts due to the Council;
Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments;
Re-financing risk – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms;
Market risk - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates movements.

Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the unpredictability of financial markets, and implementing restrictions to minimise these risks. The procedures for risk management are set out through a legal framework set out in the Local Government Act 2003 and the associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. Overall these procedures require the Council to manage risk in the following ways: -

by formally adopting the requirements of the Code of Practice;
by approving annually in advance prudential indicators for the following three years limiting:

The Council's overall borrowing;
Its maximum and minimum exposures to fixed and variable rates;
Its maximum exposure to the maturity structure of its debt in any one time period;
Its maximum annual exposures to investments maturing beyond a year;

by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance.

These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. An annual review of actual performance and a mid year update are also reported to Members.

These policies are implemented by a central treasury team. The Council maintains written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash through Treasury Management Practices (TMPs). These TMPs are a requirement of the Code of Practice and are reviewed periodically.

Credit risk

Credit risk arises from deposits with financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poor's Ratings Services. The Annual Investment Strategy also imposes a maximum amount and time to be invested with a financial institution located within each category. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above.

In October 2008 the Icelandic banking sector defaulted on its obligations. The Council had £28.1m invested in this sector at that time. In accordance with accounting practice the Council has been notified of objective evidence that impairment has occurred and the investments have been impaired according to accounting requirements. The impact of the principal invested has been mitigated in the accounts according to government regulations, although all related investment income has been fully impaired.

The Council initiates a legal charge on property where, for instance, clients require the assistance of social services but cannot afford to pay immediately. The total collateral as at 31 March 2016 was £21.2m (2015 £21.9m).

Liquidity risk

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the Code of Practice. This seeks to ensure that cash is available when it is needed.

The Council has ready access to borrowings from the Money Markets to cover any day to day cash flow need, and whilst the PWLB provides access to longer term funds, it also acts as a lender of last resort to councils (although it will not provide funding to a council whose actions are unlawful). The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved prudential indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and

monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

Market risk

Interest rate risk - The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

borrowings at variable rates – the interest expense charged to the Income and Expenditure Account will rise;
borrowings at fixed rates – the fair value of the borrowing will fall;
investments at variable rates – the interest income credited to the Income and Expenditure Account will rise;
investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value on the Balance Sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Comprehensive Income and Expenditure Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Income and Expenditure Account and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in other comprehensive income and expenditure, unless the investments have been designated as Fair Value through the Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Council's prudential indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a prudential indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns.

4. Events after the Balance Sheet date

There were no material events after the balance sheet date. However we were informed in May 2016 by the scheme administrator of Municipal Mutual Insurance (MMI) that our levy has been raised to 25% and a further demand of £272k was received in relation to 2015/16. Dorset County Council has sufficient funds to meet this further payment in its earmarked reserves and thus no further provision is required. See note 40 of these accounts for further details.

5. Local Government reorganisations

Section 2.5 of the Code sets out the accounting requirements for Local Government reorganisation and other business combinations. In essence, public sector bodies are deemed to be under common control and any reorganisations are generally timed to start on 1 April. Such reorganisations are generally reflected in the accounts by re-stating the opening balance sheet for the current year. Transfers are not reflected in the Comprehensive Income & Expenditure Statement, but are instead disclosed in the Movement In Reserves Statement. The notes to the Financial Statements disclose the impact of the transfers rather than re-state comparative year figures.

Dorset Waste Partnership

On 1 April 2011, the County Council entered into a partnership arrangement with four of the District Councils (Phase 1), to form the Dorset Waste Partnership (DWP). This saw the Authority take on the net assets of each of the four Districts' Waste Collection Services. On 1 April 2013 the remaining two Districts (Weymouth & Portland Borough Council and West Dorset District Council) became full partners in the DWP (Phase 2). Detailed disclosure of the impact on the County Council's affairs was given in the Authority's previous Financial Statements and is not repeated here.

Academies

During the year ended 31 March 2016, the following Schools were established as Academies under the Academies Act 2010. The amounts in the table below are included in the Comprehensive Income & Expenditure Statement on account of each school.

	2014/15				**2015/16**		
Schools Delegated Budgets	Schools - LEA Expenditure	Dedicated Schools Grant	**Conversion Date**		**Schools Delegated Budgets**	**Schools - LEA Expenditure**	**Dedicated Schools Grant**
£'000	£'000	£'000			**£'000**	**£'000**	**£'000**
5,352	4,521	4,562	01/04/15	The Sir John Colfox School	(642)	(642)	-
473	440	391	01/04/15	Milborne St Andrew First School	-	-	-
405	392	352	01/04/15	Piddle Valley CE VA First School	55	55	-
598	580	487	01/04/15	Puddletown CE First School	(52)	(52)	-
586	527	463	01/04/15	Frome Valley CE VA First School	60	60	-
763	740	628	01/07/15	St Mark's CE Primary School, Swanage	223	171	152
532	448	421	01/07/15	Corfe Castle CE Primary School	230	119	126
913	781	721	01/07/15	Wareham St Mary Primary School	392	170	196

681	590	525	01/12/15	St Ives First School	485	265	351
518	499	465	01/12/15	St James' CE VC First School, Alderholt	367	304	302
662	620	554	01/12/15	St Mary's CE VC First School, West Moors	458	340	351
13,162	11,660	10,878			**2,852**	**1,716**	**2,411**

The funding changes in 2013/14 have simplified the recoupment from the Dedicated Schools Grant in respect of academies. The only recoupment is now for the formula funded element of Dedicated Schools Grant, which now includes the de-delegated budgets (budgets delegated to schools which maintained schools have decided to transfer back to central DSG funding). The Department For Education also makes reductions to Local Authority funding via the Education Services Grant to provide grant to academies to fund their central services (previously provided by the Authority).

As well as the fourteen converting schools named, above, three schools became Academies in 2011/12, twelve in 2012/13, two in 2013/14 and 22 in 2014/15.

The Authority also received notification from the following Schools, that they intend to become Academies under the Academies Act 2010. The amounts shown are the values of the schools balances in the Authority's General Fund as at 31 March 2016.

School	Actual/Advised Date (if known)	School Balance at 31 March 2016 Surplus/(deficit) £
Bridport Primary School	01/04/2016	221,482
Bridport, St Mary's Church of England Primary School	01/04/2016	116,551
Burton Bradstock Church of England Voluntary Controlled	01/04/2016	44,110
Loders CofE VC Primary School	01/04/2016	(35,658)
Somerford Primary School	01/06/2016	153,056
Ferndown Upper School	01/07/2016	(490,685)
Broadmayne First School	Approved	43,595
The Blandford School	Applied	228,397
Trent Young's Endowed CE VA Primary	Applied	12,751

When a School achieves Academy status, it legally closes as a Local Authority School and is immediately re-established as a separate legal entity.

When an Academy is established, it is funded directly by the Government, through distribution of General Annual Grant from the Education Funding Agency. A calculation to determine the value of any School balances in the Local Authority's accounts must be completed within four months of the transfer date. The Academy then has one month in which to appeal to the Secretary of State for a review if it disagrees with the calculated balance. The Secretary of State has three months in which to make a determination of the actual balance. The Local Authority must pay over any surplus balance to the Academy within one month of the Academy agreeing the surplus balance (or failing to apply for a review by the statutory date) or the determination of the surplus by the Secretary of State.

Where the transferring converter School has a deficit balance, the Government reimburses the Local Authority for this. For sponsored Academies, any deficit remains with the Local Authority.

Tricuro - Local Authority Trading Company (LATC)

On 1 July 2015, in partnership with Bournemouth Borough Council and the Borough of Poole, Dorset County Council launched Tricuro. Further information can be found in note 6 on Group Accounts.

6. Group accounts and disclosure of interests in other entities

Dorset Development Partnership

On 26th April 2011, the Authority entered into an agreement with BV Strategies Facilitating Ltd, to establish a Limited Liability Partnership, PSP Dorset LLP, trading as Dorset Development Partnership (the Partnership). BV Strategies Facilitating Ltd changed its name to PSP Facilitating Ltd on 24 February 2012.

The Partnership was established to build value, over and above the latent market value, for land and/or buildings identified as surplus to the County Council's requirements. Not all surplus assets have potential for increased value, but those that do are subject to the Partnership's process of de-risking and being made more saleable.

The Partnership has an accounting date of 30 April.

At 31 March 2016, the following properties were being worked on by the Partnership:

Blandford Depot, Wimborne Road, Blandford
Damers Road Store, Damers Road, Dorchester
Part of the Barracks Site, Dorchester
White Pit Farm buildings, Shillingstone
Former residential premises for Adult Services, Alexandra Road, Weymouth

During the year ended 31 March 2016, the partnership did not dispose of any properties committed to it by the Authority, no sales of assets are reflected in the accounts for Dorset County Council, and no further disclosure is required here.

Additional properties are being considered for transfer and will be committed to the partnership if value can be added.

Surplus properties are not transferred legally or contractually to the partnership, nor to any third party until the final sale is achieved. At 31 March 2016, the properties being worked on by the Partnership were still assets of Dorset County Council and are shown within the *surplus assets* section of the Balance Sheet.

The partnership incurs the costs accrued in making the assets more saleable and these costs are financed jointly by PSP Facilitating Ltd and Dorset County Council. The partners share the profits from the sale of the assets, subject to a guaranteed minimum receipt for the Authority and a profit sharing formula.

The partnership is not considered relevant for consolidation into group accounts for the Authority on the grounds of materiality and also that the turnover of the business is materially reported through the capital receipt achieved by the County Council in its single-entity accounts.

As at 30 April 2016, the draft accounts for the partnership showed net assets of £723k (£142k as at 30 April 2015), materially all of this being work in progress.

South West Audit Partnership (SWAP)

Until 31 March 2013, SWAP was a joint committee established by its members to assist them in the provision of a shared internal audit, counter-fraud and governance-related service. It operated under S101 of the Local Government Act 1972 and was hosted by South Somerset District Council. The Members considered that the future operation of SWAP as a company would improve efficiency and SWAP's management, governance and accounting processes.

SWAP therefore established itself as a company limited by guarantee, a local authority controlled company, and started trading on 1 April 2013. There are twelve members, Dorset County Council being one of them. Given the Council's influence through it's membership, the company falls to be treated as a joint venture. However, as its results are not material, SWAP is not consolidated into the Group Accounts for Dorset County Council for the year ended 31 March 2016, though the following disclosures are offered for the Company.

Summary Balance Sheet	**31/03/2015**	**31/03/2016**
	£'000	**£'000**
Tangible assets	20	**20**
Current assets	1,286	**907**
Creditors due within 12 months	(1,104)	**(664)**
Pension fund liability	(9,019)	**(5,150)**
Net liabilities	(8,817)	**(4,887)**
Financed by:		
Retained earnings	(8,996)	**(5,066)**
Other reserves	179	**179**
Total reserves	(8,817)	**(4,887)**

Summary Income & Expenditure	**31/03/2015**	**31/03/2016**
	£'000	**£'000**
Turnover	2,567	**2,507**
Admin expenses	(2,445)	**(2,449)**
Operating loss	122	**58**
Net redundancy costs	(189)	**-**
Opening pension deficit		
Interest receivable and similar income	3	**4**
Interest payable and similar charges	(222)	**(263)**
Loss on ordinary activities	(286)	**(201)**

Turnover included above, from trading with Dorset County Council was £344k (£344k in 2014/15).

TRICS Consortium Ltd

TRICS Consortium Ltd was incorporated on 14th October 2014 by Dorset County Council and five other local authorities (East Sussex County Council, West Sussex County Council, Hampshire County Council, Surrey County Council and Kent County Council). Each of these members owns £37,500 of ordinary shares in the company. All shares are fully paid-up. Each authority appoints a Director to the company's Board of Directors.

Prior to incorporation, the TRICS consortium was operated as a joint committee with West Sussex County Council as the accountable body. Members of the unincorporated consortium contributed funding to the joint arrangement to pay for costs falling to West Sussex as the accountable body and also contributed their expertise and other resources at their own cost.

The decision to incorporate was taken after legal advice surrounding the rules for local authorities involved in trading and the potential for the TRICS arrangements to generate revenue for the members beyond what is currently allowed if operated purely by a local authority.

The Company employs four members of staff; the Managing Director, an Operations Manager and two Operations Officers. The Managing Director reports to the Board of Directors at monthly Board Meetings and takes strategic direction from the Board.

The company's main purpose is to operate an online Trip Rate Database for use of the Transportation Industry for the production of Transport Assessments and Travel Plans during the Planning Application process and for the monitoring of active Travel Plans, usually under section 106 agreements. The company manages the database and commissions independent data collection companies to survey different land uses and developments so that the data can be input into the system.

The accounting date is 31 December. The results and performance, from the company's Financial Statements for the 15 month period to 31 December 2015, and from the company's management accounts for the 3 months to 31 March 2016, are:

Summary Balance Sheet	Period to 31/12/2015 £'000	3 months to 31/03/2016 £'000
Intangible assets	378	365
Tangible assets	5	5
Current assets	577	890
Creditors due within 12 months	(336)	(275)
Creditors due after more than one year	-	(71)
Net assets (liabilities)	624	914
Financed by:		
Ordinary share capital	225	225
Share premium	365	365
Retained profit	34	324
Total reserves	624	914

Summary Income & Expenditure	Period to 31/12/2015 £'000	3 months to 31/03/2016 £'000
Turnover	1,330	423
Cost of sales	(285)	(40)
Other operating expenses	(390)	(83)
Interest receivable and similar income	-	0
Profit on ordinary activities	655	300
Tax on profit on ordinary activities	(132)	-
	523	300

Turnover included above, from trading with Dorset County Council for the 15 month period to 31 December 2015 was £4k (2014/15 £4k). Dorset County Council received a dividend of £81k during 2015/16 (2014/15 nil).

Tricuro - Local Authority Trading Company (LATC)

On 1 July 2015, in partnership with Bournemouth Borough Council and the Borough of Poole, Dorset County Council launched Tricuro. Tricuro is a group of two companies established under local authority trading company principles to take the transfer of the three authorities' supply-side Adult Social Services business, with staff transferring from each of the three authorities in order to provide care services.
Each authority owns one ordinary share in Tricuro Support Ltd, which in turn owns 100% of the equity of Tricuro Ltd. The value of business carried out by Tricuro in a full financial year is expected to be around £40m (the part-year to 31 March 2016 saw the company turn over £31m). A shareholder agreement regulates the way in which the three councils manage Tricuro, including a profit/cost sharing agreement.
Dorset County Council is contracted to provide support services to Tricuro for three years (until 30 June 2018). The value of this contract was £881k for the nine months to 31 March 2016. Bournemouth Borough Council also provides certain support services to the company. The cost of this was £652k for the nine months to 31 March 2016.
Dorset County Council treats Tricuro as a joint venture. Tricuro applies consistent accounting policies with DCC, and the results for Tricuro for the nine months to 31 March 2016 have been consolidated into the DCC Group financial statements, with information reported in relevant disclosure notes to the DCC accounts.

7. Prior period adjustments

There are no prior year adjustments to disclose for the 2015/16 Accounts.

8. Impairment/write-back re Icelandic Banks

Charges made in the Comprehensive Income & Expenditure Statement for impairment/(write back) of deposits held with Icelandic banks were as follows:

	Pre-2014/15 £000	2014/15 £000	2015/16 £000
Impairment charge /(write-back)	6,857	-	(528)

Payments received to date from Heritable exceed what was anticipated at 31 March 2015. Until final settlements are agreed, the loans continue to be carried in the Authority's Balance Sheet, but are fully impaired.

Dorset County Council carries the Heritable deposits at a gross value of £13.1m, fully impaired. On 26 August 2015, the administrator made a fifteenth interim payment of 3.98% to all unsecured creditors, amounting to £528k for the County Council. This payment brings the return to date to 98% of the original claim. It is still possible that the full 100% could be recovered.

9. Segmental Analysis

The Code requires Local Authorities to report segmentally on their income and expenditure in accordance with IFRS 8. The Code requires this to be presented in a format which is similar to the internal management accounts used by the Authority and for this to be reconciled to the surplus/deficit on provision of services figure in the Comprehensive Income and Expenditure Statement. The impact for the DCC Group Accounts is not material, and is not included in the figures below.

	2015/16								2014/15
	Adult & Community Services	**Chief Executive's Dept & Cabinet**	**Children's Services**	**Corporate Resources**	**Environment & Economy**	**Partnerships (DCC Leads)**	**Centrally Managed Costs**	**Total**	Total
	£'000	**£'000**	**£'000**	**£'000**	**£'000**	**£'000**	**£'000**	**£'000**	£'000

Cost Centre Balances	-	3	1,005	-	-	-	(327)	**681**	688
Government Grants	(9,496)	(1,699)	(203,411)	-	(5,013)	(13,270)	-	**(232,889)**	(249,650)
Reimbursements and Contributions	(22,205)	(3,757)	(10,894)	-	(1,381)	(22,756)	(79)	**(61,072)**	(69,498)
Fees and Charges	(23,110)	(3,042)	(6,035)	-	(10,727)	(3,478)	(5)	**(46,397)**	(46,587)
Corporate Income & Expenditure	(2)	(45)	(963)	-	-	-	-	**(1,010)**	(4,932)
Funding	-	(66)	-	-	-	-	-	**(66)**	-
Transfers to/(from) Reserves	-	(5)	(33)	-	(52)	(29)	119	**-**	-
Reported in Management Accounts	**121,372**	**20,026**	**64,362**	**-**	**30,434**	**18,798**	**2,120**	**257,112**	255,524
Recharges	8,383	(12,894)	19,962	-	(8,131)	266	(2,820)	**4,766**	297
Capital Charges	2,447	21,727	19,341	-	22,013	6,261	-	**71,789**	61,588
Deficit on Provision of Services	**132,202**	**28,859**	**103,665**	**-**	**44,316**	**25,325**	**(700)**	**333,667**	317,409

The table above, shows the deficit on provision services; the same as reported on the corresponding line in the Comprehensive Income and Expenditure Statement. The line marked *reported in management accounts* reflects the figures that the County's Management Team reviews on a monthly basis to monitor the Authority's financial performance.

10. Comparison of outturn with budget

The Comprehensive Income & Expenditure Statement and the movements on the General Fund are further analysed against budget in the table below.

2014/15 Net Spending £'000	Service Division	Original Estimate £'000	2015/16 Final Estimate £'000	Net Spending £'000	Variance ( ) = over £'000
120,867	Adult Social Care	117,878	120,396	120,313	83

The Council monitors expenditure as part of its comprehensive performance management framework. This provides for monthly reporting of projected outturn against budget for all cost centres and in addition detailed reporting of the 'Top 20' identified vulnerable and demand led budgets. This information is available to members and managers via the Council's intranet. The final out-turn figures are reported to the Overview Committees for scrutiny and overview.

11. Long-term contracts (Private Finance Initiative)

In 1997 a contract was entered into for the replacement of Colfox School, Bridport using the Government's Private Finance Initiative (PFI). The contract provides for fully serviced accommodation for the school including buildings, grounds maintenance, catering, caretaking, security, waste disposal, energy, utilities, IT equipment and renewal of furniture and equipment. Payments under the contract commenced in 1999 and continue for a 30-year period. The school became an Academy on 1 April 2015 but despite the change in status, the PFI arrangement will continue to be the responsibility of the County Council.

In 2009, the County Council also entered into a PFI scheme for the provision and replacement of street lighting. This arrangement deals with a backlog of replacements and maintenance over 25 years.

Payments made and PFI Grants receivable to support the schemes were as follows:

Payments 2014/15 £'000	Grants Rcvd 2014/15 £'000		**Payments 2015/16 £'000**	**Grants Rcvd 2015/16 £'000**
5,194	(2,546)	Street lighting (provider)	5,396	(2,546)
1,570	-	Street lighting (energy)	1,276	-
2,613	(1,559)	Colfox School (provider)	2,645	(1,559)

Repayments to be made (to the end of the contracts) under PFI arrangements are analysed as follows:

	Street lighting £'000	**Colfox School £'000**
Capital repayment	68,776	17,525
Interest charges	5,416	10,087
Service charges	48,703	20,776
	122,895	48,388

Movements of PFI asset and liability balances are analysed as follows:

Assets	**Street lighting £'000**	**Colfox School £'000**
Opening balance	43,818	20,967
Additions/developments/lifecycle	1,775	-
Revaluations	-	2,008
Depreciation	(1,425)	(415)
Closing balance	44,168	22,560

Liabilities	**Street lighting £'000**	**Colfox School £'000**
Opening balance	(23,711)	(11,288)
Additions/developments/lifecycle	(1,775)	(217)
Repayments	3,758	621
Closing balance	(21,728)	(10,884)

12. Leases

Dorset County Council accounts for leases in accordance with the Accounting Policies set out in this document.
Specific information for leases is as follows:

Carrying amount of assets held under finance leases

	Plant, equipment, vehicles £'000	**Buildings £'000**
Carrying amount as at 31/03/2014	2,394	5,196
Leases surrendered	(398)	-
Depreciation charge	(608)	(224)
Carrying amount as at 31/03/2015	1,388	4,972
Leases surrendered	14	-
Depreciation charge	(521)	(224)
Carrying amount as at 31/03/2016	881	4,748

Carrying amount of liabilities held under finance leases

	Plant, equipment, vehicles £'000	Buildings £'000
Carrying amount as at 31/03/2014	(2,574)	(5,761)
Leases surrendered	234	-
Capital repayment	930	155
Carrying amount as at 31/03/2015	(1,410)	(5,606)
Leases surrendered	(14)	-
Capital repayment	547	162
Carrying amount as at 31/03/2016	(877)	(5,444)

The following amounts were paid/are payable under lease agreements:

	2014/15 £'000	2015/16 £'000	Leases expiring within one year £'000	Leases expiring after one year but less than five years £'000	Leases expiring after more than five years £'000
Finance leases - property	581	581	581	2,171	10,661
Finance leases - plant, equipment, vehicles	1,095	586	537	444	0
All finance leases	1,676	1,167	1,118	2,615	10,661
Operating leases - property	962	793	791	2,144	10,438
Operating leases - plant, equipment, vehicles	3,203	1,881	1,724	1,425	0
All operating leases	4,165	2,674	2,515	3,569	10,438
All leases	5,841	3,841	3,633	6,184	21,099

Total future minimum lease payments (MLP) are as follows:

	MLP £'000	Net Present Value MLP £'000
Finance leases	14,393	8,316
Operating leases	13,373	8,248

Debtor representing interest in finance leases

	£'000
Closing balance 31/03/2014	130
Payments received	(64)
Closing balance 31/03/2015	66
Payments received	(66)
Closing balance 31/03/2016	-

Future receipts from leases

	Leases expiring within one year £'000	Leases expiring after one year but less than five years £'000	Leases expiring after more than five years £'000
Finance leases - property	71	0	0
Operating leases - property	4,551	17,268	12,915

Operating leases above include the following arrangements with Tricuro:

	Leases expiring within one year £'000	Leases expiring after one year but less than five years £'000	Leases expiring after more than five years £'000
Operating leases - property	3,214	12,857	819

Total future minimum lease receipts (MLR) are as follows:

	MLR £'000	Net Present Value MLR £'000
Finance leases - property	71	69
Operating leases - property	34,734	29,932

13. Analysis of Government Grants

This table gives details of the specific grants received from central Government Departments.

2014/15 £'000		2015/16 £'000
226,121	Education	205,890
5,544	Communities & Local Government	6,972
14,022	Health	20,179
1,057	Transport	1,308
916	Environment, Food & Rural Affairs	619
219	Culture, Media & Sport	958
596	Work & Pensions	-
335	Business, Innovation & Skills	315
94	Ministry of Defence	97
48	European Union	7
501	Home Office	271
357	Other	485
249,810		237,101

14. Deployment of Dedicated Schools Grant

Since 2006-07, the Council's expenditure on schools has been mainly funded by grant monies provided by the Department for Education (Department for Children, Schools and Families), the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools Budget. The Schools Budget includes elements for a restricted range of services provided on an authority-wide basis and for the Individual Schools Budget, which is divided into a delegated budget share for each school. Over and underspends on the two elements are required to be accounted for separately. Details of the deployment of DSG receivable for 2015/16 are as follows: -

Total 2014/15 £'000		Central Expenditure £'000	Individual Schools Budget (ISB) £'000	Total 2015/16 £'000
197,257	Final DSG for 2015/16 before Academy recoupment	41,036	135,261	176,297
12,035	Brought forward from 2014/15	5,622	6,055	11,677
209,292	Final budgeted distribution in 2015/16	46,658	141,316	187,974
(39,283)	Actual central expenditure	44,049		44,049
(158,332)	Actual ISB deployed to schools		133,404	133,404
11,677	Carry forward to 2016/17	2,609	7,912	10,521

NB. The actual Central Expenditure and balance may be subject to slight adjustment when the apportionments required in the statutory section 251 outturn statement (which has to be submitted to the Department for Education at the end of August) are finalised.

15. Revenue Expenditure Funded from Capital Under Statute (REFCUS)

The Total Capital Expenditure reported by the Council includes expenditure referred to as Revenue Expenditure Funded from Capital Under Statute. This is principally capital expenditure on properties which the County Council does not own and which are not included in its asset register. This expenditure is charged to the Income and Expenditure account in the year it is incurred with the necessary appropriations in the Statement of Movement in Reserves between the General Fund and the Capital Adjustment Account to reflect that although financing is from a capital source, it funds revenue expenditure in the Authority's accounts.

2014/15 £'000		2015/16 £'000
27,142	Expenditure in Service Budgets funded from Capital Adjustment Account	22,908

16. Members' allowances

The total amount of Members' allowances paid in the year is shown in the following table.

2014/15 £'000		2015/16 £'000
735	Members' Allowances	746

17. Remuneration of senior staff

The accounts and audit regulations cover the requirement to disclose remuneration of senior employees. The requirement includes the duty to disclose details of the numbers of staff with remuneration and benefits, including redundancy, in excess of £50,000 per annum to be reported. Missing bands have no staff in them for either year (eg £150,000 to £155,000).

2014/15				**2015/16**		
Non-schools	LEA Schools	VA/VC Schools	Group	**Non-schools**	**LEA Schools**	**VA/VC Schools**

335	148	145		**317**	**214**	**150**

Dorset County Council follows Local Government salary scales and conditions of service, negotiated and agreed at national level.
The Regulations also require the disclosure of remuneration of Senior Officers whose salary was £150,000 or more per annum, by name. In line with the Authority's pay policy, there are no such officers and so only information on senior posts is disclosed.

2014/15 Total £'000	**Post Holder Information**	**Salary £'000**	**Allowances £'000**	**Pension £'000**	**Total £'000**

999		**895**	**-**	**170**	**1,065**

* - these posts are jointly funded by Dorset County Council, Bournemouth Borough Council and the Borough of Poole as part of a jointly funded arrangement for which Dorset County Council is the accountable body.

18. Exit packages & termination benefits

The revised Code requires the Authority to disclose details of the number and value of exit packages agreed in the bandings shown below in the table and to distinguish these by compulsory redundancies and other departures. Voluntary early retirement under the scheme rules is not a termination benefit and does not require disclosure. Missing bands have no staff in them (eg £180,000 to £200,000).

Value of exit package	Compulsory redundancies 2015/16	Other departures 2015/16	Total cost £000 2015/16
Non-Schools			
Up to £20,000	9	33	**361**
£20,000 to £40,000	6	27	**966**
£40,000 to £60,000	1	6	**364**
£60,000 to £80,000	3	4	**486**
£80,000 to £100,000	2	6	**735**
£100,000 to £120,000	-	1	**102**
£120,000 to £140,000	1	5	**794**
£140,000 to £160,000	-	4	**593**
£160,000 to £180,000	-	1	**164**
£220,000 to £240,000	-	1	**228**
	22	88	**4,793**
Schools			
Up to £20,000	9	24	**139**
£20,000 to £40,000	-	3	**78**
	9	27	**217**
Total	31	115	**5,010**

As at 31 March, the following exit packages (with estimated costs) had been approved but not yet paid by the Authority. No provision is made for these amounts in the 2015/16 accounts as the costs fall to the contingency budget in the year in which they are incurred.

Value of exit package	Redundancies	Total cost £000
Up to £20,000	6	**55**
£20,000 to £40,000	2	**60**
£40,000 to £60,000	1	**46**
£60,000 to £80,000	3	**197**
	12	**358**

19. Audit fees

Fees payable to KPMG LLP, for services carried out as the appointed Auditor were:

2014/15 £'000		**2015/16 £'000**
99	External Audit Services	**74**
5	Certification of grant/other claims	**5**
104		**79**

20. Interest

Interest payable and receivable by the Authority is analysed as follows:

2014/15 £'000		**2015/16 £'000**
7,494	Interest payable on borrowings (as per I&E)	**7,564**
(804)	Interest receivable and investing income (as per I&E)	**(398)**
1,860	Interest payable on service concessions (PFI schemes)	**1,762**
289	Interest payable on finance leases (property)	**282**
129	Interest payable on finance leases (plant & equipment)	**38**
(9)	Interest receivable on finance leases (property)	**(4)**
8,959		**9,244**

Interest payable and receivable on service concessions and finance leases is included within the appropriate lines of costs of services in the Comprehensive Income & Expenditure Statement.

21. Property, plant and equipment

The following table shows the overall movements in property, plant and equipment during the year. Infrastructure assets include, for example, highways, and community assets include country parks. Intangible assets are computer software licences which have a useful economic life of more than one financial year. The table also shows the cost of assets under construction not yet in operational use, and those declared surplus awaiting disposal plans. Surplus assets continue to be depreciated but once a surplus property is being actively sold, it is transferred to the class referred to as assets held for sale. These assets are not depreciated.

	Land & Buildings £'000	Vehicles, plant, furniture & equipment £'000	Infrastructure assets £'000	Community assets £'000	Total operational assets £'000	Intangible assets £'000	Assets under construction £'000	Surplus assets £'000	Assets held for sale £'000	Total property, plant & equipment £'000
Net book value as at 31 March 2015	371,597	26,070	347,876	10,024	755,567	2,622	28,772	17,402	3,677	808,040

22. Minimum Revenue Provision

This is a memorandum account, operated in accordance with the Local Government Act 2003 and the policy agreed by Members at the budget setting meeting, which requires an annual Minimum Revenue Provision of the previous year's Underlying Borrowing Requirement to be set aside. This summary of transactions within the Capital Adjustment Account is shown for information. DCC used a rate of 4% until 2010/11 and 2.5% since to make its provision except for leases, where MRP is charged over the actual period of the lease.

2014/15 £'000		**2015/16 £'000**
10,728	Minimum Revenue Provision	**5,741**
4,431	PFI Schemes	**4,379**
1,318	Finance Leases	**710**
987	DWP Financed Assets	**1,193**

23. Retirement benefits

The County Council participates in four different pension schemes that meet the needs of employees in particular services. Three are defined benefit schemes providing members with benefits related to pay and length of service, and one is a defined contribution scheme providing members with benefits related to the investment returns on contributions. The schemes are as follows: -

(i) The Local Government Pension Scheme for employees other than teachers, is administered by the County Council. This is a funded scheme, meaning that the council and the employees pay contributions into a fund, calculated at a level intended to balance over time the pension liabilities with investment assets.

The cost of retirement benefits is recognised in the Net Cost of Services when they are earned by employees, rather than when they are eventually paid as pensions. However, the charge against council tax has to be based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the Statement of Movement Reserves (General Fund Balance).

Service costs are included within the 'Net Cost of Services'. The net interest on the defined liability and administration expenses are included in 'Net Operating Expenditure' in the Comprehensive Income and Expenditure Statement. Remeasurement gains and losses arising are recognised in the Statement of Movements in Reserves. The independent actuary has determined these amounts in accordance with IFRS and Government regulations.

2014/15 £'000		**2015/16 £'000**
30,736	Service Cost	**34,155**
20,704	Net interest on the defined liability (asset)	**20,507**
478	Administration expenses	**497**
(21,482)	Movement on Pensions Reserve	**(25,889)**
	Actual amount charged against council tax for pensions in the year	
(2,842)	Unfunded Pension Payments	**(2,796)**
(27,594)	Employer's contributions payable	**(26,474)**

The costs of 'added years' awarded to ex-staff are charged centrally as non-distributed costs.

The underlying assets and liabilities for retirement benefits attributable to the County Council as at 31 March are shown in the following table, which also shows the distribution of assets by proportion of the total and the expected long-term return. The assets are valued at fair value, principally market value for investments, and consist of the following categories: -

%Assets	2014/15 £'000		**% Assets**	**2015/16 £'000**
57%	403,704	Equities	**56%**	**381,599**
12%	83,226	Gilts	**10%**	**65,951**
3%	18,060	Cash	**4%**	**28,115**
12%	87,406	Other Bonds	**13%**	**85,164**
5%	34,339	Diversified Growth Fund	**5%**	**32,292**
10%	67,084	Property	**11%**	**74,717**
1%	7,703	Infrastructure	**1%**	**8,876**
0%	2,711	Hedge Fund	**0%**	**584**
	704,233	Estimated Assets in County Council Fund		**677,298**
	1,316,713	Present value of scheme liabilities		**1,251,935**
	26,528	Present value of unfunded liabilities		**24,191**
	1,343,241	Total value of liabilities		**1,276,126**
	(639,008)	Net Pensions Asset / (Liability)		**(598,828)**

Liabilities have been assessed by Barnett Waddingham, an independent firm of actuaries, using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Estimates are based on the latest full valuation of the scheme as at 31 March 2013, as updated for changes in numbers of staff and pensioners. The next full valuation will be carried out by the Actuary as at 31 March 2016.

The main assumptions used in their calculations are: -

2014/15 % p.a.	2014/15 Real		**2015/16 % p.a.**	**2015/16 Real**
3.2%	0.0%	RPI inflation	**3.3%**	**0.0%**
2.4%	-0.8%	CPI inflation	**2.4%**	**-0.9%**
3.9%	0.7%	Rate of increase in salaries	**3.9%**	**0.6%**
2.4%	-0.8%	Rate of increase in pensions	**2.4%**	**-0.9%**
3.3%	0.1%	Rate for discounting scheme liabilities	**3.7%**	**0.4%**

Changes to the Local Government Pension Scheme permit employees retiring on or after 6 April 2006 to take an increase in their lump sum payment on retirement in exchange for a reduction in their future annual pension. On the advice of our actuaries we have assumed that 50% of employees retiring after 6 April 2006 will take advantage of this change to the pension scheme.

The assumed life expectations from age 65 are as follows: -

2014/15			2015/16	
Male	Female	Years	**Male**	**Female**
22.80	25.20	Retiring today	**22.90**	**25.30**
25.10	27.60	Retiring in 20 years	**25.20**	**27.70**

The Authority is required to provide the reconciliation of opening and closing balances of the present value of the defined benefit obligation:

2014/15 £'000		**2015/16 £'000**
1,099,561	Opening defined benefit obligation	**1,343,241**
35,517	Current service cost	**36,162**
49,088	Interest cost	**43,394**
180,199	Change in financial assumptions	**(96,326)**
(3,810)	Experience loss/(gain) on defined benefit obligation	**741**
(12,128)	Liabilities assumed/(extinguished) on settlements	**(7,247)**
(12,835)	Estimated benefits paid (net of transfers in)	**(53,786)**
2,171	Past service costs including curtailments	**2,530**
8,320	Contributions by scheme participants	**10,213**
(2,842)	Unfunded pension payments	**(2,796)**
1,343,241	Closing defined benefit obligation	**1,276,126**

The Authority is also required to provide a reconciliation between the opening and closing balances of the fair value of the scheme assets:

2014/15 £'000		**2015/16 £'000**
622,080	Opening fair value of scheme assets	**704,233**
28,384	Interest on assets	**22,887**
36,344	Return on assets less interest	**(29,516)**
(478)	Administration expenses	**(497)**
30,436	Contributions by employer (including unfunded)	**29,270**
8,320	Contributions by scheme participants	**10,213**
(15,677)	Estimated benefits paid (net of transfers in and including unfunded)	**(56,582)**
(5,176)	Settlement prices received/(paid)	**(2,710)**
704,233	Fair value of scheme assets at end of period	**677,298**

Analysis of the attributable movements in the surplus / (deficit) in the scheme during the year:

2014/15 £'000		**2015/16 £'000**
(477,481)	Surplus / (Deficit) brought forward	**(639,008)**
(30,736)	Service Cost	**(34,155)**
30,436	Employer contributions	**29,270**
(478)	Administration expenses	**(497)**
(20,704)	Net interest on the defined liability (asset)	**(20,507)**
(140,045)	Actuarial Gain / (Loss)	**66,069**
(639,008)	Surplus / (Deficit) as at 31 March	**(598,828)**

The estimated employer contribution to the scheme for the period 1 April 2016 to 31 March 2017 is £23.505M. This excludes the capitalised cost of any early retirements or augmentations which may occur after 31 March 2016.

(ii) Teachers are members of the Teachers' Pension Scheme, administered by the Teachers' Pension Agency (TPA). The County Council contributes towards the costs by making contributions based on a percentage of members pensionable salaries.

In 2015/16 the County Council paid £12m to the TPA (14.1% of pensionable pay April 2015 to August 2015, and 16.48% of pensionable pay September 2015 to March 2016). The figures for 2014/15 were £12.59m at 14.1%. The cost of added years payments to ex-staff was £1.5m (£1.494m in 2014/15). There were no contributions remaining payable at the year end.

The Teachers' Pension Scheme is a defined benefit scheme, which is unfunded. The Teachers' Pension Agency uses a notional fund as the basis for calculating the employers' contribution rate paid by Local Authorities. It is not possible for the authority to identify a share of the underlying liabilities in the scheme attributable to its own employees. For the purposes of this statement of accounts it is therefore accounted for on the same basis as a defined contribution scheme.

The Authority is responsible for the costs of any additional benefits awarded upon early retirement outside the terms of the Teachers' scheme. The benefits are fully accrued in the pensions liability detailed above.

(iii) Public Health professionals who have transferred employment from the National Health Service (NHS) to Local Authorities may retain membership of the NHS Pension Scheme (NHSPS). The NHSPS is a defined benefit scheme, which is unfunded. Local Authorities contribute towards the costs by making contributions based on a percentage of members pensionable salaries.The NHSPS uses a notional fund as the basis for calculating the employers' contribution rate paid by Local Authorities. It is not possible for a Local Authority to identify a share of the underlying liabilities in the scheme attributable to its own employees. In 2015/16 the County Council paid contributions of £174k to the NHSPS, 14.3% of pensionable pay.

(iv) Employees can also opt to become members of the National Employment Savings Trust (NEST), the pension scheme set up by the government and run by its trustee, NEST Corporation. NEST is a defined contribution scheme. Local Authorities contribute by making contributions based on a percentage of members pensionable salaries. In 2015/16 the County Council paid contributions of £2k to NEST, 1.0% of pensionable pay.

DCC Group

The Local Government Pension Scheme (LGPS) for Tricuro staff, is administered by Dorset County Council. This is a funded scheme, meaning that the Tricuro and the employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets.

The scheme is only open to employees that transferred from Dorset County Council, Bournemouth Borough Council and Poole Borough Council. A new scheme has been introduced from 2016/17 for employees not eligible to join the LGPS. The assets and liabilities in relation to the staff that transferred on a fully funded basis on 1 July 2015. The company is responsible for all pension costs incurred post transfer and the three local authorities are responsible for all assets and liabilities in respect of pensionable service before that date.

24. Pooled Budget Scheme

The County Council is in a partnership scheme with NHS Dorset CCG, Bournemouth Borough Council and the Borough of Poole under Section 75 of the Health Service Act 2006. The partnership commenced on the 1 April 2015 and Bournemouth Borough Council hosts the arrangement. The aim of the partnership is to provide a responsive equipment service including the support of intermediate care and reablement services. Prior to the 1 April 2015 the County Council was in partnership with the NHS and hosted an Equipment Service covering the Dorset only area. Details are shown in the following table: -

2014/15 £'000		**2015/16 £'000**
5,755	Expenditure	**1,455**
(4,045)	Income	**-**
1,710	Net DCC Contribution	**1,455**

25. Summary of capital expenditure and financing

This table gives details of capital spending by service, and how that spending was financed. The table includes expenditure referred to as Revenue Expenditure Funded from Capital Under Statute (REFCUS) set out in note 15.

Legislation requires REFCUS expenditure to be classified as capital for funding purposes when it does not result in the expenditure being carried in the Balance Sheet as a non-current asset. The purpose of this is to enable it to be funded from capital resources rather than be charged to the General Fund and impact on Council Tax Payers. These items are generally expenditure on property not owned by the Authority. The capital financing requirement note below, includes provision for this expenditure.

26. Capital financing requirement

The total amount of capital expenditure incurred during the year is shown in note 25, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the council, the expenditure results in an increase in the Capital Financing requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed as:

2014/15 £000s		2015/16 £000s
804,363	Property Plant & Equipment	819,326
3,677	Assets held for sale	5,320
808,040	Total Assets to be funded	824,646
99,497	Revaluation Reserve	107,134
373,682	Capital Adjustment Reserve	391,266
334,861	**Capital Financing Requirement 31 March**	326,246
(34,999)	Less Long Term PFI Liability	(32,612)
(7,017)	Less Obligations under Finance Leases	(6,321)
292,845	**Underlying Borrowing Requirement 31 March**	287,313

2014/15 £'000		2015/16 £'000
13,797	Effect on the underlying need to borrow	(5,532)
13,797		(5,532)

27. Future capital commitments

The Council has entered into contracts for a number of capital projects in 2015/16 and earlier years, which were not completed by 31 March 2016. Details of further expenditure on such major schemes which will be incurred in later years are set out below.

Figures quoted for the previous year are the commitments on incomplete schemes as at that balance sheet date and not an analysis of cumulative expenditure against those projects at that date.

2014/15 £'000		2015/16 £'000
	Children's Services	
1,555	Pimperne Primary School replacement	655
328	Leeson House DDA works	150
2,671	Lulworth Primary	358
2,734	Manor Park	782
525	Damers replacement enabling works	-
1,510	Chickerell Academy	-
895	Burton phase 1	-
723	Christchurch TIS	-
1,964	Yewstock	199
-	Bere Regis Primary replacement	3,806
-	Damers replacement	7,201
-	Highcliffe St Marks extension	1,928
	Whole Authority	
28,342	Superfast Broadband	15,081
	Environment Directorate	
6,631	Weymouth Relief Road	4,532
3,744	Dorchester Transport & Environment Plan	3,485
4,242	Bridport Household recycling Centre	100
3,625	Dinah's Hollow	300
21,178	A338 Major Maintenance	7,005

28. Asset register

The following table analyses the numbers and values of major non-current assets owned by the Authority.

2014/15 No	2014/15 £'000		2015/16 No	2015/16 £'000	2015/16 £'000
28	2,622	**Intangible Assets**	**31**		**2,447**
		Operational Assets			
272	108,189	Land	**267**	**106,399**	
191	224,836	Buildings	**181**	**233,201**	
52	6,986	Farms - Land	**52**	**6,833**	
47	5,647	Farms - Buildings	**45**	**5,676**	
4	4,972	Leased buildings	**4**	**4,748**	
1	4,990	PFI Land	**1**	**5,140**	
1	15,977	PFI buildings	**1**	**17,420**	
					379,417
453	11,616	Vehicles	**527**	**14,483**	
38	1,388	Leased vehicles	**32**	**867**	
11	132	Plant	**11**	**98**	
289	749	Furniture & Fittings	**290**	**680**	
65	12,185	Equipment	**79**	**10,274**	
					26,402
1	347,876	**Infrastructure Assets**	**2**		**342,626**
28	10,024	**Community Assets**	**28**		**10,031**
		Non-Operational Assets			
307	28,772	Assets under construction	**454**	**47,753**	
35	17,402	Surplus Assets	**35**	**10,650**	
6	3,677	Assets held for sale (current assets)	**6**	**5,320**	
					63,723
1,829	808,040		**2,046**		**824,646**

The Balance Sheet does not include schools where ownership rests with the Diocese, or Foundation Schools and other schools that have subsequently transferred to Foundation status, as the premises remain under the control of each Foundation.

In addition to the above, the Council owns a number of sites which are held pending development or disposal. It is also responsible for the following infrastructure assets. Unclassified Roads no longer include unpaved roads or green lanes.

2014/15 Km		2015/16 Km
396	Principal Roads	**396**
1,533	Classified Roads	**1,535**
2,102	Unclassified Roads	**2,089**
4,031		**4,020**

29. Components

As noted elsewhere in this document, component accounting has been applied prospectively from 1 April 2010. A policy for assessing the Authority's assets for componentisation was developed with the Valuations & Estates Team and approved by the Auditors in 2010/11. This looks at componentising over a six year period.

During 2015/16, 13 property assets were componentised (2014/15 = 22). The depreciation included in the Comprehensive Income & Expenditure Statement on account of these components is £331k. Had these components not been created, the depreciation charge on the non-componentised assets would have been £134k (2014/15 = £429k compared with £229k).

30. Heritage Assets

Dorset History Centre (DHC) is the home of the Joint Archives Service for Bournemouth Borough Council, Dorset County Council and Borough of Poole. The building is owned and maintained by DCC, but the revenue costs for the service are shared.

DHC holds the corporate archives of the three authorities along with second tier authorities and a wide range of other public bodies and private institutions and individuals. Collection size varies from single items like a letter or title deed to several thousand boxes. In total we estimate the holdings to amount to over 1,070 cubic metres. Ownership of the collections is split between DCC (its own archive but also all 'gifted' collections) and a wide range of corporate bodies and individuals.

The archive collections housed within the repository date back to 965, number over 9,700, and are made up of millions of individual items of paper, parchment, photographic (and other) images, maps, plans, volumes, digital and magnetic storage devices. The vast majority of material held by DHC is unique, i.e. no other copy exists and is therefore irreplaceable.

The three repositories in which the collections are stored meet the requirements of the standard PD5454 (Storage and Exhibition of Archival Material). Temperature and humidity are regulated to tight parameters and a gas-based fire suppressant is installed. The repositories are secured with electronic swipecard access. Only JAS staff and limited numbers of Registration staff can access them.

Placing a value on the collections is very difficult. In financial terms there are certainly items held here which would fetch many thousands, if not hundreds of thousands of pounds. However, the informational value and legal proof of millions of transactions is also huge e.g. DCC's corporate memory. Quantifying a monetary value would be extremely hard to do (and would come at a significant cost to the Authority).

There is no insurance held for the archive collections. This is quite standard for archive services where the security and integrity of the building itself, is the de facto insurance. Our Terms of Deposit state that the DHC does not insure collections and that insurance is the responsibility, if desired, of the owner of the records.

In addition to these archives, the Authority owns only one other heritage asset; a painting by Lady Butler, which was presented to the Council in 1926 and is currently on loan at the County Museum Dorchester. The painting was valued before being loaned to the museum but its value is not considered to be material.

31. Investments

The Council has adopted the Code of Practice for Treasury Management in Local Authorities that, amongst other things, governs the way in which surplus cash is invested. The total amount of investments with individual institutions and sectors is strictly controlled and regularly reviewed. The short-term (i.e. less than one year) investment of surplus funds at 31 March 2016 amounted to £0 million (£45 million at 31 March 2015).

32. Long-term debtors

An analysis of amounts due to the Council at 31 March 2016, repayable over a period of more than 12 months, is shown below. The amount for Other Local Authorities relates to the Home Office system of capital financing for Police expenditure prior to 1990, and is repayable by Dorset Police in annual instalments. The majority of the remainder relates to similar capital financing arrangement for colleges, deferred debt for residents in care homes and private street works, with no prepayment into the Pension Fund during 2015/16, whereas £8.6m was prepaid in 2014/15

2014/15 £'000		**2015/16 £'000**
902	Other Local Authorities	**833**
66	Interest in Finance Leases	**-**
299	Interest in Operating Leases	**297**
11,999	Other	**3,461**
13,266		**4,591**

33. Inventories

The Council holds a number of stocks and stores. Stock levels are regularly reviewed to ensure that only necessary stocks are held.
Equipment for disabled people issued under the pooled budget arrangement (detailed in Note 24 earlier in this document) has been included.

2014/15 £'000	**Stocks**	**2015/16 £'000**
441	Highways and Transportation	**524**
63	Fuel Scheme	**46**
179	DWP Inventories	**179**
-	Community Equipment Store	**199**
10	Misc small stock items	**2**
693		**950**

34. Debtors and payments in advance

An analysis of amounts due to the Council or paid in advance at 31 March 2016 is shown below.

2014/15 Debtors £'000	2014/15 Payments £'000		**2015/16 Debtors £'000**	**2015/16 Payments £'000**
12,900	5	Central Government Departments	**9,535**	**-**
15,658	57	Other Local Authorities	**19,242**	**66**
859	-	Health	**646**	**-**
12,097	14,780	Other	**20,629**	**15,403**
41,514	14,842		**50,052**	**15,469**

35. Contingent Assets

In addition to the amounts included above, further sums estimated to amount to £52.7m may fall due from the District Councils in Dorset in respect of Section 106 (of the Town and Country Planning Act 1990) planning agreements.
These amounts are not due, yet, but will accrue in future in line with the progress made on the developments covered by individual agreements.

36. Assets held for sale

As set out in the Accounting Policies section of this document, assets that meet the criteria are required to be accounted for and reported as being held for sale. Dorset County Council had the following properties which met these criteria at the Balance Sheet date:

Property	**Use/Business Segment**	2014/15 £'000	**2015/16 £'000**
Sherborne House & Gardens	Children's Services	1,802	**1,500**
Damers Road Store	Surplus	345	**380**
North Dorset Business Park	Surplus	760	**810**
Rolls Mill	Surplus	30	**30**
Christchurch Adult Learning Centre	Adult & Community Services	740	**2,600**
		3,677	**5,320**

Dorset County Council and North Dorset District Council underwrote a loan of £560,000 from the Growing Places fund for the North Dorset Business Park. This loan becomes repayable late 2017.

37. Cash (and cash equivalents) and bank balances

Cash in hand includes £0.4m held in interest earning accounts as an alternative to temporary investments. A bank overdrawn figure includes outstanding cheques drawn shortly before the end of the financial year, which were unpresented as at 31 March 2016. The actual bank balance is managed on a daily basis and kept to very modest limits, usually less than £100,000.

At 31 March 2016 the balance sheet shows the net cash position being in overdraft. This is because the County Council manages its balances with those of the Dorset Local Enterprose Partnership (LEP) and these accounts show the Dorset County Council element only.

38. Borrowing

An analysis of the Council's outstanding debt as at 31 March 2016 is shown below, analysed between the government's Public Works Loans Board (PWLB) and other lenders. The increase in outstanding debt is a consequence of the Council's decision to borrow, historically to fully utilise the credit approvals (borrowing permissions) granted by the Government, and within the limits set by the County Council to borrow under the Prudential Code for capital finance in local authorities.

2014/15 PWLB £'000	2014/15 Other £'000	Analysis of Loans by maturity	2015/16 PWLB £'000	2015/16 Other £'000
10,783	20,000	**Short Term Borrowing** (less than 1 year)	**820**	**-**
820	-	Between 1 and 2 years	859	800
2,701	800	Between 2 and 5 years	22,829	**-**
33,104	-	Between 5 and 10 years	12,117	**-**
10,000	19,500	Between 10 and 15 years	10,000	19,500
-	-	Between 30 and 35 years	8,816	**-**
41,816	-	Between 35 and 40 years	33,000	**-**
-	40,000	Between 40 and 45 years	-	40,000
-	35,600	More than 45 years	-	35,600
88,441	95,900	**Long Term Borrowing**	**87,621**	**95,900**
130,086	135,596	**Fair Value of Market Loans**	**120,278**	**155,575**
3.65%	3.41%	Average rate of interest	**3.98%**	**3.99%**

Actual borrowing shown here is less than the Capital Financing Requirement because of unfinanced capital expenditure carried forward, shown in Note 25, or decisions when to take out borrowing to finance the capital programme. These decisions are taken in consultation with advisers, taking into account interest rate movements and other factors.

Financial liabilities and financial assets represented by loans and receivables are carried on the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments. For loans from the PWLB and other loans payable, premature repayment rates from the PWLB have been applied to provide the fair value under PWLB debt redemption procedures.

39. Creditors and receipts in advance

An analysis of amounts owed by the Council or received in advance at 31 March 2016 is shown below. Receipts in advance do not include grants or contributions held in respect of future spending where conditions attached to the grant have been met.

2014/15 Creditors £'000	2014/15 Receipts £'000		2015/16 Creditors £'000	2015/16 Receipts £'000
3,316	290	Central Government Departments	**1,867**	**659**
4,438	1,882	Other Local Authorities	**4,463**	**7,264**
50,389	3,373	Other	**45,887**	**567**
58,143	5,545		**52,217**	**8,490**

40. Provisions

The Council self-insures most of its insurance claims, funding these internally. Interest is earned on the balances held until they are required. The insurance provision also covers potential liabilities arising from the performance of building and civil engineering contracts in excess of £750,000. Balances for specific provisions at 31 March 2016 are as follows:

	Balance 1 April 2015 £'000	Income £'000	Payments and / or Transfers £'000	**Balance 31 March 2016 £'000**
Misc Provisions	107	302	**300**	**109**
Schools Reorganisations	1,083	369	**705**	**747**
General Insurance Provision	3,338	(79)	**840**	**2,419**
	4,528	**592**	**1,845**	**3,275**

Triggering of the Scheme of Arrangement for MMI

Municipal Mutual Insurance (MMI) is an insurance company limited by guarantee and not having a share capital, which was established by a group of local authorities and incorporated under the Companies Acts 1862 to 1900 on 13 March 1903. The Company suffered substantial losses between 1990 and 1992. These losses reduced MMI's net assets to a level below the minimum regulatory solvency requirement. In September 1992 MMI ceased to write new, or to renew, general insurance business.

Since going into run-off in September 1992 numerous business and corporate disposals have taken place including the right to seek renewal of the larger part of MMI's direct personal and commercial lines insurance business to Zurich Insurance Company along with a number of MMI's assets and many members of its staff.

The Company is subject to a contingent Scheme of Arrangement under section 425 of the Companies Act 1985 (now 899 of the Companies Act 2006) which became effective on 21 January 1994. On 13 November 2012, the directors of the Company concluded that the terms of the Scheme of Arrangement should be triggered and served notice on the Scheme Administrator and the Company to that effect. As a result, the Scheme of Arrangement was triggered and the Scheme Administrator, Gareth Hughes, has taken over the management of the business of the Company. Any queries in relation to the Scheme of Arrangement should be referred in the first instance to the Company at its registered office.

Following the triggering of the scheme, the Scheme Administrator conducted a financial review of the Company and concluded that a 15% levy would be necessary. For Dorset County Council, this is around £405k. Dorset County Council has met the initial levy request of £405k. In May 2016 notification was received that the levy has been raised to 25% and a further demand of £272k was received. Dorset County Council has sufficient funds to meet this further payment in its earmarked reserves and thus no further provision is required.

41. Contingent Liabilities

Provision has been made in the accounts for known claims against the Council at the level of the Council's own estimation. There are potential claims against the Council, which are at this stage unquantifiable and no provision has been made for these. There are various other minor claims against the Council, where the validity is disputed, and the Council has made no provision for these in the accounts.

42. Other long term liabilities

The Salix Fund was established with money advanced by a government agency, match-funded by DCC, to pay for carbon reduction measures in buildings. The fund is replenished from savings in energy costs in the early years of each project (after which, savings accrue to revenue budgets). The fund is available for ongoing reinvestment. However, should there be, at some stage, insufficient compliant schemes in which to invest, Government may require its advance to be repaid.

2014/15 £'000		**2015/16 £'000**
26	SALIX	**74**
26		**74**

43. Trust funds and bequests

The County Council administers a number of funds which have been established by gift or bequest. Some are bequests for the benefit of certain Social Care or Library service users; others are for school pupils, for the purchase of books, as prizes, or occasionally to provide scholarships. These funds are held by the County Council as trustees and are summarised below.

	Balance 1 April 2015 £'000	Income £'000	Expenditure £'000	**Balance 31 March 2016 £'000**	Capital 31 March 2016 £'000
Bequests (Social Care & Library)	2	1	1	**2**	189
Francis Ramage Prize Fund (Now Closed)	1	50	51	**0**	-
Dixon Galpin Scholarship Fund (Now Closed)	27	102	129	**-**	-
Other Trust Funds (Now Closed)	16	80	96	**0**	-
	46	**233**	**277**	**2**	**189**

44. Capital Adjustment Account

This account provides a balancing mechanism between the different rates at which assets are depreciated and are financed through the capital control system.

2014/15 £'000		**2015/16 £'000**
390,087	Balance brought forward	**373,682**
(31,333)	Depreciation & Impairment	**(45,687)**
(27,142)	REFCUS	**(22,908)**
(5,002)	Net gains/(losses) on disposal of non-current assets	**(3,009)**
(23,796)	Net gains/(losses) on disposal of Academy assets	**(7,521)**
17,464	Minimum Revenue Provision	**12,023**
2,311	Capital Expenditure Charged to the General Fund	**4,942**
46,195	Release of Government Grant	**72,050**
4,899	Use of Capital Receipts	**6,083**
-	Transfer from revenue to fund capital expenditure	**1,611**
373,682	Balance carried forward	**391,266**

45. Collection Fund Adjustment Accounts

The Council Tax Collection Fund Adjustment Account holds the movement between the Council Tax income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund. This is included as a reconciling item in the Statement of Movement in Reserves. This is an unusable reserve for the Authority.

2014/15 £'000		**2015/16 £'000**
3,493	Balance brought forward	**5,501**
2,008	Movement in year	**1,179**
5,501	Balance carried forward	**6,680**

The Non-Domestic Rates (NDR) Collection Fund Adjustment Account holds the movement between the NDR income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund. This is included as a reconciling item in the Statement of Movement in Reserves. This is an unusable reserve for the Authority.

2014/15 £'000		**2015/16 £'000**
(362)	Balance brought forward	**114**
476	Movement in year	**(969)**
114	Balance carried forward	**(855)**

46. Accumulated Absences Account

The IFRS-based Code requires Local Authorities to account for benefits payable during employment in accordance with IAS 19 (Employee Benefits). One aspect of this is that accruals must be made at 31 March for any "accumulating, compensated absences", or untaken leave, time-off-in-lieu etc.

The balance on this account at the end of the year is mirrored by a creditor in the Balance Sheet. As with other changes in creditors, the change in the balance between the start and the end of the year is charged in the Comprehensive Income and Expenditure Statement within individual costs of services.

2014/15 £'000			**2015/16 £'000**	
	(5,432)	Opening balance		**(4,473)**
5,432		Reverse previous year provision	**4,473**	
(4,473)		Current year provision	**(3,435)**	
	959	(Charge)/credit to I&E		**1,038**
	(4,473)	Closing balance		**(3,435)**

47. Capital Grants Unapplied Account

Where the acquisition of a non-current asset is financed wholly or partly by a capital grant or other contribution, the amount of the grant is credited initially to a capital grants unapplied account. Once the appropriate expenditure has been incurred, the funding is transferred from the capital grant unapplied account to the Capital Adjustment Account.

2014/15 £'000		**2015/16 £'000**
22,426	Balance brought forward	**24,515**
45,411	Receipts	**62,251**
93	Notional Interest	**20**
(46,195)	Transferred to Capital Adjustment Account	**(72,050)**
2,781	Adjusted to revenue reserves	**2,670**
24,515	Balance carried forward	**17,406**

48. Revaluation Reserve

This account records the net gain, (if any), from revaluations made after 1 April 2007 from holding non-current assets.

2014/15 £'000		**2015/16 £'000**
88,581	Balance brought forward	**99,497**
22,632	Revaluation gains on property, plant & equipment	**13,637**
(3,206)	Charges for depreciation & Impairment of non-current assets	**(3,319)**
(636)	Net (gains)/losses on disposal of non-current assets	**(621)**
(7,873)	Net (gains)/losses on disposal of Academies	**(2,060)**
99,497	Balance carried forward	**107,134**

49. Financial Instrument Adjustment Account

Financial instruments arise from various types of loan contract or agreements. These activities give rise to a number of risks, including credit risk (debts might not be repaid); liquidity risk (having funds available to meet commitments); re-financing risk (disadvantageous timing for renewal); and market risk (interest rate movements). These topics are addressed in the annual Treasury Management report to the Cabinet.

2014/15 £'000		**2015/16 £'000**
1,530	Balance brought forward	**1,509**
(21)	Soft Loan Interest Adjustment	**41**
1,509	Balance carried forward	**1,550**

50. Usable Capital Receipts Reserve

Capital Receipts from the sale of surplus assets are used to finance the capital expenditure programme. The credit balance reflects 2016/17 receipts being used to finance the programme.

2014/15 £'000		**2015/16 £'000**
5,028	Balance brought forward	**2,968**
2,919	Net (gains)/losses on disposal of non-current assets	**4,036**
(63)	Usable Capital Receipts funding revenue income from finance leases	**(66)**
(4,899)	Use of Capital Receipts to finance new capital expenditure	**(6,083)**
(17)	Reclassifications between balances and Reserves	**(881)**
2,968	Balance carried forward	**(26)**

As well as these reserves, additional capital receipts of £330k have been deferred. These receipts relate to the sale of properties through the Dorset Development Partnership where the cash is being used to provide liquidity to the partnership.

51. Earmarked Reserves

The Council has established a number of reserves, earmarked for capital and revenue purposes as follows: -

For revenue purposes	Balance 1 April 2015 £'000	Income and / or Transfers £'000	Payments and / or Transfers £'000	**Balance 31 March 2016 £'000**
(a) Capital Financing	417	-	(11)	**406**
(b) PFI Reserves	8,895	286	(1,063)	**8,118**
(c) Medium Term Strategy	7,200	9,618	(4,808)	**12,010**
(d) Insurance Reserve	9,817	1,867	(3,000)	**8,684**
(e) Trading Account Reserves	1,640	4,349	(4,966)	**1,023**
(f) Innovation/transformation Fund	1,470	-	(717)	**753**
(g) Other Reserves	4,230	2,110	(1,864)	**4,476**
(h) Repairs & maintenance	750	-	(750)	**-**
(i) Reserves from IFRS transition	28,162	6,871	(14,418)	**20,615**
Total Revenue Reserves	**62,581**	**25,101**	**(31,597)**	**56,085**

(a) Capital Financing

Specific reserves have been established to fund future capital schemes where funding for individual projects is dependent upon specific earmarked contributions.

(b) PFI Reserve

This reserve is a sinking fund held for replacement furniture & equipment, and to cover additional costs of any future legislative changes.

(c) Medium Term Financial Strategy

This reserve is maintained to provide a mechanism to help balance the medium term financial plan (MTFP) over the three year planning period. The prospects for Local Govt finance over the next three to five years are extremely challenging and the reserve has benefitted from review and consolidation of other reserves during the year to ensure we make the best planning choices about our future budgets and plans.

(d) Insurance Reserve

This is in addition to the provision referred to above, to cater for any claims not covered by the provision.

(e) Trading Account Reserves

The balance held in this reserve incorporates the amount unapplied on the internal trading undertakings appropriation accounts.

(f) Innovation Fund

This reserve was set up to fund one-off expenditure that would deliver future savings.

(g) Other Reserves

Various reserves have been created, the main purposes of which are the replacement or purchase of items of plant or equipment, or to smooth the cost of building repair and maintenance across financial years.

(h) Repairs & maintenance

This reserve was established from rationalisation of other reserves during 2013/14 and was used to provide short-term support as the revenue budget for repairs and maintenance was reduced.

(i) Reserves from IFRS transition

Various reserves were created as a result of transition to IFRS. This was because new treatment was required for grant/contribution income which was not yet spent, but for which the conditions of receiving the grant had been fulfilled. These reserves continue to be shown separately as they are purely for accounting requirements rather than reserves which the Authority has designated for specific purposes.

52. Movement in balances

Total balances decreased by £4m during the year to £27.9m. There was a net underspend of £3.1m on revenue budgets subject to cost centre management arrangements. This is included within the general balances figures in this analysis.

2014/15		2015/16				
		General	**LMS***	**Retained Schools**	**Capital**	**Total**
£'000		**£'000**	**£'000**	**£'000**	**£'000**	**£'000**
40,058	Brought forward	11,987	6,106	5,571	8,237	**31,901**
(16,751)	Use in year	5,805	(6,106)	(5,571)	(5,611)	**(11,483)**
8,595	Additions/outturn	(3,082)	7,912	2,609	-	**7,439**
31,901	Carried Forward	14,710	7,912	2,609	2,626	**27,857**

* LMS - balances held on behalf of schools under the scheme for Local Management of Schools.

53. Movement on the General Fund Balance

The Comprehensive Income and Expenditure Account is shown on pages 34 and 35. Amounts charged in the Comprehensive Income and Expenditure Statement now use essentially the same accounting conventions as private companies; ie International Financial Reporting Standards. The surplus or deficit on the Comprehensive Income and Expenditure Statement is the IFRS measure of a body's financial performance.

However, in determining a Local Authority's budget requirement and movement on the General Fund (and hence the level of Council Tax), there are other items which must be taken into account in accordance with statutory or non-statutory proper practices.

Amounts included in the Comprehensive Income and Expenditure Statement in accordance with IFRS, but which are excluded when determining the Movement on the General Fund are depreciation and impairment of non-current assets, deferred charges, the net gain or loss on the sale of non-current assets and adjustment to pensions costs in accordance with IAS19.

Amounts not included in the Comprehensive Income and Expenditure Statement, but which are required to be included when determining the Movement on the General Fund are the statutory provision for the repayment of debt, capital expenditure charged to the General Fund and any transfer to or from earmarked reserves. These additional amounts are detailed in the Statement of Movement In Reserves shown on page 35.

Notes to the Cash Flow Statement

54. Movement in cash and cash equivalents

This table reconciles the net revenue account surplus or deficit to the net increase or decrease in cash.

2014/15			2015/16	
£'000	£'000		**£'000**	**£'000**
	(8,157)	**Net surplus/(deficit) to General Fund**		**(4,044)**
		Movement in accruals items:-		
(9,461)		Long Term Debtors	**8,675**	
78		Stocks	**(257)**	
(14,359)		Debtors	**(9,165)**	
3,845		Creditors	**(2,981)**

	(19,429)			**(4,981)**
		Movement in non-cash items :-		
(4,308)		Capital Accounts	**2,795**	
(2,484)		Collection Fund Adjustment Account	**(210)**	
4,649		Earmarked Reserves	**(6,286)**	
(2,060)		Capital Receipts Reserve	**(2,994)**	
	(4,203)			**(6,695)**
		Movement in financing items:-		
10,036		Short Term Borrowing	**(29,963)**	
(12,405)		Long Term Borrowing	**(3,855)**	
5,000		Short Term Lending	**45,000**	
19,963		Long Term Lending	**-**	
	22,594			**11,182**
	(9,196)	**Increase/(Decrease) in Cash**		**(4,538)**

55. Movement in net funds

Net funds are cash and other liquid resources (e.g. temporary investments), less borrowings.

	Balance 2014/15 £'000	Movement in year £'000	**Balance 2015/16 £'000**
Cash in hand and at bank	114	(4,538)	**(4,424)**
Temporary investments and borrowing	14,217	(15,037)	**(820)**
Leases, PFIs & Other	(42,042)	3,035	**(39,007)**
Long Term Investments	38	-	**38**
Long Term Borrowing	(184,341)	820	**(183,521)**
	(212,014)	**(15,720)**	**(227,734)**

56. Movement in liquid resources

Liquid resources are current assets that are readily convertible into known amounts of cash.

2014/15 £'000		**2015/16 £'000**
50,000	Temporary Investments as at 1 April	**45,000**
19,962	Transfer (to)/from long term investments	**-**
(24,962)	Increase / (Decrease) in Loans in the Period	**(45,000)**
45,000	Temporary Investments as at 31 March	**-**

57. Critical accounting judgements

In applying the accounting policies set out in this document, the Authority has made judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Financial Statement are:

(i) Asset classifications, valuations and useful lives

The County Council has made judgements on whether assets are classified as investment property; property, plant and equipment or assets held for sale. These judgements are based on the main reason that the Council holds the asset. If the asset is used in the delivery of services or is occupied by third parties who are subsidised by the Council they are deemed to be property, plant and equipment assets. If there is no subsidy and/or full market rent is being charged, or the property is held purely for capital appreciation purposes, this would indicate that the asset is an investment property. Where assets are held only because they have not yet been sold, but an active disposal process is in place, the property is deemed to be an asset held for sale. The classification determines the valuation and depreciation method used and drives the useful economic life.

(ii) Lease classifications

The accounting treatment for operating and finance leases is significantly different and could have a material effect on the accounts. The Authority has made judgements on whether its lease arrangements are operating leases or finance leases. These judgements are based on a series of tests designed to assess whether the risks and rewards of ownership have been transferred from the lessor to the lessee.

Continuing development of IAS17, the international accounting standard for leases, means that at some point the County Council is likely to be required to reclassify many of its leases from operating to finance leases. This is likely to have a material impact on the value of assets reported on the Authority's balance sheet.

(iii) Providing for potential liabilities

The County Council has made judgements about the likelihood of pending liabilities and whether a provision should be made or whether there is a contingent liability. This includes legal claims that could eventually result in the payment of compensation or other settlement. The judgements are based on the degree of certainty around the results of pending legal actions based on experience in previous years or in other local authorities.

(iv) The DCC Group Boundary

The County Council applies a series of tests, on an annual basis, in order to assess whether collaborative arrangements it is involved in give rise to a group accounting situation and the requirement for production of consolidated accounts. Disclosure note 6, group accounts, shows details of arrangements with organisations for which it is not deemed to be material to consolidate their financial results and instead to disclose those results and the Council's interests in them. It has, however, been agreed with the external auditor to treat Tricuro as a joint venture, on the basis that the Council has joint control due to equal voting rights on reserved matters, with a 70% beneficial interest and to consolidate the financial results into DCC Group Accounts.

(v) Annual impairment assessment - DCC Group

Under the requirements of paragraph 58 of IAS 39, an investor must assess at each year-end whether there is any objective evidence that its interests in the (associate or) joint venture are impaired. The loss event giving rise to this evidence must have occurred after the interest was recognised and impact the expected future cash flows from the (associate or) joint venture in respect of that interest to the investor. Loss events that have not yet occurred are ignored, however likely. Such events would be taken into account in future periods. Where evidence of impairment is found, the rules in IAS 36 Impairment of Assets are applied to the entire carrying amount of the entity in determining the amount of the impairment loss. Further guidance on the impairment of financial instruments is provided in module 7 of the Code of Practice on Local Authority Accounting in the United Kingdom: Guidance Notes for Practitioners – 2014/2015 Accounts.

The assessment for the 2015/16 Accounts is that there is not a requirement for the Council to recognise any impairment in its interest in Tricuro Support Limited.

58. Assumptions about future funding

There is a continuing high degree of uncertainty about future levels of funding for Local Government. While the general fund balance and earmarked reserves can provide a small buffer and/or a fund for invest to save measures for a range of efficiency initiatives, there is still no guarantee that Council Services can continue to be provided at their current levels.

During 2014/15 the Council set aside £7.2m in a special reserve to balance it's budget over the Medium Term Financial Plan (MTFP) period. This reserve has been increased to £12m during 15/16, this funding is available to support the balancing of the 2016/17 budget and the £5m one-off funding required to support the transformation work to reduce the numbers of children in care during 16/17.

The Government provisional finance settlement in December 2015 included a radical departure from previous methods of calculating funding and left Dorset with a grant reduction of £17.8m (£7.3m more than had been planned for), following lobbying to government some transitional funding was applied at the final settlement but just over £2m were required from the MTFP reserve to balance the budget.

59. Sources of estimation uncertainty

The Financial Statements contain some estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates made.

There is one item in the Council's Balance Sheet at 31 March 2016 for which there is a significant risk of material adjustment in the forthcoming financial year and that is the pension liability. Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.
The effects on the net pensions liability of changes in individual assumptions can be measured; however, the assumptions interact in complex ways and the Authority discloses information about the fund elsewhere in this document.

60. POOLED BUDGETS FOR HEALTH AND SOCIAL CARE

The Better Care Fund (BCF) is the biggest ever financial incentive for the integration of health and social care. It requires Clinical Commissioning Groups and local authorities in every area of England to pool or align budgets and to agree an integrated spending plan for how they will use their Better Care Fund allocation.

The Council is a partner in the pan Dorset Better Care Fund which is owned by two Health and Wellbeing Boards:
- Dorset
- Bournemouth and Poole

Other partners are:
- NHS Dorset Clinical Commissioning Group,
- Bournemouth Borough Council, and
- Borough of Poole

The gross income of the pan Dorset BCF for the year was £61.270m with expenditure of £61.062m.

The Council's contribution to the BCF was £4.496m.

The above Fund Account and Net Assets Statement, and the following Notes, form part of the financial statements. These financial statements summarise the Fund's transactions during the year and the position as at 31 March 2016.
The Net Asset Statement does not reflect any obligations to meet pension and benefit costs beyond the end of the 2015-16 financial year. However, under the requirements of the IFRS accounting standard and in compliance with IAS26 this liability for future benefits is shown in an appendix to the accounts and notes in the form of the disclosure report produced by the Fund's Actuary, Barnett Waddingham. This report forms part of the accounts.

1. GENERAL
The Dorset County Pension Fund is a Local Government Pension Scheme (LGPS) governed by statute. The County Council administers the Fund on behalf of its own full time and part-time staff and employees of other local authorities and similar bodies within the County (known as scheduled bodies), including the Unitary, District and Borough Councils, School Academies and Police and Fire non-uniformed staff. The uniformed police and fire services and teachers are not included as they are members of their own unfunded schemes.

In addition to the scheduled bodies, there are a number of 'admitted' bodies. These are mainly charities and external employers who have taken over certain functions of the administering or scheduled bodies and the relevant staff employed on those functions.

As the administering body the County Council has responsibilities which include the collection of contributions, investment of surplus funds, payment of pension benefits, managing the fund valuation, monitoring all aspects of performance and managing communications with employers, members and pensioners. These activities are governed by the Public Services Pensions Act 2013, the LGPS Regulations 2013 (as amended), the LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended) and the LGPS (Management and Investment of Funds) Regulations 2009 (as amended).

The above responsibilities are carried out by a committee comprising elected members of the County Council and other local authorities together with a scheme member representative (nominated by the unions). Day to day administration of the fund's activities is carried out by several teams of officers headed by the Fund Administrator. More detailed information on the above can be found in the Fund's Annual Report.

2. BASIS OF PREPARATION & ACCOUNTING POLICIES
The accounts have been prepared in accordance with the CIPFA Code of Practice on Local Authority Accounting in the UK 2015-16 ("the Code"), section 6.5 Accounting and Reporting by Pension Funds.

Contributions : Contributions have been accounted for on an accrual basis based on the date of deductions from pay. This includes employers' normal and deficit amounts and employee normal contributions including additional voluntary payments. "Employers' other " contributions for early retirement costs are accrued for based on the date of retirement.

Transfer Values: Transfer values both in and out are accounted for on a cash basis as the date of payment or receipt is deemed to be the time at which any liability is accepted or discharged.

Investment income: UK and Overseas dividends are accrued on an ex dividend basis. Interest on cash balances with custodians are however dealt with on a cash basis due to the lack of availability of timely detailed information.

Transaction Costs: Transaction costs on the acquisition and disposal of investments held in segregated portfolios are included under "Management Expenses" in the Fund Account.

Investments: Investments with a stock exchange listing are valued at bid prices as at the date of the Net Asset Statement. Pooled Investment Vehicles are stated at bid price for funds with bid / offer spreads, or single price where there are no bid / offer spreads, as provided by the fund manager.

Unquoted securities are included at an estimated fair value based on advice from the investment manager.

Forward foreign exchange contracts are valued by determining the gain or loss that would arise from closing out the contract at the reporting date by entering into an equal and opposite contract at that date. There were no open Forward foreign exchange contracts as at 31 March 2016.

All foreign currencies are translated at the rate ruling at the net assets statement date.
Where investments with a bid price is available this has been used as a basis for valuation.

Direct Holdings of Property were valued by professionally qualified staff of BNP Paribas as at 31 March 2016. This was carried out on the basis of Open Market Value in accordance with the Appraisal and Valuation Manual of the Royal Institution of Chartered Surveyors. CBRE Global Investors is the appointed Fund Manager and BNP Paribas are the independently appointed valuers. A copy of the valuation is available for inspection on request.

3. ACTUARIAL POSITION
An Actuarial Valuation was carried out as at 31 March 2013 by the Fund’s Actuary, Barnett Waddingham, and changes in contribution rates as a result of that valuation took effect from 1 April 2014 with contribution rates being set then for the three years to 31 March 2017.
A summary of the 2010 and 2013 Valuation is shown below.

2010 Valuation

The 2010 valuation resulted in an average contribution rate of 18.5% of payroll to be paid by each employing body participating in the Dorset County Pension Fund comprising of a "Future Service Contribution Rate" of 13.8% and a "Deficit Recovery (25 years) Rate" of 4.7%. Each employing body pays an individual rate of contributions to reflect its own particular circumstances and funding position within the Fund.

2013 Valuation

The 2013 Actuarial Valuation due as at 31 March 2013 has been completed and came into effect as of 1 April 2014. The 2013 valuation resulted in an average contribution rate of 18.6% of payroll to be paid by each employing body participating in the Dorset County Pension Fund. The future service cost element amounts to 13.3% and the past service deficit 5.3%. The past service deficit payment is fixed for each employer as a cash amount for the three years of the valuation period to reflect the general reduction in workforce that is taking place at a majority of employers.

Contribution Rates

The contribution rates paid by each employer, in addition to those paid by members of the scheme, are set to be sufficient to meet the liabilities that build up each year within the Fund in respect of the benefits earned by each employer's active members of the Fund during the year plus an amount to reflect each participating employer's share of the value of the Fund's assets compared with the liabilities that have already accrued at the valuation date.

The contribution rates were calculated using the Projected Unit Method taking account of market conditions at the valuation date.

Asset Value and Funding Level

The smoothed market value of the Fund's assets as at 31 March 2013 was £1,936m which represented 82% (2010 valuation 79%) of the Fund's accrued liabilities at that date allowing for future increases in pay and pensions in payment.

Financial Assumptions

For the purposes of the 2015/16 Financial Year the financial assumptions applied by the actuary were set at the 2013 valuation. The assumptions for both the 2010 and 2013 valuations are summarised below. To be consistent with the market value of assets, the liabilities were valued allowing for expected future investment returns and increases to

	2010 Valuation	**2013 Valuation**	
Rate of return on investments	6.90%	6.00%	per annum
Rate of increases in pay (short term)	4.70%	2.70%	per annum
Rate of increases in pay (long term)	4.70%	4.20%	per annum
Rate of increases to pensions in payment	3.00%	2.70%	per annum

4. MEMBERSHIP

Under the new LGPS scheme effective 1 April 2014 membership of the Fund is automatic for staff with a contract of employment of more than three months. Those with a contract of less than three months can opt to join by request.

Employees of Scheduled bodies have the right to join the scheme and membership is automatic. Membership for employees of Designating bodies is also automatic but subject to the employer having opted for employees in general to be eligible to join the scheme. Admitted bodies' employees will have separate individual arrangements on admission depending on their employer's agreement in place. All employees can opt out of the scheme at any time.

Membership of the new LGPS scheme is offered to teachers where membership of their normal scheme is not available to them.

2014/15		**2015/16**
	Contributors	
9,492	Dorset County Council	**8,483**
15,168	Scheduled Bodies	**18,568**
1,037	Admitted Bodies	**1,156**
25,697		**28,207**
	Pensioners	
7,049	Dorset County Council	**6,793**
9,508	Scheduled Bodies	**9,844**
1,026	Admitted Bodies	**967**
17,583		**17,604**

In addition there are 21,802 deferred members (21,084 in 2014-15) who have entitlement to a benefit at some time in the future.

5. EMPLOYER CONTRIBUTIONS

The normal contributions made by employers consist of two elements. One to fund pensions on future service and the other to meet deficits existing on past service costs. The triennial valuation of the fund sets a combined total contribution rate for individual employers and for various pooled groups of employers.

The average contribution rates for the years 2014-15, 2015-16 and 2016-17 set by the 2013 valuation were 13.3% for future service and 5.3% for deficit funding. These rates reflect funding levels at the valuation date of 82% and assumes full deficit recovery over a period not exceeding 25 years depending on each employer's circumstances.

Set out below is an analysis of the employers normal contributions : -

2014/15		**2015/16**
£'000		**£'000**
53,495	Contributions re Future Service Costs	**55,234**
21,317	Contributions re Past Service Costs	**22,011**
1,328	Employer's Voluntary Additional Contributions	**168**
76,140	Total Contributions	**77,413**

" Other Employers " contributions shown in the Fund Account (£2,858k) are amounts paid by employers to the Fund to meet the capital costs of early retirements.
The 2013 Actuarial Valuation set a fixed annual deficit contribution for employers for each of the three years of the valuation period. Employers were given the option to pay all these amounts in advance in 2014 at a discount. The "Deferred Income" amounts in the Net Aset Statement are these payments in advance made by employers taking up the option (£16.587m re 2015-16 and £17.828m re 2016-17)

6.MANAGEMENT EXPENSES

Set out below is an analysis of the Management Expenses: -

2014/15		**2015/16**
£'000		**£'000**
1,509	Administration Expenses	**1,337**
502	Oversight and Governance	**497**
8,283	Investment Management Expenses	**9,274**
10,294	Total Expenses	**11,108**

Investment Management Expenses are shown on the face of the accounts and in the above analysis in accordance with the CIPFA guidance "Accounting for LGPS Management Costs". Investment Mangement Expenses for 2015/16 consist of management fees of £6.8M, performance related fees of £0.5M, transaction costs of £0.4M, custody fees of £0.1M, direct operating expenses relating to investment properties of £1.3M and other fees and costs of £0.2M.

7. RECONCILIATION OF INVESTMENTS HELD AT BEGINNING AND END OF YEAR

The following table gives details of purchases, sales and changes in the market valuation of investments in the fund during the year.

	Value 1 April 2015 £'000	Purch's & Derivative payments £'000	Sales & Derivative receipts £'000	Change in market value £'000	**Value 31 March 2016 £'000**
UK equities - Quoted	401,418	12,160	15,519	(32,405)	**365,654**
Overseas equities - Quoted	464,090	551,942	444,088	(11,555)	**560,389**
Pooled Investment Vehicles	1,115,335	13,653	107,421	(50,139)	**971,428**
Absolute Return (Hedge) Funds	4,817	-	4,679	(128)	**10**
Private Equity	59,156	13,921	19,766	12,121	**65,432**
Property	204,700	4,233	3,166	15,358	**221,125**
Forward Foreign Exchange	-	20,583	16,322	(4,261)	**-**
	2,249,516	616,492	610,961	(71,009)	**2,184,038**
Temporary investments	5,000	31,600	5,000	-	**31,600**
Cash Deposits	70,524	267,758	278,056	-	**60,226**
	2,325,040				**2,275,864**

The transaction costs associated with Pooled Investment Vehicles are taken into account in calculating the bid/offer spread of these investments and are therefore embedded within the purchase and sales costs and not separately identifiable. All other transaction costs have been charged to the Pension Fund Account.

8. CONTINGENT ASSETS AND LIABILITIES

The Pension Fund is continuing the process required to recover withholding tax from various EU investments following rulings requiring equal treatment for all EU investors. These claims will be retrospective and will cover a varying number of years depending on the domicile. Neither the amount nor the expected time of settlement are known so consequently the financial statements as at 31 March do not reflect any potential recovery of tax.

9. FINANCIAL RISK MANAGEMENT

The activities of Dorset County Pension Fund are exposed to a variety of financial risks; market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk.

The Fund's investments are managed on behalf of scheme members by the Investment Managers. During the year ended 31 March 2016, investments were held by Pictet et Cie Banquiers and HSBC Global Investor Services, who acted as custodians on behalf of the Dorset Fund. Each investment manager is required to invest the assets managed by them in accordance with the terms of a written investment mandate or duly authorised prospectus.

The Dorset County Pension Fund's Pension Fund Committee has determined that appointment of these managers is appropriate for the Fund and is in accordance with its investment strategy.

The Dorset County Pension Fund Committee obtains regular reports from each investment manager and from its Independent Adviser on the nature of the investments made and associated risks.

The Fund is exposed to interest rate risk, currency risk and other price risk due to its underlying assets and liabilities. The analysis below is provided to meet the disclosure requirements of IFRS 7 Financial Instruments: Disclosures, and should not be used for any other purpose. The analysis is not intended to constitute advice and is not guaranteed.

(a) Market Risk

Market risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Fund is exposed, particularly through its equity portfolio, to market risk influencing investment valuations. In addition to the effects of movements in interest rates, the Fund is exposed to currency risk and other price risk. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of exposure to different markets through different Investment Managers. Risk of exposure to specific markets is limited by applying strategic targets to asset allocation, which are monitored by the Pension Fund Committee.

(a) (i) Other Price Risk

Other price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments in the market.

The Fund is exposed to price risk which arises from investments for which the prices in the future are uncertain. All securities investments present a risk of loss of capital, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. The Investment Managers mitigate this risk through diversification in line with their own investment strategies.

(a) (i) Other Price Risk - Sensitivity Analysis

Following analysis of data from HSBC Performance Measurement and Risk Services, it has been determined that the following movements in market price risk were reasonably possible for the 2015/16 reporting period:

Internally Managed UK Equities	15.00%
Axa Framlington UK Equities	15.00%
Schroders UK Equities	15.00%
Standard Life UK Equities	20.00%
Allianz Global Equity	15.00%
Investec Global Equity	15.00%
Wellington Global Equity	15.00%
HarbourVest Private Equity	15.00%
Standard Life Private Equity	20.00%
Royal London Bonds	10.00%
Insight Investments	n/a
Gottex Hedge Funds	5.00%
IAM Hedge Funds	10.00%
Pioneer Hedge Funds	10.00%
CBRE Property	10.00%
JP Morgan Emerging Markets Equity	25.00%
Baring Asset Management	5.00%
Hermes Infrastructure Fund	10.00%
Temporary Investments	0.00%

A price change disclosed above is broadly consistent with a one-standard deviation movement in the value of the assets. This analysis assumes that all other variables, in particular foreign currency exchange rates, and interest rates remain constant.
The increase or decrease in the market price against the investments of the Fund at 31 March would have increased or decreased the change for the year in net assets available to pay benefits by the amount shown below.

As at 31 March 2016	Value £'000	Percentage Change	Increase £'000	Decrease £'000
Internally Managed UK Equities	365,654	15.00%	54,848	(54,848)

(a) (ii) Interest Rate Risk
The Fund invests in financial assets for the primary purpose of obtaining a return on investments on behalf of scheme members. These investments are subject to interest rate risks, which represent the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund's exposure to interest rate movements on those investments at 31 March 2016 and 2015 are provided below. These disclosures present interest rate risk based on underlying financial assets (at fair value).

	31/03/2016 £'000	31/03/2015 £'000
Cash and Cash Equivalents	60,226	70,524
Fixed Interest	524,108	562,593
Loans	31,600	5,000
Total	615,934	638,117

(a) (ii) Interest Rate Risk - Sensitivity Analysis

Interest rates vary and can impact the value of the net assets available to pay benefits to scheme members. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the year ended 31 March 2015.

An increase or decrease of 1% (100 basis points) in interest rates at the reporting date would have increased or decreased the change for the year in net assets available to pay benefits by the amount shown below.

As at 31 March 2016	Value £'000	Change for the year in net assets available to pay	
		+1%	-1%
Cash and Cash Equivalents	60,226	602	(602)
Fixed Interest	524,108	5,241	(5,241)
Loans	31,600	316	(316)
Total	**615,934**	**6,159**	**(6,159)**

As at 31 March 2015	Value £'000	Change for the year in net assets available to pay	
		+1%	-1%
Cash and Cash Equivalents	70,524	705	(705)
Fixed Interest	562,593	5,626	(5,626)
Loans	5,000	50	(50)
Total	**638,117**	**6,381**	**(6,381)**

(a) (iii) Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in a currency other than the functional currency (Great British Pound) of the Fund. The Fund holds both monetary and non-monetary assets denominated in currencies other than Pounds Sterling.

Included within the Fund's Investment Strategy is a strategic decision to hedge 50% of the currency risk in relation to Overseas Equities. The below exposures are net of this 50% hedge. The Fund also hedges 100% of it's exposure to the US Dollar generated by the holding in the IAM Hedge Fund, which is denominated in US Dollars.

The following tables summarise the Fund's exposure at 31 March 2016 to currency exchange rate movements on its investments.

	Net Currency Exposure as at 31/03/2016 £'000	Net Currency Exposure as at 31/03/2015 £'000
US Dollar	220,525	253,392
Euro	60,247	39,591
Japanese Yen	22,461	42,450
Canadian Dollar	21,016	6,792
Swiss Franc	6,379	11,588
Australian Dollar	6,190	0
Swedish Krona	3,156	1,099
Israeli Shekel	2,920	0
Danish Krone	2,066	1,531
Norwegian Krone	1,846	0
Hong Kong Dollar	1,770	0
Singapore Dollar	1,127	184
	349,703	**356,627**

(a) (iii) Currency Risk - Sensitivity Analysis

Following analysis of historical data, it is considered that likely volatility associated with foreign currency rate movements (as measured by one standard deviation) are set out below.

These changes in the currencies are considered to be reasonable based on historical movements in exchange rates over the past three years. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for the year ended 31 March 2015.

To mitigate the affect of movements in foreign exchange rates against its overseas equities investments, the Fund has in place a 50% passive currency hedge against the three major currencies - the US Dollar, the Euro and the Japanese Yen.

A strengthening or weakening of the GBP against the various currencies by one standard deviation (measured in percentages below) at 31 March 2016 would have increased or decreased the change for the year in net assets available to pay benefits by the amount shown below:

As at 31 March 2016	Percentage Change	Change for the year in net assets available to pay benefits	
		+ 1 Standard Deviation	- 1 Standard Deviation
		£'000	£'000
US Dollar	2.40%	5,293	(5,293)
Euro	2.21%	1,331	(1,331)
Japanese Yen	2.78%	624	(624)
Canadian Dollar	2.21%	464	(464)
Swiss Franc	1.74%	111	(111)
Australian Dollar	2.69%	167	(167)
Swedish Krona	0.33%	10	(10)
Israeli Shekel	0.39%	11	(11)
Danish Krone	0.30%	6	(6)
Norwegian Krone	0.46%	8	(8)
Hong Kong Dollar	0.30%	5	(5)
Singapore Dollar	1.40%	16	(16)
Total		**8,048**	**(8,048)**

As at 31 March 2015	Change	Change for the year in	
		+ 1 Standard	- 1 Standard Deviation
		£'000	£'000
US Dollar	2.10%	5,321	(5,321)
Euro	3.10%	863	(863)
Japanese Yen	2.18%	1,316	(1,316)
Canadian Dollar	1.56%	124	(124)
Swiss Franc	1.82%	181	(181)
Australian Dollar	0.29%	-	-
Swedish Krona	0.36%	4	(4)
Israeli Shekel	0.44%	-	-
Danish Krone	0.27%	4	(4)
Norwegian Krone	2.50%	-	-
Hong Kong Dollar	1.31%	-	-
Singapore Dollar	0.47%	2	(2)
Total		**7,815**	**(7,815)**

(b) Credit Risk

Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Pension Fund to incur a financial loss. Market prices generally incorporate credit assessments into valuations and risk of loss is implicitly provided for in the carrying value of the financial assets and liabilities as they are marked to market.

The net market value of financial assets represents the Fund's exposure to credit risk in relation to those assets.

The selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur though the failure to settle transactions in a timely manner. The Fund's exposure to concentrations of credit risk to individual counterparties comprises of Temporary Investments and Bonds held in Pooled Investment Vehicles. The contractual credit risk is represented by the net payment or receipt that remains outstanding.

Deposits are not made with banks and financial institutions unless they conform with the Pension Fund's investment criteria. The Fund also sets limits as to the maximum percentage of deposits placed with any one individual institution. In addition, to enable diversification, the Fund is able to invest in Money Market Funds, all of which have a AAA rating from the leading credit rating agencies.

The Fund's exposure to credit risk at 31 March 2016 is the carrying amount of the financial assets.

	31/03/2016	31/03/2015
	£'000	£'000
Temporary Investments	31,600	5,000
Bank Account Deposits	2,426	13,133
Cash held as part of Overseas Equities portfolio	0	42,391
Money Market Funds	57,800	15,000
Bonds held in Pooled Investment Vehicles	524,109	562,593
	615,935	638,117

An analysis of the Fair Value of bonds held as at 31 March 2016 and 2015 by credit grading within the credit risk is shown below.

		31/03/2016		31/03/2015
Bond Rating:	Percentage	£'M	Percentage	£'M
Government bonds	45.4%	238	49.0%	276
Corporate bonds:				
AAA	5.0%	26	4.3%	24
AA	5.9%	31	4.8%	27
A	15.5%	81	16.5%	93
BBB	20.6%	108	17.6%	99
BB or less	2.7%	14	2.8%	16
Unrated	5.0%	26	5.0%	28
Total		524		563

(c) Liquidity Risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. In assessing each individual investment, a key consideration is to ensure that the liability of the Fund is limited to the amount of the investment in the asset.

The liquidity risks associated with the need to pay members' benefits are mitigated by maintaining a detailed cashflow model that ensures there is a constant pool of liquid cash available to meet on going liabilities as they arise.

The following table analyses the Fund's financial liabilities, grouped into relevant maturity dates.

	Carrying Amount	Less than 12 Months	Greater than 12 Months
	£'000	£'000	£'000
Creditors and Receipts in Advance	7,516	7,516	-

(d) Fair Value Hierarchy

The Code requires the Fund to classify fair value measurements using a hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

• Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

• Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability;

• Level 3: inputs for the asset or liability that are not based on observable market data (that is, unobservable).

The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement. Observable data is considered to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following sets out the Fund's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 March 2016.

	Level 1	Level 2	Level 3	Total
	£'000	£'000	£'000	
UK Equities - Quoted	365,654			365,654
Overseas Equities - Quoted	560,389			560,389
Pooled Investment Vehicles	868,692	102,736		971,428
Absolute Return (Hedge) Funds		10		10
Private Equity			65,432	65,432
Property		221,125		221,125
Temporary Investments	31,600			31,600
Sub Total	1,826,335	323,871	65,432	2,215,638
Cash in hand	60,226			60,226
	1,886,561	323,871	65,432	2,275,864

Investments whose values are based on quoted market prices in active markets, are therefore classified within level 1.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. As level 2 investments include positions that are not traded in active markets and / or are subject to transfer restrictions, valuation may be adjusted to reflect illiquidity and / or non - transferability, which are generally based on available market information.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. As observable prices are not available for these securities, the responsible entity has used valuation techniques to derive fair value.

During the year ended 31 March 2016 there were no transfers between levels 1, 2 or 3 of the fair value hierarchy .

Derivative Activity

The Fund does not engage in any direct derivative activity other than Forward Foreign Exchange contracts disclosed above. Pooled Investment Vehicles in which the Fund has investments do have a mandate to undertake other derivative activity but these are not reported in detail.

10. ANALYSIS OF CONTRIBUTIONS AND BENEFITS

The following table shows the total contributions receivable and benefits payable, analysed between the administering authority (Dorset County Council), scheduled bodies and admitted bodies.

2014/15			**2015/16**	
Contributions	Benefits		**Contributions**	**Benefits**
£'000	£'000		**£'000**	**£'000**
36,267	36,431	Dorset County Council	**33,447**	**36,246**
63,265	57,658	Scheduled Bodies	**67,490**	**61,452**
5,799	5,933	Admitted Bodies	**5,735**	**6,459**
105,331	100,022		**106,672**	**104,157**

11. ADDITIONAL VOLUNTARY CONTRIBUTIONS

The County Council administers an In-House AVC Scheme with two designated providers. The amounts contributed to AVC plans by employees who are members of the pension scheme do not form any part of, and are not included in, the Pension Fund Accounts.

Each employer in the Pension Fund is responsible for collecting from their own employees and paying to the AVC provider those contributions due on AVC plans. Dorset County Council as employer deducted and paid to the AVC providers a total of £352,080 in 2015-16 (£414,863 in 2014-15).

12. REVIEW OF INVESTMENT PERFORMANCE

The investment performance of the Fund for the year to 31 March 2016 showed a total return of +ve 0.08% against a benchmark of -ve 0.92%. Over the last three years performance had an annualised return of 6.48% per annum against a benchmark of 5.53%, and over the last 5 years performance was 8.24% per annum compared to a benchmark of 7.83%. Over the three and five year periods the Fund's return is ahead of the Actuary's long term target return at the last valuation of 6.10%.

The Pension Fund Committee receives quarterly reports on the overall performance of the Fund and the underlying investment managers. These reports consider the quarterly, annual, 3 year and 5 year performance, with comparisons against the Fund's bespoke benchmark and the LGPS average. Whilst the quarterly data is of interest the Committee focus is on the longer term performance analysis and assessment of trends.

13. INVESTMENTS
The principal powers to invest are contained within the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. Details of these Regulations and all aspects relating to the investment of the Fund can be found in the Dorset County Pension Fund Annual Report & Accounts 2014-15, copies of which are available from the Chief Financial Officer, Dorset County Council, County Hall, Colliton Park, Dorchester, Dorset, DT1 1XJ

14. STOCK LENDING
The fund continues to lend UK and overseas equity stock held in the portfolio. All benefits as a stockholder are retained except for the voting rights. The income from stock lending was £191,041 comprising £145,351 from UK equities and £45,690 from overseas, net of charges. The value of stock on loan as at 31 March 2016 was £277.5M, comprised of £270.7M in the UK and £6.8M overseas. This is secured by collateral worth £291.4M.

15. STATEMENT OF INVESTMENT PRINCIPLES
The Statement of Investment Principles was originally approved by the Investment Advisory Panel on 4 July 2000, and was most recently revised at the Committee meeting on 25 June 2015. A copy of the full statement can be found in the Pension Fund Annual Report 2014-15.

16. RELATED PARTIES
Related party issues arise primarily around the fact that the County Council is the Administering Authority for the Pension Fund. The County Council has various operational, contractual and financial dealings with a number of Scheduled and Admitted Bodies of the Pension Fund. These activities, however, do not relate to the County Council's role as Administering Authority.
The County Council remits contributions to the Fund monthly (£1.8M re the March contributions were outstanding as at the 31 March 2016) and management and administration costs are incurred by the County and recharged to the Fund on an actual basis. This was £1.5m for 2015-16 and was due to DCC on 31 March 2016.
In addition to normal debtor / creditor amounts as above at any given time there may be amounts which have been paid or received by both the County And the Pension Fund where indebtedness arises between the two. These can arise due to operational necessity or where single transactions have elements relating to both the County and the Pension Fund. These are settled on a regular basis.

Senior officers of the Pension Fund are members of the Fund as employee contributors. As at 31 March 2016, three members of the Pension Fund Committee were contributing members of the Fund and one member of the Pension Fund Committee was a deferred member of the Fund.

17. MANAGEMENT ARRANGEMENTS AND POOLED INVESTMENTS ANALYSIS
Responsibility for the investment policy of the Fund rests with the Pension Committee, made up of County, Unitary and District councillors and a scheme member representative.

Day to day investment decisions are taken by the Chief Financial Officer (acting in this regard as 'Fund Administrator') in consultation with the external managers who advise on and are responsible for the portfolios detailed below.

2014/15 %	2014/15 Market Value £'000	Portfolio	Manager	Type of Pooled Vehicle	**2015/16 Market Value £'000**	**2015/16 %**

ACADEMY	An academy is a school that is directly funded by central government (specifically, the Department for Education) and which is independent of control by a Local Authority.
ACCOUNTING DATE	The date to which an organisation makes up its Financial Statements. Like all Local Authorities, DCC's accounting date is 31 March.
ACCOUNTING PERIOD	The period of time covered by the accounts, which for this Authority means a period of twelve months commencing on 1 April through to the following 31 March.
ACCOUNTING POLICIES	The principles, conventions, rules and practices that specify how the effects of transactions and other events are recognised, measured and presented in the financial statements.
ACCRUAL	Sums included in the final accounts to cover income and expenditure attributable to the accounting period but for which payment has not been made or received by 31 March.
ACTUARIAL GAINS AND LOSSES	For a defined benefit pension scheme, the changes in actuarial deficits or surpluses where events have not coincided with actuarial assumptions or actuarial assumptions have changed.
ACTUARIAL VALUATION	An independent report on the financial status of the Pension Fund, which determines its ability to meet future payments.
AGENCY SERVICES	The provision of services by one body (the agent) on behalf of and generally with reimbursement from the responsible body.
AMORTISATION	Amortisation is the equivalent of depreciation for intangible assets (see below).
ASSET	Something of worth that can be measured in monetary terms and which has an economic value that spans more than one financial year. Assets can be tangible (e.g. land and buildings) or intangible (e.g. computer software).
ASSETS HELD FOR SALE	Assets which are no longer intended for operational use in the Authority and which are being actively marketed with likely sale within 12 months.
BALANCES	The accumulated surplus of income over expenditure.
BUDGET	A statement of the Council's plans expressed in financial terms.
CALL TO ACCOUNT	The Audit & Scrutiny Committee may 'call to account' members of the Cabinet and senior officers to explain any particular decision they have made and, the extent to which actions taken implement Council policy and to account for their performance.
CAPITAL CHARGE	A charge to service revenue accounts to reflect the cost of fixed assets used in the provision of services. This equates to depreciation and impairment charges under the IFRS based Code.
CAPITAL EXPENDITURE	Expenditure on the acquisition, construction or enhancement of significant assets (e.g. land and buildings, vehicles and equipment) which have a long term value to the Authority (also referred to as capital spending or capital payments).
CAPITAL RECEIPTS	Income from the sale of capital assets (land, buildings, etc.).
CARRYING AMOUNT	The amount at which an asset or liability is shown in the balance sheet at a specified date; for example, the cost of a vehicle, less the accumulated depreciation.

COLLECTION FUND	A fund maintained by District, Unitary and Borough councils for the collection and distribution of council tax receipts. County, District, Unitary and Parish Council precepts are met from these funds. Surpluses or deficits are carried forward and included in the following year's council tax calculation.
COMMUNITY ASSETS	Assets that an Authority holds, that have no determinable useful life and may have restrictions on their disposal. An examples would be a country park.
COMPONENT ACCOUNTING	Component accounting is the separate recognition of two or more significant components of an asset for depreciation purposes (i.e. as if each component were a separate asset in its own right) where the useful life is substantially different.
CONSISTENCY	The principle that the accounting treatment of like items within an accounting period and from one period to the next is the same.
CONTINGENCY	A sum of money set aside to meet unforeseen expenditure.
CONTINGENT LIABILITY	A possible obligation arising from past events where it is not probable that a transfer of economic benefits will be required or the amount of the obligation cannot be measured with sufficient reliability.
CORPORATE & DEMOCRATIC CORE	Those activities which local authorities engage in specifically because they are elected, multi-purpose authorities. There is no basis for apportioning these costs to services.
COST CENTRE	A specific area of activity where control of certain budgets has been delegated.
COUNCIL TAX	A property based tax, with discounts for those living alone, which is administered by District, Borough and Unitary Councils.
CREDITORS	Amounts owed by the Authority for work done, goods received or services rendered but for which payment has not been made by the end of the accounting period.
CURRENT ASSETS	Current assets are those which can either be converted to cash or used to pay current liabilities within 12 months.
CURRENT LIABILITIES	Amounts owed by the Local Authority which are due to be settled within 12 months.
CURRENT SERVICE COST	The increase in the present value of a defined benefit pension scheme's liabilities expected to arise from employee service in the current period.
CURTAILMENT	For a defined benefit pension scheme, an event that reduces expected future years' service or accrual of benefits. Examples include redundancies from discontinuing an activity or amendment of scheme terms.
DEBTORS	Amounts due to the Authority but unpaid by the end of the accounting period.
DEPRECIATION	The measure of the use or consumption of a fixed asset during the accounting period.
DONATED ASSET	An asset which is acquired by the Authority for no cost. Not the same as assets which are transferred to the Authority as part of the "machinery of Government".
EMOLUMENTS	All sums paid to an employee, including any allowances chargeable to UK income tax, but excluding pension contributions payable by either employer or employee.
ESTIMATION TECHNIQUES	The methods adopted to arrive at estimated monetary amounts, corresponding to the measurement bases selected, for assets, liabilities, gains, losses and changes to reserves. These implement the measurement aspects of the accounting policies, and include selecting methods of depreciation and making provision for bad debts.

FINANCIAL ASSET	Financial assets are cash and cash equivalents, plus any other assets that can be converted into cash in a reasonably short period of time.
FINANCIAL INSTRUMENT	Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term financial instrument covers both financial assets and financial liabilities.
FINANCIAL LIABILITY	Financial liabilities are liabilities that are contractual obligations to deliver cash or other financial assets to another entity.
FORMULA SPENDING SHARE (FSS)	The Government's assessment of each Authority's spending needs, used as the mechanism to distribute government grants (RSG and NNDR).
FULL TIME EQUIVALENT (FTE)	In terms of staffing time, a full time equivalent is 37 hours per week. So if two staff are employed working 18.5 hours per week each, they can be said to constitute one FTE.
HERITAGE ASSET	A heritage asset is one with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture.
IAS	International Accounting Standards are statements of standard accounting practice issued by the International Accounting Standards Committee and with which all Local Authorities are now required to comply.
IFRS	International Financial Reporting Standards are statements of standard accounting practice issued by the International Accounting Standards Board and with which all Local Authorities are now required to comply.
IMPAIRMENT	A reduction in the value of a fixed asset or financial instrument below its carrying amount, arising from physical damage such as a major fire or a significant reduction in market value, or a situation where capital spending on an asset has no effect on the value of the asset.
INFRASTRUCTURE ASSETS	Fixed assets that are inalienable, expenditure on which is recoverable only by continued use of the asset created. Examples are highways and footpaths.
INVENTORIES	The amount of unused or unconsumed stock held for future use. Examples include consumable stores and services in intermediate stages of completion.
INVESTMENT PROPERTY	Investment property is property (land or a buildings) held by the Authority to earn rental income or for capital appreciation or both.
LEASE (EMBEDDED LEASE)	While it does not necessarily take the form of a lease, an embedded lease is an arrangement that conveys the right to use an asset in return for payment.
LEASE (FINANCE LEASE)	A finance lease is an arrangement where substantially all of the risks and rewards of ownership of the leased asset pass to the lessee, regardless of whether the lease arrangement provides for actual transfer of ownership.
LEASE (OPERATING LEASE)	Any lease which is not a finance lease.
LOCAL MANAGEMENT IN SCHOOLS (LMS)	Control of a significant proportion of school budgets is devolved to schools for them to manage under the LMS scheme. Balances held by schools under this scheme are ringfenced and are not available to the remainder of the County Council.
MEASUREMENT	Measurement is the process of determining the monetary amounts at which the elements of financial statements are to be recognized and carried in the balance sheet and comprehensive income and expenditure statement. Measurement bases include historical cost, current cost, present value and depreciated replacement cost.

MEDIUM TERM FINANCIAL PLAN (MTFP)	The Council's three-year, rolling, financial plan.
NATIONAL NON-DOMESTIC RATES (NNDR)	District Councils collect this tax locally and pay it to the Government. It is then redistributed to County, Unitary, Borough and District councils, and Police and Fire Authorities on the basis of the resident population.
NON-CURRENT ASSETS	Assets that provide benefits to the Authority and the services it provides, for a period of more than one year.
NON-DISTRIBUTED COSTS (NDC)	Overheads for which no user benefits, and therefore not apportioned over services.
NON-OPERATIONAL ASSETS	Fixed assets that are not occupied or used in the delivery of services. Examples are investment properties and assets surplus to requirements, pending sale.
OPERATING SEGMENTS	Local Authorities are required to present information on reportable segments within the notes to the Financial Statements. Reportable segments must be based on an Authority's internal management reporting, for example departments, directorates or portfolios. DCC has chosen Directorates as its operating segments.
OTHER OPERATING INCOME AND EXPENDITURE	Items that are required to be shown in the Authority's Comprehensive Income and Expenditure Statement but which should not be charged to specific services.
PAST SERVICE COST	For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.
PRECEPT	A levy requiring the District and Borough Councils to collect income from council taxpayers on behalf of the County Council. Sums collected are held in the Collection Fund (see above) and paid to the preceptor in ten instalments.
PROVISIONS	Amounts set aside to meet liabilities or losses which arise in the accounting period and which are likely to be incurred, but where the actual sum and timing are uncertain.
RELATED PARTY	A related party is a person or entity that is related to the reporting entity. There are different rules and definitions for public and private sector bodies. An entity can be regarded as a related party to DCC if, for example, a person employed by DCC has significant influence over the entity or is a member of the key management personnel of that entity.
REFCUS	Revenue Expenditure Funded from Capital Under Statute. This is principally capital expenditure on properties which the County Council does not own and which are not included in its asset register. This expenditure is reported in the Comprehensive Income and Expenditure Statement in the year it is incurred with the necessary appropriations in the Statement of Movement in Reserves between the General Fund and the Capital Adjustment Account to reflect that although financing is from a capital source, it funds revenue expenditure in the Authority's accounts.
RESERVES	Sums set aside and earmarked to meet the cost of specific future expenditure.
RESIDUAL VALUE	The amount at which an asset will be carried in the Authority's accounts after it has been depreciated.

REVALUATION RESERVE	Revaluation reserves (or, more precisely, revaluation surplus reserves) arise when the value of an asset becomes greater than the value at which it was previously carried in the Balance Sheet. When accounting rules allow/require the Authority to revalue the amount at which the asset is carried in the Authority's Balance Sheet, there is an increase in the Authority's net worth.
REVENUE EXPENDITURE	The day to day costs (pay, premises, transport, supplies and services, etc.) incurred by the Authority in providing services.
REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE	Expenditure of a capital nature, which does not result in the acquisition or enhancement of a fixed asset owned by the Authority. Such expenditure is written out of the accounts in the year it is incurred, but is financed by a capital stream.
REVENUE SUPPORT GRANT (RSG)	A general central government grant paid to the Council in support of its day to day expenditure and distributed on a formula basis.
RUNNING COSTS	Expenditure incurred on the use of premises, transport and equipment, together with other general expenditure necessary to enable the service to be provided.
SEGMENTAL ANALYSIS	A breakdown of the Authority's income and expenditure by major business segment (Service Area).
SERVICE CONCESSION	Service concessions are arrangements whereby a government or other body grants contracts for the supply of public services (such as roads, energy distribution, prisons or hospitals) to private operators.
SOFT LOAN	A loan with an interest rate below market rates.
SPECIFIC GRANTS	Grants paid by government, government agencies and similar bodies, to local authorities in support of particular services. These are often in return for past or future compliance with certain conditions relating to the activities of the Authority.
SUBSEQUENT EXPENDITURE	Expenditure which is incurred on an asset after it has begun its useful economic life.
SURPLUS ASSETS	Non-current assets which are surplus to service needs, but which do not meet the criteria required to be classified as Investment Property, or Assets Held For Sale.
THIRD PARTY PAYMENTS	The cost of specialist or support services purchased by the County Council from outside contractors or other bodies.
TOTAL COST	The total cost of a service includes all revenue expenditure (see above) and support services, overheads and capital charges.
TRADING UNDERTAKING	A workforce employed by the authority to carry out work in competition with the private sector. These were formerly called Direct Service Organisations (DSOs) or Direct Labour Organisations (DLOs).
TRUST FUNDS	Funds administered by the Authority for such purposes as prizes, charities and special projects.
UNUSABLE RESERVES	Those that cannot be applied to fund expenditure or reduce local taxation as they are required for statutory purposes.
USABLE RESERVES	Those that can be applied to fund expenditure or reduce local taxation.

Annual Governance Statement 2015/16

1. Scope of responsibility

1.1 Dorset County Council is responsible for ensuring that its business is conducted in accordance with the law and appropriate standards, that public money is safeguarded and properly accounted for and that funding is used economically, efficiently and effectively. Dorset County Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

1.2 In discharging this overall responsibility Dorset County Council is responsible for putting in place suitable arrangements for the governance of its affairs, which facilitate the effective exercise of its functions and include arrangements for the management of risk.

1.3 Dorset County Council has approved and adopted a code of corporate governance, which is consistent with the principles of the CIPFA/SOLACE *Delivering Good Governance in Local Government* framework. These include the additional requirements as recommended by CIPFA in March 2010. A report on the code and the latest assessment of compliance with it was published with the Audit and Governance Committee papers for 8 June 2016 or can be obtained from the County Council Offices, County Hall, Colliton Park, Dorchester, Dorset, DT1 1XJ. This statement explains how Dorset County Council has complied with the code. It also meets the requirements of the Accounts and Audit Regulations (England) 2015 in relation to consideration of the findings of a review of the system of internal control and approval and publication of an annual governance statement.

2. The purpose of the governance framework

2.1 The governance framework comprises the systems and processes, and culture and values, by which the authority is directed and controlled, together with the activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

2.2 The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to meet the targets in our policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of Dorset County Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

2.3 The governance framework has been in place at Dorset County Council for the year ended 31 March 2016 and up to the date of approval of the annual statement of accounts.

3. The governance framework

3.1 Some of the key features of the governance framework are set out in the following paragraphs.

3.2 The corporate plan sets out the contribution we will make to enabling communities in working together for a successful Dorset.

3.3 Delivery of the County Council's corporate plan is supported by service plans, team plans and individual performance development reviews. These all include targets and, where appropriate, service standards against which service quality and improvement can be judged.

3.4 The Constitution of Dorset County Council establishes the roles and responsibilities for members of the executive (the Cabinet), Overview, Scrutiny, Regulatory and Standards Committees, together with officer functions. It includes details of delegation arrangements, codes of conduct and protocols for member/officer relations. The Constitution is kept under review to ensure that it continues to be fit for purpose. Proposed changes to the Constitution are overseen by the Standards and Governance Committee (and under the revised arrangements from 2016 will pass to the Audit and Governance Committee). Its views on the suitability of any changes are reported when they are presented to the full County Council for approval.

3.5 The Constitution also contains procedure rules, standing orders and financial regulations that define clearly how decisions are taken and where authority lies for decisions. The statutory roles of Head of Paid Service, Monitoring Officer and Chief Financial Officer are described together with their contributions to provide robust assurance on governance and that expenditure is lawful and in line with approved budgets and procedures. The influence and oversight exerted by these posts is backed by the post-holders' membership of or attendance at the Corporate Leadership Team.

3.6 The primary counterbalance to the Cabinet is the Audit and Scrutiny Committee (and under the revised arrangements from 2016 will pass to the Audit and Governance Committee). The Committee provides a robust challenge to the Executive. The Committee did not identify a need to exercise its 'call in' or call to account powers during 2015/16.

3.7 The County Council has reviewed the placement of its scrutiny function and has approved changes to its Committee structures, including separating out of 'audit' and 'scrutiny' functions. The future committee structure will be based on the outcomes defined in the Corporate Plan with Overview and Scrutiny Committees for Economic Growth, People and Communities and Safeguarding, with each of them having responsibility for monitoring a number of specified objectives within it. The Dorset Health Scrutiny Committee also continues in its role.

3.8 A complaints procedure and a whistle-blowing policy and procedure are maintained and kept under review, providing the opportunity for members of the public and staff to raise issues when they believe that appropriate standards have not been met. An annual report analysing complaints received and their resolution is presented to the Audit and Scrutiny Committee and the Standards and Governance Committee. The Standards and Governance Committee has responsibility for overseeing the investigation of complaints against members.

3.9 The County Council has a strong risk management function. The risk management policy and strategy are reviewed annually. The Risk Management Group draws together lead officers from across the authority to ensure that issues and concerns are shared and that a consistent approach is adopted throughout the organisation. Those risks contained in the councils Corporate Risk Register which have been assessed as high have informed the list of significant governance issues later in this statement.

3.10 Appraisal and review processes are the general means of identifying the training needs of members and officers. Appropriate training is made available to staff to ensure that individuals are able to undertake their present role effectively and that they have the opportunity to develop to meet their and the County Council's needs. An extensive member induction programme is put in place after the County Council elections to ensure that newly elected members can quickly make an effective contribution to the work of the authority. Focussed training will support the new committee arrangements in 2016.

3.11 The County Council is committed to partnership working. The Dorset Compact sets out a framework for voluntary and public sector relationships in Dorset. Guidance on best practice in partnership governance, together with the development of an alternative service delivery model governance and due diligence checklist that has been adopted to ensure that partnership arrangements are as productive and secure as possible.

4. Review of effectiveness

4.1 Dorset County Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the managers within the authority who have responsibility for the development and maintenance of the governance environment, the Head of Internal Audit's annual report, and also by the findings and reports issued by the external auditors and other review agencies and inspectorates.

4.2 The Chief Executive has responsibility for:

- overseeing the implementation and monitoring the operation of the Code of Corporate Governance;
- maintaining and updating the Code in the light of latest guidance on best practice;
- reporting annually to the Corporate Leadership Team and to Members on compliance with the Code and any changes that may be necessary to maintain it and ensure its effectiveness in practice.

4.3 The Chief Financial Officer has responsibility for the proper administration of the County Council's financial affairs. This includes responsibility for maintaining and reviewing Financial Regulations to ensure they remain fit for purpose, and submitting any additions or changes necessary to the full Council for approval. The Chief Financial Officer is also responsible for reporting, where appropriate, breaches of the Regulations to the Cabinet and/or the County Council.

4.4 The statutory role of Monitoring Officer is held by the Head of Legal and Democratic Services. The Monitoring Officer is responsible for ensuring that the Council acts within and through the law. Parallel to the responsibilities of the Chief Financial Officer the Monitoring Officer has a duty to report to the Cabinet where it appears to him that any action or intended action by the Council is unlawful or amounts to maladministration. The Monitoring Officer also has responsibilities in relation to the Council's constitution and in relation to councillor conduct.

4.5 Dorset County Council's Internal Audit Service, via a specific responsibility assigned to the Head of Internal Audit (the Group Manager, Governance and Assurance), is required to provide an annual independent and objective opinion to the Authority on its risk management, governance and control environment. Since April 2010, internal audit work has been carried out under contract by the South West Audit Partnership (SWAP).

4.6 The review of compliance with the governance framework has involved:

- review of the latest position on the core principles by lead officers, including cross-challenge by other leads;
- an assessment of the draft compliance assessment and significant governance issues by Corporate Leadership Team;
- review of the draft compliance assessment and Annual Governance Statement by the Audit and Governance Committee and the Cabinet;

4.7 Plans to address weaknesses and ensure continuous improvement of the system are recorded in the annual compliance assessment.

5. Significant governance issues

5.1 Governance issues can be put into two groups:

(i) elements of the governance framework for which the compliance assessment has identified that some improvement is necessary to provide full assurance;

(ii) issues that the governance framework has identified and which require action to mitigate the exposure of the County Council.

5.2 In the first group, there were no elements of the framework for which the judgement is that the County Council is non-compliant. There are however six areas where a judgement of partial compliance has been identified and where improvement is considered necessary.

5.3 Actions needed to achieve full compliance are largely covered by existing improvement plans. The issues and actions can be summarised as follows:
(NB: - Further detail is provided against the respective core principles in the compliance assessment. References have been provided at the start of each area for ease of reference):

1g. Decide how value for money is to be measured and make sure that the authority or partnership has the information needed to review value for money and performance effectively. Agreed Action:- A new performance management framework using Outcomes Based Accountability is currently being developed to underpin and monitor the Corporate Plan. This will be used for quarterly performance monitoring and will be regularly reviewed by Cabinet, Audit and Governance Committee and the Overview and Scrutiny Committees. The pilot work undertaken within Childrens Services should be rolled out more fully across the Authority. Value for money assessment will feature as a strand of internal audit reports.
2j. Ensure that effective mechanisms exist to monitor service delivery. Agreed Action:- A new approach to performance monitoring of the Corporate Plan is being developed. This will enable more effective monitoring of service delivery outcomes, including widening out the obsessions tracker for monitoring effective service delivery that is being piloted within Childrens Services. The new Committee Structure will become operative early 2016. The Audit and Scrutiny functions are separated and the future committee structure should be based on the Corporate Plan with Overview and Scrutiny Committees for Economic Growth, People and Communities and Safeguarding, with each of them having responsibility for monitoring a number of specified corporate outcomes. The changes are to be reviewed for effectiveness. Risks identified during implementation will be regularly reviewed and responded to.
5d. Develop skills on a continuing basis to improve performance, including the ability to scrutinise and challenge and to recognise when outside expert advice is needed. Agreed Action:- The review of overview and scrutiny arrangements in the council has identified the need for very specific training and skills development as part of implementing new arrangements. The people plan sets out how we will be working differently to help achieve our vision of 'working together for a strong and successful Dorset'
7b. Ensure that the authority maintains a prudential financial framework; keeps its commitments in balance with available resources; monitors income and expenditure levels to ensure that this balance is maintained and takes corrective action when necessary

Agreed Action:- Rollout of outcomes based accountability will improve accountability of budget managers. However this will need to be supported by executive functions exercising "call to account" to challenge any areas of overspend
7i. Ensure that appropriate management accounting systems, functions and controls are in place so that finances are kept under regular review. Agreed Action:- Enable more effective engagement for DES and other systems development with the business through the proposed new Corporate Working Group structure. Consider rolling out model adopted by Environment & Economy wider across Council services.
7o. Ensure the provision of clear, well presented, timely, complete and accurate information and reports to budget managers and senior officers on the budgetary and financial performance of the authority. Agreed Action:- Further work is to be undertaken to engage with the business as to whether the reports provided meet all of their needs. Consider rolling out model adopted by Environment & Economy wider across Council services.

5.4 The second group are issues that represent a significant risk to the County Council and, as such, are assessed as high risks on the Corporate Risk Register in accordance with the councils approved risk criteria.

5.5 A prime purpose of the governance framework is to minimise the occurrence of such risks and ensure that any which do arise are highlighted so that appropriate mitigating action can be taken. These issues are largely substantial challenges to be managed over the long term. A summary of theses 'significant' issues are outlined below, together with the council's response and actions to deal with these issues:

Corporate Risk	Causes	Council Response
01) Inadequate finance to meet legislative, political and public expectations	Overspend to the Adult & Community Services Directorate Budget and meet the structural deficit	Pathways to Independence Programme includes a transformation of the whole Directorate which will increase independence and reduce the need for long term Adult Social Care; this includes review of the whole system, and a focus on early help and prevention while meeting the requirements of the Care Act
	Failure to achieve Better Care targets across the Dorset public / community sector	There is a significant risk that the agreed plans do not achieve the savings in line with local government funding reductions. Performance on admissions and delayed transfer of care continues to be challenging, which will impact on performance related funding. Performance indicators are largely based on health performance and therefore whilst the local authority can influence this risk, it cannot control it.
	Failure to ensure that learning disability services are sustainable and cost-effective	Ongoing management focus on this area of overspend. Work commenced in 2015/16 to look at transition planning between children and adults. Further work is also under way on developing new models of care for supported living for people with disability.

Corporate Risk	Causes	Council Response
	General balances are depleted to a level below operating range	The current year's anticipated overspend will reduce the general balances to a level just above the lower end of the operating range. Should we fall below the lower end (£10m) it would be raised as a matter for concern by our auditors, KPMG.
	Ineffective and / or non-compliant financial management	Accountants are integrating better into services to enable early identification and effective escalation. A successful series of budget management training sessions have been delivered to services to raise awareness. DES training is also being widely rolled-out and we are currently consulting on our restructure project following a budget holder survey.
	Additional savings cannot be identified to bridge the unfunded gap	The largest risk to the programme currently is that even with the identified major transformation programmes there remains a need to deliver a substantial savings target from the years 2016/17 onwards. This will be responded to via the 2020 masterplan.
	Failure to have in place an equal and legally compliant pay & grading structure	A paper was taken to the Staffing Committee in July 2015 to determine the options associated with undertaking an equal pay audit and the associated resource implications. It was agreed by the committee that the review would be postponed until April 2017 at the earliest.
02) Failure to protect the vulnerable children and young people from abuse or neglect in situations that could have been predicted and prevented	Failure to manage the demands led budget for children in care	The Children's Services Leadership Team continue to monitor performance and impact of budget reductions. South West Audit Partnership undertook a review of high cost areas of provision, including monitoring the pathways of individual cases. A task and finish "Prevention & Partnership Strategy Group" has been established to respond to the action plan from this review. Consultation on restructuring commenced early 2016, including a renewed focus on prevention within the Care and Support Team.
04) Failure to ensure the health and wellbeing of staff, service users and the public	Health and safety risks associated with occupation of premises	The majority of sites now have a nominated Premises Responsible Person. However, restructuring of services has reduced the understanding of the Directorate Duty Holder Strategy. The strategy will be ratified.

Corporate Risk	Causes	Council Response
05) Inability of the Council or a key partner to effectively respond to an incident or event	Loss of ICT service or data through a cyber attack	Other national incidents identify local authorities as a target. The Council has a ICT Continuity Management Group that maintains and manages a specific risk register.
07) Failure to sustain effective relationships across key partnerships	Failure to sustain an effective relationship across the Dorset Waste Partnership	Internal Interim Director appointed. Action Plan largely complete and the final three (of 37 items) are being progressed as separate projects. Progress continues to be reported to Joint Committee at each meeting and SWAP (South West Audit Partnership) are reviewing relevant actions as part of their annual Audit Plan.
09) Inadequate infrastructure to meet Council priorities	Inability to maintain the highways infrastructure to an acceptable standard in the face of changing circumstances (eg budget reductions; climate change)	The highway maintenance block allocation increased by 15 % from 2015/16. Further annual business cases will be produced for additional capital investment in highway maintenance.
	Unable to provide sufficient school places (Basic Need)	Programme of delivery of Basic Need Schools in accordance with agreed timescales/costs is being monitored through relevant groups. Whilst the framework has been agreed, we are developing a clear strategy around sufficient school places, which will need to be signed up to by members and partners.
10) Failure to deliver service transformation and necessary savings through the Forward Together programme	Projects do not take a consistent business-like approach to calculating benefits leading to inconsistent assessments, unrealistic savings targets and the need to find additional savings	The masterplan and commissioning model will respond to concerns raised over benefits realisation and adequate baseline measures as part of the business case. Guidance and tools are incorporated within the supporting project management toolkit.

Corporate Risk	Causes	Council Response
	Capacity of staff to deliver transformation programme as well as maintain focus on day to day business (including across support services)	The Chief Executives Department was restructured during 2015 and included addressing capacity to support projects. A prioritisation tool has been developed by the programme office. Savings targets are being rebased, which may result in a readjustment of programme priorities.
	Failure to address cultural issues that may impact on the success of the transformation programme	Work is ongoing to communicate the Forward Together message. A further staff survey is planned June/July.
	Unable to achieve service transformation and savings across DCC support services	The key risks which are driving this assessment are the financial and reputational risks. The main risks are non-delivery of financial savings and service improvements (both in the support services and in other parts of the Council) due to insufficient capacity and skills shortages in the support services. The reputational risk is that if savings are made without addressing the fundamental issues identified in the strategic outline case, the service delivery will be impacted which will have an impact on customers both internal and external
12) Failure to develop services based on evidence and need	Inadequate assessment of the long term impacts/risks (threats/opportunities) of proposals	Modelling of future demand to clearly highlight pressure points.
13) Inadequate ICT infrastructure to meet corporate service priorities	Current technology within DCC is insufficient and / or inflexible to meet the anticipated needs of the transformation programme (on a technical or contractual basis)	The Smarter Computing programme has been re-planned, to reflect the issues encountered with the performance of the underlying platform, issues encountered with key business software such as RAISE (Children's social care system) and the supply of Surface Pro 3 tablet devices. Smarter Computing is now deployed across most service areas with a plan to complete desktop deployment in July 2016 and Surface Pro 4 mobile device deployment planned to be complete in September. We are changing the way we deliver core services (WAN, telephony, email, calendar, document sharing and collaboration) which will introduce greater flexibility to collaborate, share and access information with colleagues and partners and improving our service continuity capabilities.

Corporate Risk	Causes	Council Response
14) Failure to develop, recruit or retain suitably competent/ qualified staff compromises service Delivery	Inability to attract and retain suitably qualified specialist safeguarding staff within Childrens Services	Work is underway with Bournemouth University to deliver a programme for social work/children's services
17) Failure to implement a local government structure to deliver the best possible outcomes for Dorset residents	Lack of agreement across partner organisations	Discussions are ongoing at Leader/Chief Executive meetings. A full risk register is in development.

5.6 We are satisfied that this statement provides a substantial level of assurance that good governance is in place in Dorset County Council and that appropriate arrangements are in place to address improvements identified in our review of compliance. Progress on these improvements and on addressing and mitigating the risks set out in section 5.5 will be monitored through the year by senior officers and the Audit and Governance Committee.

a true partnership approach

Contents

1. Introduction

We have been instructed by Dorset County Council, the administering authority to the Dorset County Pension Fund (the Fund), to undertake pension expense calculations in respect of pension benefits provided by the Local Government Pension Scheme (the LGPS) to members of the Fund as at 31 March 2016.

This report is addressed to the administering authority and its advisers; in particular, this report is likely to be of relevance to the Fund's auditor.

These figures are prepared in accordance with our understanding of IAS26. In calculating the disclosed numbers we have adopted methods and assumptions that are consistent with IAS19.

This advice complies with all Generic Technical Actuarial Standards (TASs) and the Pensions TAS.

The LGPS is a defined benefit statutory scheme administered in accordance with the Local Government Pension Scheme Regulations 2013, is contracted out of the State Second Pension until 6 April 2016 and currently provides benefits based on career average revalued salary and length of service on retirement.

2. Valuation data

Data sources

In completing our calculations for pension accounting purposes we have used the following items of data, which we received from Dorset County Council:

- The results of the valuation as at 31 March 2013 which was carried out for funding purposes;
- Estimated whole Fund income and expenditure items for the period to 31 March 2016;
- •Estimated Fund returns based on Fund asset statements provided (or estimated where necessary) as at 31 March 2016 and
- Details of any new early retirements for the period to 31 March 2016 that have been paid out on an unreduced basis, which are not anticipated in the normal employer service cost.

Although some of these data items have been estimated, we do not believe that they are likely to have a material effect on the results of this report. Further, we are not aware of any material changes or events since we received the data.

Employer membership statistics

The table below summarises the membership data, as at 31 March 2013, the date of the last full valuation

Member data summary	Number	Salaries/Pensions £000s	Average age
Actives	23,369	382,852	46
Deferred pensioners	24,453	25,809	45
Pensioners	16,745	75,667	71

Early retirements

We requested data on any early retirements in respect of the Employer from the administering authority for the year ending 31 March 2016.

We have been notified of 125 new early retirements during the year which were not allowed for at the previous accounting date. The total annual pension that came into payment was £968,900.

Assets

The return on the Fund (on a bid value to bid value basis) for the year to 31 March 2016 is estimated to be 0%. The actual return on Fund assets over the year may be different.

The estimated asset allocation for Dorset County Pension Fund as at 31 March 2016 is as follows:

Employer asset share - bid value	31 Mar 2016		31 Mar 2015	
	£000s	%	£000s	%
Equities	1,275,200	56%	1,311,425	57%
Gilts	237,991	11%	276,460	12%
Cash	82,409	4%	51,569	2%
Other Bonds	286,117	13%	286,133	12%
Diversified Growth Fund	107,588	5%	111,640	5%
Property	246,330	11%	228,774	10%
Infrastructure	29,030	1%	26,757	1%
Hedge Fund	1,781	0%	4,817	0%
Total	**2,266,446**	**100%**	**2,301,085**	**100%**

We have estimated the bid values where necessary. The final asset allocation of the Fund assets as at 31 March 2016 is likely to be different from that shown due to estimation techniques.

Unfunded benefits

We have excluded any unfunded benefits as these are liabilities of employers rather than the Fund.

Barnett Waddingham
a true partnership approach

3. Actuarial methods and assumptions

Valuation approach

To assess the value of the Fund's liabilities at 31 March 2016, we have rolled forward the value of Fund's liabilities calculated for the funding valuation as at 31 March 2013, using financial assumptions that comply with IAS19.

The full actuarial valuation involved projecting future cashflows to be paid from the Fund and placing a value on them. These cashflows include pensions currently being paid to members of the Fund as well as pensions (and lump sums) that may be payable in future to members of the Fund or their dependants. These pensions are linked to inflation and will normally be payable on retirement for the life of the member or a dependant following a member's death.

It is not possible to assess the accuracy of the estimated liability as at 31 March 2016 without completing a full valuation. However, we are satisfied that the approach of rolling forward the previous valuation data to 31 March 2016 should not introduce any material distortions in the results provided that the actual experience of the Fund has been broadly in line with the underlying assumptions, and that the structure of the liabilities is substantially the same as at the latest formal valuation. From the information we have received there appears to be no evidence that this approach is inappropriate.

Demographic/Statistical assumptions

We have adopted a set of demographic assumptions that are consistent with those used for the most recent Fund valuation, which was carried out as at 31 March 2013. The post retirement mortality tables adopted are the S1PA tables. These base tables are then projected using the CMI 2012 Model, allowing for a long-term rate of improvement of 1.5% p.a.

The assumed life expectations from age 65 are:

Life expectancy from age 65 (years)		31 Mar 2016	31 Mar 2015
Retiring today			
	Males	22.9	22.8
	Females	25.3	25.2
Retiring in 20 years			
	Males	25.2	25.1
	Females	27.7	27.6

We have also assumed that:

- Members will exchange half of their commutable pension for cash at retirement;
- Members will retire at one retirement age for all tranches of benefit, which will be the pension weighted average tranche retirement age; and
- 10% of active members will take up the option under the new LGPS to pay 50% of contributions for 50% of benefits.

Financial assumptions

The financial assumptions used to calculate the results in Section 4 and the Appendices are as follows:

Assumptions as at	31 Mar 2016		31 Mar 2015		31 Mar 2014	
	% p.a.	Real	% p.a.	Real	% p.a.	Real
RPI increases	3.3%	-	3.2%	-	3.6%	-
CPI increases	2.4%	-0.9%	2.4%	-0.8%	2.8%	-0.8%
Salary increases	3.9%	0.6%	3.9%	0.7%	4.3%	0.7%
Pension increases	2.4%	-0.9%	2.4%	-0.8%	2.8%	-0.8%
Discount rate	3.7%	0.4%	3.3%	0.1%	4.5%	0.9%

These assumptions are set with reference to market conditions at 31 March 2016.

Our estimate of the duration of the Fund's liabilities is 19 years.

The discount rate is the annualised yield at the 19 year point on the Merrill Lynch AA-rated corporate bond yield curve which has been chosen to meet the requirements of IAS19 and with consideration of the duration of the Fund's liabilities. This is consistent with the approach used at the last accounting date.

The Retail Prices Index (RPI) increase assumption is set based on the difference between conventional gilt yields and index-linked gilt yields at the accounting date using data published by the Bank of England (BoE), specifically the 19 year point on the BoE market implied inflation curve. The RPI assumption is therefore 3.3% p.a. This is consistent with the approach used at the last accounting date.

As future pension increases are expected to be based on the Consumer Prices Index (CPI) rather than RPI, we have made a further assumption about CPI which is that it will be 0.9% p.a. below RPI i.e. 2.4% p.a. This is a slightly higher differential than last year. We believe that this is a reasonable estimate for the future differences in the indices, based on the different calculation methods and recent independent forecasts.

Salaries are assumed to increase at 1.5% p.a. above CPI in addition to a promotional scale.

Curtailments

We have calculated the cost of curtailments arising as a result of the payment of unreduced pensions on early retirement. The Employer may also have to account for non-pension related costs (e.g. lump sum payments on redundancy) but for the avoidance of doubt, we have only calculated the cost of curtailments which affect the Employer's LGPS pension liabilities.

We calculate the cost of curtailments at the point of exit, with interest applied to the accounting date accounted for separately.

Over the year, we understand that 125 former employees became entitled to unreduced early retirement benefits.

4. Results and disclosures

We estimate that the net liability as at 31 March 2016 is a liability of £1,535,637,000.

The results of our calculations for the year ended 31 March 2016 are set out in the appendices below:

- Appendix 1 sets out the Statement of financial position as at 31 March 2016; and
- Appendix 2 details a reconciliation of assets and liabilities during the year.

The figures presented in this report are prepared only for the purposes of IAS19. In particular, they are not relevant for calculations undertaken for funding purposes or for other statutory purposes under UK pensions legislation.

We would be pleased to answer any questions arising from this report.

Appendix 1 Statement of financial position as at 31 March 2016

Net pension asset as at	31 Mar 2016 £000s	31 Mar 2015 £000s	31 Mar 2014 £000s
Present value of the defined benefit obligation	3,802,083	3,904,470	3,246,251
Fair value of Fund assets (bid value)	2,266,446	2,301,085	2,092,439
Net liability in balance sheet	**1,535,637**	**1,603,385**	**1,153,812**

*Present value of funded obligation consists of £3,673,903,000 in respect of vested obligation and £128,180,000 in respect of non-vested obligation.

Appendix 2 Asset and benefit obligation reconciliation for the year to 31 March 2016

Reconciliation of opening & closing balances of the present value of the defined benefit obligation	Year to 31 Mar 2016 £000s	Year to 31 Mar 2015 £000s
Opening defined benefit obligation	**3,904,470**	**3,246,251**
Current service cost	134,427	105,849
Interest cost	127,655	143,352
Change in financial assumptions	(292,671)	530,470
Change in demographic assumptions	-	-
Experience loss/(gain) on defined benefit obligation	-	-
Liabilities assumed / (extinguished) on settlements	-	(54,884)
Estimated benefits paid net of transfers in	(103,315)	(97,408)
Past service costs, including curtailments	4,693	4,507
Contributions by Scheme participants	26,824	26,333
Unfunded pension payments	-	-
Closing defined benefit obligation	**3,802,083**	**3,904,470**

Reconciliation of opening & closing balances of the fair value of Fund assets	Year to 31 Mar 2016 £000s	Year to 31 Mar 2015 £000s
Opening fair value of Fund assets	**2,301,085**	**2,092,439**
Interest on assets	76,002	93,551
Return on assets less interest	(113,056)	142,798
Other actuarial gains/(losses)	-	-
Administration expenses	(1,600)	(1,600)
Contributions by employer including unfunded	80,506	78,998
Contributions by Scheme participants	26,824	26,333
Estimated benefits paid plus unfunded net of transfers in	(103,315)	(97,408)
Settlement prices received / (paid)	-	(34,026)
Closing Fair value of Fund assets	**2,266,446**	**2,301,085**

Appendix 3 Sensitivity Analysis

Sensitivity analysis	£000s	£000s	£000s
Adjustment to discount rate	+0.1%	0.0%	-0.1%
Present value of total obligation	3,732,854	3,802,083	3,872,664
Projected service cost	117,654	120,400	123,213
Adjustment to long term salary increase	+0.1%	0.0%	-0.1%
Present value of total obligation	3,811,073	3,802,083	3,793,150
Projected service cost	120,458	120,400	120,342
Adjustment to pension increases and deferred revaluation	+0.1%	0.0%	-0.1%
Present value of total obligation	3,864,508	3,802,083	3,740,849
Projected service cost	123,189	120,400	117,674
Adjustment to life expectancy assumptions	+1 Year	None	- 1 Year
Present value of total obligation	3,916,240	3,802,083	3,691,358
Projected service cost	123,473	120,400	117,404
