<p>Desc.: I was walking along the east side of Stapehill Road just by Bailiffs Mead facing the traffic when a car came very fast towards me. I could not move to the side as there is a highway ditch there. The car's wing mirror hit my hand as it went past. I estimate the car was travelling around 40mph. This was similar to a similar incident my wife had about a month before and before we knew of the existence of this website. - INFO</p>

Subject: Report a collision/near miss			
Desc.: I saw an overweight and overheight vehicle with no ID on it except it was curtain sided and had a picture of a kitchen towel roll on the curtain. It was travelling southwards at about 30mph . It caught an overhanging branch just outside The Old Stables and it brought debris onto the road. A following car hit the debris and was damaged. 4 cars back was a Police car that took no action but followed the overweight vehicle down the road. The branches now hang far lower, to within 6 feet of the ground (just soft leaves) but the main damaged branch is now much lower. 11:55 I saw a HSS truck (probably also overweight) driving southwards swerve out when he saw the branches into oncoming traffic. 12:25 Stop-Start delivery truck heading north hit the branches and stopped in Keepers Lane entrance to inspect the damage to his vehicle. - INFO

Subject: Report a collision/near miss				
Desc.: Walking along the right hand side of the road, heading south, with two dogs. There is no footpath so you have to walk in the road. At the junction of Stapehill Road and Keepers Lane a vehicle heading north came round the blind bend, saw my wife and swerved out to avoid her, crossed the white line and saw oncoming traffic and swerved back in very narrowly missing my wife. It frightened her. This is a totally blind bend and vehicles come round there at 50-60mph into pedestrians walking in the road as there are no footpaths. This is an accident waiting to happen. - INFO
