#### 1. Guidance

#### Overview

## Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

#### Data needs inputting in the cell

Pre-populated cells

#### Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the

The details of each sheet within the template are outlined below.

#### **Checklist** (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to
- 6. Please ensure that all boxes on the checklist are green before submission.

#### 2. Cover (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to <a href="mailto:england.bettercaresupport@nhs.net">england.bettercaresupport@nhs.net</a>
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

## **4. Strategic Narrative** (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding

## **5. Income** (click to go to sheet)

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

#### 6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

- 1. Scheme ID:
- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
- 2. Scheme Name
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.
- 3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- 5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant 6. Metric Impact
- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the 7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
- 8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside. 9. Provider:
- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

## 10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the 11. Expenditure (£) 2019/20:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines) 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

#### 7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further

#### **8. Metrics** (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and 1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- 4. Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

#### 9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

#### 10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

Version 1.2

Please Note:

- You are reminded that much of the data in this template, to which you have privileged access, is management information only and is not in the public domain. It is not to be shared more widely than is necessary to complete the return.
- Please prevent inappropriate use by treating this information as restricted, refrain from passing information on to others and use it only for the purposes for which it is provided. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content, including such descriptions as "favourable" or "unfavourable".
- Please note that national data for plans is intended for release in aggregate form once plans have been assured, agreed and baselined as per the due process outlined in the BCF Planning Requirements for 2019/20.

  - This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

#### 4. Strategic Narrative

| Selected Health and Wellbeing Board: | Dorset |
|--------------------------------------|--------|

## Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i)

Link to B) (ii) Link to C)

#### A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

Prevention and self-care

- Promoting choice and independence

Remaining Word Limit: 146

\*Jointly agreed plans, establishing new care models to deliver better outcomes and building on our learning so far\*

Joining up health and social care provides opportunities to improve health & wellbeing (tackling health inequalities), improve quality of care and to enhance efficiency and productivity.

These outcomes sit at the heart of our existing Sustainability & Transformation Plan (STP). Our Integrated Care System's (ICS) new long-term plan builds on the STP, strengthening the focus on 'place' to ensure a person-centred and community-based approach to health improvement and care delivery.

Dorset's journey as a first wave integrated care system is seeing real change in how partners work. This is being accompanied by significant structural and organisational change. Local Government reorganisation has led to the creation of two new Unitary Councils from 1st April 2019. Dorset Council and Bournemouth, Christchurch and Poole (BCP) Council. The two Councils match the Dorset CCG's catchment area.

Each Council has established a new Health and Wellbeing Board and each Board has produced new, jointly agreed BCF plans for 19/20 involving a range of partners. The two plans align strategically whilst also responding to local needs, priorities and opportunities. The plans build on previous experience and learning within the health and care system but also seek to capitalise on the opportunities offered by the changes e.g. bringing housing and adult social care together in one directorate in the new Dorset Council. See sections B & C below for more information.

Dorset Health and Wellbeing Board's jointly developed and agreed Better Care Fund Plan 2019/20 sets out our updated operational objectives for joint services for adults, helping to deliver our system's strategic plans.

Examples of how we are using our Better Care Fund to improve outcomes include:

#### Health & wellbeing

-tackling inequalities in health experienced by carers through the provision of support, including short breaks

-promoting and maintaining independence through the provision of community equipment, assistive technology and adaptations to people's homes

#### Quality

-investing in a range of services that enable people to be discharged from hospital in a safe and timely way. This includes skilled reablement at home, ensuring advice for those seeking to make their own arrangements for care following a stay in hospital, working with the voluntary sector to enable low-level practical support as people return home such as making sure the heating is on and that basic groceries are available

-the CCG and Councils working together to further improve the quality of care provided at home and in care homes

#### Efficiency & productivity

-integrated commissioning for services such as the Integrated Community Equipment Service, seeking to squeeze the maximum benefit from our collective investment

-building on the existing jointly commissioned care services for older people and adults with physical disabilities and extending to new shared framework contracts to secure good quality, efficient care for adults with complex learning disabilities

#### B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

Remaining Word Limit:

\*Delivery of our BCF at Health & Wellbeing Board (HWB) level, through localities/Primary Care Networks\*

Implementing our focus on 'place' we are building new Primary Care Networks - general practice coming together, in partnership with community services, social care and other providers of health and social care. The PCNs will provide proactive, personalised and coordinated out of hospital care within geographically defined areas. Networks are forming around natural communities, serving populations of around 30,000 to 50,000. This focus enables us to link better to local community resources and voluntary and community sector organisations.

^ Link back to top

The Dorset HWB ensures the BCF plays a strong role in delivery of our strategic plans at locality/emerging Primary Care Network-level.

\*How our BCF Schemes deliver on priorities and help to meet our challenges\*

Our BCF plan is constructed around 5 themes — Carers, Maximising Independence, Integrated Locality Teams, Home First and Strong and Sustainable Care Markets. The activity within each theme aims to respond to key delivery challenges in our area such as: inequalities in health, ensuring joint assessment practice uses a strengths-based approach to help promote independence and choice, improving health outcomes by reducing emergency admissions to hospital and delayed transfers of care, and finally reducing long-term admissions to residential care and strengthening care markets.

Following review and consideration of impact and value for money, we are maintaining existing BCF schemes, concentrating on consolidating joint service offers and continuing to improve how we work together.

Consolidation is a priority in 19/20 as the new Dorset Council finds it feet and as our previous locality arrangements realign with the new PCNs. The organisational and relationship changes involved in creating the new structures could risk disrupting existing practice and performance in the short-term. Consolidation means we can focus on identifying and taking the opportunities that are offered by the new arrangements. Some of these are highlighted in Section B2 below.

We reviewed our performance metrics for 19/20 and aligned our level of ambition with the approach to consolidation. Given the changes in the Local Authority's arrangements, maintaining good performance on reablement, seeking to stabilise DToC performance and seeking to deliver some improvement in residential admissions was agreed as suitably ambitious yet realistic for the new Council's first year.

\*Joint commissioning for strong and sustainable community care \*

The BCF operationalises much of our joint commissioning activity. Strong and sustainable care markets have been a theme within our BCF plans since 2017. The Council and CCG took the opportunity to add significant additional funds in to the BCF to better influence shared markets.

Although the quality of registered health and social care remains better than the national average in our area, access to care supply to meet demand remains challenging particularly in respect of home care and nursing home capacity.

## (ii) Your approach to integration with wider services (e.g. Housing), this should include:

- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

198

^^ Link back to top

Remaining Word Limit:

\*Integration with Housing and joining up our plans\*

Since 2015 considerable improvements have been made to how older and disabled residents are supported to remain at home safely and independent through integrated plans within BCF. The additional DFG allocation has allowed a greater flexibility to provide more responsive and tailored outcomes for people. This includes the provision of the nationally prescribed DFG, minor adaptations, assistive technology and equipment.

The DFG is administered by the Dorset Accessible Homes Service (DAHS). This Home Improvement Agency (HIA) service was commissioned by DCC in partnership with the five original local housing authorities and Dorset CCG.

The Creation of Dorset Council on 1 April 2019 resulted in the 5 former District Council Housing services merging into 1 single Housing Service. The Housing Service is now part of the new Adults and Housing Directorate in Dorset Council. This change has provided the opportunity to improve communication and joint working across a number of areas including the delivery of DFGs.

The current DAHS contract finishes in 2021. Work is currently being undertaken to identify how the Council can maximise the part that housing adaptations, daily living aids, and assistive technology can play to prevent, delay or reduce hospital admissions through home first/reablement pathways and care home placements or demand for other social care services.

Dorset Council's Building Better Lives Programme is a strategic approach to ensuing there is appropriate and sufficient housing stock across Dorset to address a shortfall in affordable key worker and supported living accommodation. The aim is to maximise independent living and reduce admissions to long-term residential forms of care. This work is aligned with the CCG's estates strategy and our shared long-term plan to ensure that the development of housing solutions is centred around new locality hubs, enabling health and social care services to co-locate and provide care that meets the needs of

\*Integrated Community Equipment Service\*

As part of our BCF plans we continue to commission a pan Dorset Integrated Community Equipment Service through a single pooled budget with contributions from the CCG and both Councils.

\*Working with the Voluntary Sector\*

A wide range of work involving voluntary sector partners is underway as part of our new models of care.

The Council and CCG provide grants to the Council for Voluntary Service (CVS), which operates across the health and wellbeing area, to enable it to provide support and advice to the many voluntary sector organisations across the area. With the formation of the new Council there is the potential to work with the CVS to enhance our procurement services to enable the voluntary sector to be better placed to apply for work and tenders that we might be offering.

# C) System level alignment, for example this may include (but is not limited to): - How the BCF plan and other plans align to the wider integration landscape, such as STP/ICS plans - A brief description of joint governance arrangements for the BCF plan A^ Link back to top Remaining Word Limit: 556

\*Aligning our strategy and plans and tackling inequalities in health\*

As noted in Section A, our Integrated Care System's new long-term plan builds on the existing STP, strengthening the focus on 'place' to ensure a person-centred and community-based approach to health improvement and care delivery. In summary:

- •This plan sets out the system's aspiration which is for everyone to start well, live well and age well no matter where they live or what their circumstances.
- •it reflects a life-course approach, focussing on wider factors that affect people's lives, so that people have brighter futures, living in communities which are safe, secure and people are engaged, and our local planning policies encourage people to be more physically active, make healthier choices through creating sustainable environments.
- •it responds to variances in care provision with enhanced quality monitoring of commissioned services across health and social care, with the health and wellbeing area having a higher than the England average proportion of CQC rated good and outstanding health and social care provision.
- •it is also responsive to the increasing pressure on resources and ways of managing increasing demand and complexity of health conditions within health and social care in order maximise self-management and capitalise on community-based resources. It considers the workforce challenge and shortages in key roles and skills.

For 2019/20, Dorset has developed its second Dorset Integrated Care System Operating Plan that provides the vehicle for delivering the STP. This plan sets out the priority for integrated services and draws upon the success of the BCF in delivering this to date.

The Better Care Fund 19/20 aligns with the ICS Operating Plan 19/20 and provides the Health and Wellbeing area's annual operational plan for joint delivery for adults.

The content of the BCF aligns well with new structural developments such as the Primary Care Networks.

As noted above, Local Government reorganisation created two new Unitary Authorities from 1st April 2019 replacing all the previous Unitary, County and District Councils in wider Dorset.

The new Councils are active partners in the production of the new long-term plan for the ICS.

The Councils are still working on their new Corporate Plans and Health and Wellbeing Strategies. The timetable for these has not matched the BCF planning process this year.

This BCF plan currently aligns to the Health and Wellbeing strategy for the former Dorset County Council area. This Strategy is being updated based on the new health and wellbeing area. Linked to this work, the Joint Strategic Needs assessment is also being updated to help us better understand need

| Enablers for Integration                               | Schemes that build and develop the enabling foundations of health and    |  |
|--|--|--|
|  | social care integration encompassing a wide range of potential areas     |  |
|  | including technology, workforce, market development (Voluntary           |  |
|  | Sector Business Development: Funding the business development and        |  |
|  | preparedness of local voluntary sector into provider Alliances/          |  |
|  | Collaboratives) and programme management related schemes. Joint          |  |
|  | commissioning infrastructure includes any personnel or teams that        |  |
|  | enable joint commissioning. Schemes could be focused on Data             |  |
|  | Integration, System IT Interoperability, Programme management,           |  |
|  | Research and evaluation, Supporting the Care Market, Workforce           |  |
|  | development, Community asset mapping, New governance                     |  |
|  | arrangements, Voluntary Sector Development, Employment services,         |  |
|  | Joint commissioning infrastructure amongst others.                       |  |
|  |  |  |
|  |  |  |
| High Impact Change Model for Managing Transfer of Care | The eight changes or approaches identified as having a high impact on    | Chg 1. Early Discharge Planning                        |
|  | supporting timely and effective discharge through joint working across   | Chg 2. Systems to Monitor Patient Flow                 |
|  | the social and health system. The Hospital to Home Transfer Protocol or  | Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams |
|  | the 'Red Bag' scheme, while not in the HICM as such, is included in this | Chg 4. Home First / Discharge to Access                |
|  | section.   | Chg 5. Seven-Day Services                              |
|  |  | Chg 6. Trusted Assessors                               |
|  |  | Chg 7. Focus on Choice                                 |
|  |  | Chg 8. Enhancing Health in Care Homes                  |
|  |  | Other - 'Red Bag' scheme                               |
|  |  | Other approaches                                       |
| Home Care or Domiciliary Care                          | A range of services that aim to help people live in their own homes      |  |
|  | through the provision of domiciliary care including personal care,       |  |
|  | domestic tasks, shopping, home maintenance and social activities.        |  |
|  | Home care can link with other services in the community, such as         |  |
|  | supported housing, community health services and voluntary sector        |  |
|  | services.  |  |
| Housing Related Schemes                                | This covers expenditure on housing and housing-related services other    |  |
|  | than adaptations; eg: supported housing units.                           |  |

| Integrated Care Planning and Navigation | Care navigation services help people find their way to appropriate   | Care Coordination                    |
|---|--|--------------------------------------|
| 0.000                                   | services and support and consequently support self-management. Also,   | Single Point of Access               |
|   | the assistance offered to people in navigating through the complex   | Care Planning, Assessment and Review |
|   | health and social care systems (across primary care, community and   | Other                                |
|   | voluntary services and social care) to overcome barriers in accessing the  |                                      |
|   | most appropriate care and support. Multi-agency teams typically  |                                      |
|   | provide these services which can be online or face to face care  |                                      |
|   | navigators for frail elderly, or dementia navigators etc. This includes  |                                      |
|   | approaches like Single Point of Access (SPoA) and linking people to community assets.  |                                      |
|   | Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of |                                      |
|   | care needs and develop integrated care plans typically carried out by  |                                      |
|   | professionals as part of a multi-disciplinary, multi-agency teams.   |                                      |
|   | Note: For Multi-Disciplinary Discharge Teams and the HICM for  |                                      |
|   | managing discharges, please select HICM as scheme type and the   |                                      |
|   | relevant sub-type. Where the planned unit of care delivery and funding   |                                      |
|   | is in the form of Integrated care packages and needs to be expressed in  |                                      |
|   | such a manner, please select the appropriate sub-type alongside.   |                                      |
|   |  |                                      |
| ntermediate Care Services               | Short-term intervention to preserve the independence of people who   | Bed Based - Step Up/Down             |
|   | might otherwise face unnecessarily prolonged hospital stays or   | Rapid / Crisis Response              |
|   | avoidable admission to hospital or residential care. The care is person-   | Reablement/Rehabilitation Services   |
|   | centred and often delivered by a combination of professional groups.   | Other                                |
|   | Four service models of intermediate care are: bed-based intermediate   |                                      |
|   | care, crisis or rapid response (including falls), home-based intermediate  |                                      |
|   | care, and reablement or rehabilitation. Home-based intermediate care   |                                      |
|   | is covered in Scheme-A and the other three models are available on the   |                                      |
|   | sub-types.   |                                      |
|   |  |                                      |

| Personalised Budgeting and Commissioning | Various person centred approaches to commissioning and budgeting.           | Personal Health Budgets               |
|--|---|---------------------------------------|
|  |   | Integrated Personalised Commissioning |
|  |   | Direct Payments                       |
|  |   | Other                                 |
| Personalised Care at Home                | Schemes specifically designed to ensure that a person can continue to       |                                       |
|  | live at home, through the provision of health related support at home       |                                       |
|  | often complemented with support for home care needs or mental               |                                       |
|  | health needs. This could include promoting self-management/expert           |                                       |
|  | patient, establishment of 'home ward' for intensive period or to deliver    |                                       |
|  | support over the longer term to maintain independence or offer end of       |                                       |
|  | life care for people. Intermediate care services provide shorter term       |                                       |
|  | support and care interventions as opposed to the ongoing support            |                                       |
|  | provided in this scheme type.   |                                       |
|  |   |                                       |
| Prevention / Early Intervention          |   | Social Prescribing                    |
|  | Services or schemes where the population or identified high-risk groups     | Risk Stratification                   |
|  | are empowered and activated to live well in the holistic sense thereby      | Choice Policy                         |
|  | helping prevent people from entering the care system in the first place.    | Other                                 |
|  | These are essentially upstream prevention initiatives to promote            |                                       |
|  | independence and well being.  |                                       |
| Residential Placements                   | Residential placements provide accommodation for people with                | Supported Living                      |
|  | learning or physical disabilities, mental health difficulties or with sight | Learning Disability                   |
|  | or hearing loss, who need more intensive or specialised support than        | Extra Care                            |
|  | can be provided at home.  | Care Home                             |
|  |   | Nursing Home                          |

7. High Impact Change Model

Selected Health and Wellbeing Board:

| $\Gamma$ | rc 0+ |  |
|----------|-------|--|
|          |       |  |

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

There are a number of workstreams in place that make up the overall plan of delivering the improved management of transfers of care, through the High Impact Change Model (HICM). As noted in B1 of our strategic narrative, consolidation is a priority in 19/20 as the new Dorset Council finds it feet and as our previous locality arrangements realign with the new PCNs. In 19/20 we will consolidate and build on the existing activity to further establish the HICM. Winter pressures funding being incorporated in to annual budget allocations as part of the iBCF has enabled one off schemes to be made permanent and year-round. DTOC performance has improved overall but remains volatile in respect of achieving our target. Our consolidation plans aim to help stabilise performance at target.

Early Discharge Planning- The pan Dorset Integrated Community Services programme of work has been established and work has begun on improving the

|       |   | Please enter current position of maturity | Please enter the<br>maturity level planned<br>to be reached by March<br>2020 | If the planned maturity level for 2019/20 is below established, please state reasons behind that? |
|-------|---|---|--|---|
| Chg 1 | Early discharge planning                            | Established                               | Established  |   |
| Chg 2 | Systems to monitor patient flow                     | Established                               | Established  |   |
| Chg 3 | Multi-disciplinary/Multi-<br>agency discharge teams | Established                               | Mature   |   |
| Chg 4 | Home first / discharge to assess                    | Established                               | Established  |   |

| Chg 8 | Enhancing health in care homes                      | Established                               | Established  |   |

#### 8. Metrics

Selected Health and Wellbeing Board: Dorset

#### 8.1 Non-Elective Admissions

|                 | 19/20 Plan                     | Overview Narrative  |
|-----------------|--------------------------------|---|
|                 |                                | We will be continuing to build on our investment in developing new integrated care    |
| Total number of | Collection of the NEA metric   | models within primary and community care to prevent unnecessary hospital              |
| specific acute  | plans via this template is not | attendances/admissions. One of Dorset's Urgent and Emergency Care priorities this     |
| non-elective    | required as the BCF NEA metric | year is on admission avoidance within Accident and Emergency Departments.             |
| spells per      | plans are based on the NEA CCG |   |
| 100,000         | Operating plans submitted via  | Better Care Fund Schemes such as Early Supported Hospital Discharge, use of the       |
| population      | SDCS.                          | Winter Pressure Grant and the High Impact Change Model will have an impact on the     |
|                 |                                | number of non-elective admissions by having a stronger presence at the hospital front |

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox: ENGLAND.bettercaresupport@nhs.net

## 8.2 Delayed Transfers of Care

|   | 19/20 Plan | Overview Narrative  |   |
|---|------------|---|---|
| Delayed Transfers of Care per day<br>(daily delays) from hospital (aged<br>18+) | 43.1       | There have been continued improvements in system performance against DToC within the Dorset Council area, however, the challenge of managing increasing demand with minimal supply growth especially in the home care market has meant that this has been difficult to maintain at a consistent level. Further development of work under the Sustainable Care Market activity is planned to address this. | Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures. |

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

#### 8.3 Residential Admissions

|  |             | 18/19 Plan | 19/20 Plan | Comments   |
|--|-------------|------------|------------|--|
| Long-term support needs of older people (age 65 and over) met by | Annual Rate | 580        |            | * Please note that for 18/19 the numerator was 625 and denominator 123,644, not the 107,816 in cell E24,     |
| admission to residential and nursing care homes, per 100,000     | Numerator   | 625        |            | therefore the target was 505.5 not 580. The numerator in cell F27 has been adjusted to arrive at 550 target. |
| population   | Denominator | 107,816    | 109,600    | Last year's target for Dorset was 505 which was not  |

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

## 8.4 Reablement

|   |             | 18/19 Plan | 19/20 Plan | Comments   |
|---|-------------|------------|------------|--|
| Proportion of older people (65 and  | Annual (%)  | 80.0%      |            | Last year Dorset achieved the reablement target of 80%, in fact achieving 84.4% which is similar to the previous |
| over) who were still at home 91<br>days after discharge from hospital<br>into reablement / rehabilitation | Numerator   | 960        |            | year. For 2019/20 84% has been set as the local target which is above both the regional and national average.    |
| services  | Denominator | 1,200      | 1200       | Significant work is being undertaken with the provider   |

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

#### 9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Dorset

|   |      | Planning Requirement  | Key considerations for meeting the planning requirement   | Please confirm   | Please note any supporting   | Where the Planning  | Where the Planning   |
|---|------|---|---|--|--|---|--|
|   |      |   | These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)  | whether your<br>BCF plan meets<br>the Planning<br>Requirement? | documents referred to and relevant page numbers to assist the assurers | requirement is not met,<br>please note the actions in<br>place towards meeting the<br>requirement | requirement is not met,<br>please note the anticipated<br>timeframe for meeting it |
| Theme   | Code |   |   |  |  |   |  |
|   | PR1  | A jointly developed and agreed plan that all parties sign up to   | Has a plan; Jointly developed and agreed between CCG(s) and IA; been submitted?  Has the HWB approved the plan/delegated approval pending its next meeting?  Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan?  Do the governance arrangements described support collaboration and integrated care?  Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?   | Yes  |  |   |  |
| NC1: Jointly agreed plan  | PR2  | A clear narrative for the integration of health and social care   | is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers:  - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care?  - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care?  - A description of how the local BCF plan and other integration plans e.g. STP/ICSS align?  - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing.  Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt? | Yes  |  |   |  |
|   | PR3  | A strategic, joined up plan for DFG spending  | is there confirmation that use of DFG has been agreed with housing authorities?  Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home.  In two tier areas, has:  - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or  - The funding been passed in its entirety to district councils?  | Yes  |  |   |  |
| NC2: Social Care<br>Maintenance   | PR4  | A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution | Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (autovalidated on the planning template)?   | Yes  |  |   |  |
| NC3: NHS commissioned<br>Out of Hospital Services   | PR5  | Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?                              | Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-<br>validated on the planning template)?  | Yes  |  |   |  |
| NC4: Implementation of<br>the High Impact Change<br>Model for Managing<br>Transfers of Care | PR6  | Is there a plan for implementing the<br>High Impact Change Model for<br>managing transfers of care?   | Does the BCF plan demonstrate a continued plan in place for implementing the High impact Change Model for Managing Transfers of Care?  Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?  | Yes  |  |   |  |

| Agreed expenditure plar<br>for all elements of the<br>BCF | PR7 |  | Have the planned schemes been assigned to the metrics they are aiming to make an impact on?  Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter?  Has funding for the following from the CCG contribution been identified for the area?  - Implementation of Care Act duties?  - Funding declated to carer-specific support?  - Reablement? | Yes |  |  |
|---|-----|--|---|-----|--|--|
|   | PR8 | Indication of outputs for specified scheme types   | Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)  | Yes |  |  |
| Metrics   | PR9 | Does the plan set stretching metrics<br>and are there clear and ambitious<br>plans for delivering these? | is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric?  Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metrics ambitions for each of the metrics?  Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements?  Have stretching metrics been agreed locally for:  - Metric 2: Long term admission to residential and nursing care homes  - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement    | Yes |  |  |

## CCG to Health and Well-Being Board Mapping for 2019/20
