Public Health

2019/20 Business Plan Monitoring Report

Contact: Sam Crowe, Director of Public Health **RAG Status**

April 2019 - March 2020 Year:

Public Health Dorset

Trend Status

- ◆ Decrease in performance
- → No change in performance

Reference Reference Key activity/action Prevention at Scale Projects 1. Starting Well 1.1.1 Develop an effective, single 0-5 years offer / Early Help offer		Green - On target Blue - Complete Black - Cancelled White - Not started Performance Measure and Target Senior Responsible Officer Previous RAC Status Complete Frevious RAC Status Officer Larlier identification and consistent intervention(s) for children with speech and language delay. Improvements in School Readiness.			No change in holder large in processing proc	orformance Progress Update	Annual Activity/Activ Outcome
		Successful implementation of the new service specification. Maintain high quality and timely delivery of mandated checks for CYP. Improvement in key PH outcomes for CYP and their families.		→	↑	developments specifically: Digital, Workforce, Intelligence, Operating Models and Communications Plans.	
1.1.2	Embed behaviour change and lifestyle support through LWD digital in maternity care pathways	Reduction in smoking – measure by SATOD Outcomes and measurements agreed. Improved health and wellbeing outcomes for parents and infant(s). Understand and present impact of motivational interviewing training to influence wider workforce development plans.	Jo Wilson	→	↑	Smoking in Pregnancy Lead midwife in post to lead on local Quality Improvement projects including; Baby Clear training, developing Midwifery Support Worker roles, Risk Perception techniques, CO monitoring and NRT for partners	
1.1.3	Monitor and evaluate whole school approaches to health and wellbeing	Children and young people are more physically active. Improve children and young people's emotional and mental health. Make recommendations on Participatory Budgeting for future H&WB programmes. Schools have improved skills to evaluate H&WB projects and impacts.	Jo Wilson	↑	→	Schools implementing WSA projects as per funding agreements. Early success/case studies available. Plans to build scale. Evaluation of the project process being undertaken to understand methodology. Capacity building workshops on evaluation methodology with schools.	
1.1.4	Build community capacity through training to support children and young people THRIVE	Improved confidence in Early Help / schools staff Young people have timely and appropriate access to Counselling, Reduce inappropriate referrals to CAMHS.	Vicky Abbott	↑	→	Over 350 staff have been trained in MHFA Youth. PHD working to secure a sustainable training offer working with a local education provider. Public Health Dorset are leading a task and finish group on counselling services for children and young people. Questionnaire for schools drafted and to be circulated in Nov to understand need and provision.	
1.1.5	Improve childhood immunisations uptake	Reduce variation in childhood immunisations with a focus on MMR 2dose.	Michelle Smith & PHE Screening and Imms team.	→	→	Oct 2019: Updated SRO. Shore Medical Primary Care Network selected MMR as CCLIP area of focus. Working closely with them and PHE to undertand issues that create variation and share good practice to improve rates.	

Red - Serious challenge, remedial action required, out of tolerance

Amber - Some challenges, mitigating action in place, within tolerance

	T.				
1.2.1 Develop and integrate a consistent prevention offer and systematic signposting to LiveWell Dorset from secondary care organisations	, , ,	Stuart Burley/sophia callaghan	→	^	Individuals from secondary care activating LWD pathways has increased by 145% year to date, compared with 2018/19. Interview with high referring dept documented and shared with OAN. LWD begin joined up approach with Active Dorset on system change through MSK care pathway. Allied health professionals (AHP) programme will include refferal pathways to LWD, starting with 4 team cohorts -first contact practitioners (FCP), OT groups, cancer teams, band 7 leads.
1.2.2. Develop and implement co-ordinated health and wellbeing plans within health and care system	To have a single approach across Dorset with organisations signed up to wellbeing plans as a system. To ensure staff from each organisation each part of the system is trained as MECC and MHFA tutors. To establish a sustainable local skills development programme. To ensure each organisation has access to a single wellbeing skills development offer on their intranet for staff including LWD To increase numbers of referrals into skills training and lifestyle coaching services. To increase awareness and access to behaviour change support for lifestyle change. Work with health and care organisations to start to evaluate impact of programmes.	Sophia Callaghan	→	^	system organisations all signed up with plans in place, some have completed plans ans are refreshing for year 2, 24 MECC tutors and 11 MHFA tutors (12 more in january 2020), a few in each system organisation so tutors are at scale, tutors are starting to deliver and MHFA lite has now run in december to enable shorter courses to run, skills network developing and needs further shaping, intranet offer available on each organisation but needs updating by LWD comms, awareness and access numbers increasing to skills training approx 50 engagemnt events across organisations and about 800 staff trained, primary care offer for staff has been designed and will start in january 2020 for south coast, evaluation framework in place further work to engage organisations planned this year in terms of cultural change audits as one example.

1						1000 100 1 101 1110
1.2.3	Work with the ICS to implement coordinated staff	Increase in LiveWell Dorset health and wellbeing training	Sophia Callaghan/			1200 ICS staff have received the LWD
	health and wellbeing provision in organisational	sessions delivered to key health and care workforces.	Stuart Burley			training offer since April 2019. LWD

1.2.7	Work with the private sector to develop and roll-out sustainable health and wellbeing provision to large employers	Increase in people accessing LiveWell Dorset.	Stuart Burley	→	↑	Viable commercial LWD service offers scoped, developed and now delivering to private sector organisations. Consultancy offer being taken up by one firm. Training package is going through RSPH accreditation. Additional offers in development in response to private sector demand including: 'building wellbeing champions in the workplace' and 'developing a wellbeing strategy'.
1.2.8	Embed consistent prevention and behaviour change support in the new NHS Health Check provision	Increase in people accessing LiveWell Dorset following a Health Check.	Stuart Burley/Lydia Turnbull	→	↑	Numbers accessing LWD following a Health check continue to increase with 230 people reporting referral via an NHS health check. A new Health Check contract is in place and uptake remains fairly low during mobilisation. GP NHS HC providers now have Contact My Patient embedded into their SytmOne screen.
	Support the development, roll-out and evaluation of the Dorset Optimal Lung Cancer Pathway pilot	Increase in number of people identified in respiratory clinics and taking up stop-smoking support from LiveWell Dorset. Build evidence of an evaluation of a new pathway.	Stuart Burley/ Lauren Bishop	→	→	Pilot initiated but low numbers of smokers identified has led to limited uptake. Pilot extended to gather insight. Next steering group meeting 3rd February.
1.3. Ageing Well 1.3.1	Implement the plan to promote Active Ageing	Increase in 55-65-year olds registering with LiveWell on a	Rachel Partridge			Good progress has been made in
		Physical Activity pathway (Active Ageing Programme).			↑	recruitment of staff, allocating areas of responsibility for project work across the Active Ageing (AA) staff team. As capacity in the team has increased contacts and development of locality based work have been progressing well, with wellbeing events and other initiatives in the planning stage for 3 locality areas. The AA project officer based at LiveWell Dorset (LWD) has identified some key areas for system change at LWD in the physical activity pathway, and an improvement plan has been created.
1.3.2	Embed lifestyle support in pathway scoping and prioritising potential opportunities as part of transforming outpatients	Increase numbers accessing LiveWell Dorset. Reduce the number of unnecessary outpatient appointments.	Jane Horne			Oct 2019: OP transformation programme submitted 2 bids for transformation funding - potential through intelligent automation to connect LiveWell and lifestle support. Ongoing planning and scoping
1.3.3	Support the implementation of the Dorset ICS Falls Plan	Increase access to activity and nutrition information reducing the risk of falling.	Jane Horne		→	Jan 2020: Two JSNA workshops in November, with systems map and logic model. Continued work on knowldege gaps and research.

1.3.4	<u> </u>	Numbers connecting with LWD as a result of the programme. Anecdotal/story e.g. what has happened in a locality or how connected into LWD.	Jane Horne	→	→	Jan 2020: Contract awarded to current incumbent, mobilisation to meet new specification Jan-Apr. New contract, start date April 2020 includes digital element, will enable younger age group better access, and closer connection with LiveWell Dorset.
1.4. Healthy Places 1.4.1	Build capacity to address inequalities in access to greenspace	Enhance access to greenspace for communities less able to enjoy greenspace. Number and impact of projects delivered.	Rachel Partridge	→	→	Pan Dorset accessible greenspace database and walkable network created in partnership with University of Exeter to identify inequalities in physical access to greenspace. Greenspace accessibility enhancement projects underway with Local Authority Partners. Project reports and outputs due January 2019. Follow up work on key groups and Communities identified to continue into 2019/20.
1.4.2		Number of clients (which includes those accessing other services): advice, referrals to other services, income maximisation, etc). Number of heating/insulation measures installed.	Rachel Partridge/ Jon Bird	→	→	To date, the Healthy Homes programme has delivered the following: Phase 2 (current phase): From January 2017 to September 2019, the service has received 3167 enquiries from 1741 individual clients, of whom 1322 reported a health condition exacerbated by living in a cold home, the majority of which were cardiovascular and respiratory conditions. 333 homes have been improved, and 159 households received a home visit. The current contract is due to finish in March 2020. Disussions are in progress to discuss how to best embed Healthy Homes Dorset for the future.
1.4.3	Implementation of a Pan Dorset air quality network	Influence policy and actions to be taken by Local Authorities.	Rachel Partridge	→	→	The network has been established. The next element of this piece of work is to engage and review the expectations of this network in discussion with Environmental Health Officers from the two Local Authorirties.
1.4.4	Support and promote active travel with Local Authority teams	Improve walking and cycling infrastructure. Increase in the number of individuals walking and cycling.	Rachel Partridge	→	↑	New joint funded officer in post from August 2019 to work on the Cycling and walking infratsrture plans. Particularly focussing on the East Dorset area to connect woth the Transforming Cities funding application. Taken part in a BCP workshop on how to develop the thinking around travel in BCP.

1.4.5	Embed planning for health and wellbeing across spatial planning system	Strengthen connections between health and planning systems and identify priorities for future collaboration. Local planning policy influenced (and its implementation) to promote population health and wellbeing.	Rachel Partridge	→	>	Working with Locality Link Workers on planning applications. Working with the planning teams in BCP and DC on the development of the two new Local Plans.
1.4.6	Support responsible authorities in the licensing process	Ensure that licensing policy and applications consider the health and wellbeing of the local communities.	Rachel Partridge/ Rob Spencer		→	Ongoing work with colleagues from Licensing teams re development of the SOLP and any potential input from PHD into the two new Local Plans. FW attended PMT to explore current thinking around the role of Public Health and licensing October 2019.
1.4.7	Implementation of 'Beat the Street' project in W&P and Poole and Purbeck.	Reduce physical inactivity in adults and children.	Rachel Partridge/Bianca Porter		→	The draft 12 month end of project evaluation report has been received from Intelligent Health in October 2019. Need to identify key lessons learnt and any potential next steps. Need to disseminate the final results with partners via the two Health and Wellbeing Boards.
1.5. Locality Working						
1.5.1	Support commissioned services and PAS projects (Healthy Homes, CHIS, Collaborative practice, Access to natural environments, Active Ageing, Whole school approach and daily mile)	Ensure PAS projects are hitting the ground and reaching scale.	Chris Ricketts/Locality Link Workers	→	→	Support/promotion of PAS projects across localities. Involvement in planning for sustainability of key projects (Collaborative Practices, Health Homes) beyond funded period.
1.5.2	Connect with the Screening and Immunisation team to address variation in uptake	To address priority areas highlighted on locality profile e.g. variation in MMR vaccination rates.	Chris Ricketts/Locality Link Workers/Michelle Smith	→	→	Cross reference 1.1.5 above
1.5.3	Increase awareness of LiveWell services across the locality and supporting the referral pathways	Increase awareness and quality of referrals to LiveWell to address priority areas highlighted by the Locality Profiles e.g. Emergency Hospital Admissions for Heart Disease. Increase the number of referrals into the LWD service. Increase in physical activity service offers.	Chris Ricketts/Locality Link Workers	→	→	Ongoing promotion of the LWD service across PCNs and in localities more generally. Particular focus on 'contact my patient' signposting mechanism.
1.5.4	Ensure health and well-being of populations is actively considered through the planning process	Improve access to healthy and health promoting environments	Chris Ricketts/Locality Link Workers	→	↑	We have developed a systematic approach to providing public health advice on all planning applications of more than 100 dwellings. Further work to do on emerging local plans.
1.5.5	Work with the locality's Population Health Management team to develop better prevention activities around: •Diabetes in Bournemouth East •©OPD in Weymouth •Erailty in North Dorset	Improve health outcomes for the priority areas identified Establish links with key PAS projects, such as LWD.	Chris Ricketts/ Jack Blankley/ Laura Evertt-Coles/ Fiona Johnson	→	→	Wave 1 PHM projects complete. Wave 2 commenced Sep 2019 with 4 PCNs. PHD Locality Link Workers supporting workshops and discussion with PCN Boards re priorities
2. Commissioning and Serv						
2.1. Commissioning Intent						
2.1.1	Mobilisation of the CYP Public Health Service	Ensure the successful transfer and set up of the new service. Ensure planning and the start of the delivery of transformation within the service.	. Jo Wilson	→	↑	CYP PHS Service awarded to Dorset HealthCare contract start date 1st October. Mobilisation plan on track to phasein developments specifically: Digital, Workforce, Intelligence, Operating Models and Communications Plans.

2.1.2	Sexual Health procurement	Ensure an effective, efficient and integrated service is	Sophia Callaghan			July JPHB agreed procurment milestones,	
		implemented.		→	→	moved back to january 2020 start as NHSE have come in as an integrated specification, collaborative agreement signed and agreed, new contract length 4+2 agreed, tender documentation complete and agreed by NHSE, price negotiations have been agreed with DC and NHSE procurment leads. contrct extension request with monitoring officer and letter to DHCFT sent out jan 7th . final tender work now taking place	
2.1.3	Re-design Residential Detox and Residential Rehabilitation Service	Ensure a sustainable solution to reduce cost and manage spend.	Will Haydock	\	\rightarrow	BCP Council have produced a framework that will be used on behalf of both local authorities for detoxification, while Public Health Dorset is developing a model that will be hosted by Dorset Council on behalf of both authorities.	
2.1.4	Review/Re-procurement of the supplier of needle exchange equipment	Ensure a compliant, effective and cost-efficient option is implemented	Will Haydock	→	→	This is being taken forward by BCP Drug and Alcohol Commissioning Team on behalf of the two authorities.	
2.1.5	Refresh Halo System	Ensure an effective data management solution.	Will Haydock	1	→	It is proposed to extend the current arrangement but conduct a full procurement over a full 12 month period.	
2.2. Contract Managemer	nt						
	Health Checks Service	Identify individuals at high risk of developing heart or circulation problems in the next 10 years. Increase in referrals to LWD.	Sophia Callaghan	→	^	New AQP framework in place , higher level management has suppored GP (75) and pharmacy (8) to sign up for health checks, some issues with training and equipmet access has slowed mobilisation, the main pharmacy has now been put onto the framework agreed T&Cs, there were 659 more checks than last year, at Q2 so moving in the right direction. another promotion planned early next year led by comms. link workers working with localities to support addressing any barriers to delivery.	
2.2.2	2 Dorset Integrated Substance Misuse Services, Prescribing and Psychosocial support	Improving engagement rates in Bournemouth (more reach – more people in treatment services) and maintaining performance (successful completion rates) in Dorset and Poole	Will Haydock	→	↑	In response to the risks previously identified due to pressures on resources resulting from an increase in the number of service users, AWP (the provider) has developed a new service model to improve the efficiency of the service, tailoring support based on service users' risks and preferences, allowing those most in need of support to access more frequent contact with staff. This will go fully live in late January and will be monitored and reviewed in the spring.	
2.2.3	Smoke stop service	Increased numbers accessing the service and successfully quitting smoking.	Stuart Burley	→	→	There has been a small drop in the numbers accessing support, though broadly in line with falling smoking prevalence. Quit rates remain very positive in 2019/20 of between 55-60%.	

· ·	rsible Contraception (LARC) Services	Improve access and awareness of EHC services. Numbers receiving EHC. Improve access to LARC services.	Sophia Callaghan			EHC - 120 out of 148 pharmacy signed up = 77% and an increase from last year (114) ,		
		Numbers receiving LARC.		→	→	and 4 GP practices with additional EHC services , no "official" provision in Blandford. full year 2018.19 6022 people supplied with EHC and more activity in areas of higher need LARC provision 18/19 3588 procedures with 1858 LARC procedures in Q1. There are 75 practices (including branch surgeries) contracted to deliver the LARC service. If we are saying there are 90 practices pan-Dorset then 83% sign up		
2.2.5 Needle Excha		sterile equipment. Number of packs issued. Encourage people who inject drugs to return used equipment for safe disposal. Number of returns received.	Will Haydock	→	→	Needle exchange performance and spend is on track and within budget.		
2.2.6 Supervised co		Reduce the risk to local communities of: Overuse or under use of medicines. Diversion of prescribed medicines onto the illicit drugs market. Accidental exposure to the dispensed medication. Prevent abuse or inadvertent overdosing. Provide an accessible service. Provide Service Users with regular contact with healthcare professionals and to help them access further advice or assistance. Number of medicines administered.	Will Haydock	→	→	Due to increasing numbers of people accessing opioid substitution treatment in Bournemouth (a positive and planned development) there is pressure on the budget for supervised consumption. This can be managed for 2019-20 and there are mitigating actions being developed for 2020-21: reviewing supervision requirements and an expected reduction in the number of new entries to treatment as previously unmet demand is resolved.		
2.2.7 CYP Public He		Ensure the provider is deliver the KPI's and outcomes set out in the contract: At least 95% uptake of all mandated and preschool health assessment. NCMP - 100% schools engaged, records updated, and parents contacted. Number of parental referrals to LiveWell. Maintain or reduce mothers who smoke at time of delivery. Increase in smoke free homes. Improved child and parental mental health. Increased children physical activity levels. At least 80% of children who are identified as not having a good level of development at 3-31/2 are ready for school at 4-5 years.	Jo Wilson	→	↑	CYP PHS Service awarded to Dorset HealthCare contract start date 1st October. Mobilisation plan on track to phasein developments specifically: Digital, Workforce, Intelligence, Operating Models and Communications Plans.		

2.2.8	Integrated Sexual Health Service	An effective integrated service working collaboratively across the system. Increase in partner notification. Increase in confidence around sexual health. Increase Chlamydia positive results. Reduce attendance of frequent flyers. Increase new attendances.	Sophia Callaghan	→	↑	Significant progress in joint work and relationship building across providers over the last year with system wide agreements at executive level and change is developing at pace. A single phone line and more interactive website is in place, with better support, information and easy access to services, on line testing is being improved and a pilot tok place for 6 months to gauage activity, and training programmes are running to ensure a quality skill mix for staff. The outreach model is much stronger and more flexible in approach. A hub and spoke model with improved triage has streamlined services to manage capacity of both staff and clinics more effectively and ensures that the needs of patients are met first time, and are efficient with people seeing the right professional first time, single clinical lead in place and dual training increasing, community premises agreed for january move, staff now covering more Dorset wide		
2.2.9	Residential Detox and Residential Rehabilitation Service	Number of service users supported.	Will Haydock	↑	→	Current use of these services is broadly in line with expectations and budgets, in contrast with 2018-19 when residential detoxification was overspent in Bournemouth.		
2.2.10	Weight Management service	Numbers accessing the service and successfully losing 5% of their weight	Stuart Burley	→	↑	Overall increase in numbers accessing service. Success rates at end of intervention have increased from 65% to 70%. Rates of intervention completion have increased from 70% to 75%.		
2.2.11	Health Checks Invitations	Improve invitation dissemination and response.	Susan McAdie	→		Analysis of Q1, 2 and 3 data to understand how indivudals accessing NHS Health Check 'heard about' from submitted data from Providers to occur end of December 2019 with a comms strategy to be developed for next financial		

2.2.12 Collaborative Practice	For 2nd Cohort: Number of practices engaged across B, P and D and participated in leadership programme. Number of practice champions. For 1st Cohort: Above and number of activities set up, number of people engaged, number of results/ outcomes from activities.	Nicky Cleave/ Susan McAdie	→		27 GP practices have completed their Leadership Programme and all but 2 practices have recruited their Practice Health Champions. Contract ceases December 2019 with 2 Communities of Practice supported Jan-Mar 2020. Evaluation report expected March 2020. Practice Health Champions have acknowledged that they wish to connect pan Dorset to share learning, to promote each others groups and to support each other-this will be in the form of a closed Facebook page, local CP networking and pan Dorset CP gathering, Chairs of PHC may meet quarterly to discuss fundraising and common issues.		
2.2.13 Encourage workforce wellbeing in contracts manage	s we To ensure providers are promoting staff well-being and staf are of good emotional and physical health.	f Sophia Callaghan	\	>	Specific wellbeing expectations developed in new sexual health service specification. New terms of reference being developed for all contracts to encourage more focus in all of our providers.		
2.3. Services - LiveWell Dorset							
2.3.1 Increase the scale of behaviour change sup	Increase the number of people accessing behaviour change support to >10k per annum Raise the awareness of the LWD service and help people understand what the service does. Improve awareness of the use of brief intervention within the LWD pathways and upskill professionals/ partners to be able to undertake a brief intervention.		↑	\rightarrow	Year to date (April 1st – January 7th), almost 5.5k individuals have registered with LiveWell Dorset. This remains almost on track to meet the ambitious target of 10,000 for the full financial year.		
2.3.2 Ensure behaviour change support is reachin people in the right communities		Stuart Burley	→	↑	Reach to people in the 20% most deprived communities remains broadly on target at 25% for Q3 and 24% for Q4 so far. Male registrations have increased from 23% to 26% in Q4. There has also been an increase in younger people (18-39) accessing the service, from 33% to 38%.	·	•
2.3.3 Increase the impact of behaviour change su improve outcomes for individuals	pport to Increase in the number of people sustaining positive behaviour change across each pathway: >75% at 3, 6, 12 months	Stuart Burley	↑	¥	As scale increases, it becomes more challenging to successfully follow up with clients (though follow-up rates are equal or better than similar services and a Task & Finish Group is in place to address this). A drop in follow-ups at Q3 makes it harder to report success rates with confidence, though these appear to have dropped to 49%, 61% and 59% at 3, 6 and 12 months respectively (across all pathways combined).		
3. Enabling Services							
3.1. Communications							
3.1.1 Raise the awareness of Public Health within reformed Councils	the newly Ensure members and stakeholders are introduced to and aware of the work of Public Health Dorset.	Kirsty Hillier	→	↑	We took part in member induction sessions and produced material that was shared at events and electonically with all councillors. We have a another induction session in planning stages. We recruited another communications officer who is based 2/3 at BCP Council and existing comms officer is based between Princes House and County Hall.		

To take of mate To ensu evaluati To use of manage - ensu studies - deve - link v process - chall studies studies studies studies - studies - chall studies -	e different projects/services and produce a range cerials. ure projects build in communications and tition at the start. case studies and tell stories from contract gement information ure contract managers identify appropriate case s	Partners are aware of our work and successes. PHD profile is being raised	Kirsty Hillier	→	→	Communications forward plan has been developed and implemented. We have mapped stakeholders across the system but this is an iterative process and constantly changing.
3.1.3 Explore partners	ers	Encourage ownership and use of the 'prevention' role and brand by partners to promote prevention as everybody's business.	Kirsty Hillier	→	→	Prevention at scale has a strong prominence in the next version of the Our Dorset plan. The Our Dorset website is being redevloped to align with the new plan and to cover more prevention activity.
	igns across the department	Raise awareness in Dorset of services and/or key messages around Public Health topics that will improve or protect the populations health.	Kirsty Hillier	↑	↑	Several successful campaigns have been run including Every Mind Matters, Cervical Screening, Tick Awareness, Stoptober, Change for Life 10 minute shake-ups
3.1.5 Continu		Improved profile and presence of Public Health Work with stakeholders and the public.	Kirsty Hillier	→	↑	Our social media following has risen to over 3500 followers on Twitter and over 1100 on Facebook. We are making more use of video and have created several very successful case studies including one used at the recent food poverty conference and another highlighting the benefits and process of having an NHS health check
jargon a	· · · · · · · · · · · · · · · · · · ·	More accessible and receptive correspondences being received by our stakeholders.	Kirsty Hillier	\rightarrow	\rightarrow	Some progress has been made which can be seen in the material being issued to people about NHS health checks. We need to take the same approach with our other services and contracts.
3.1.7 Improve member	ers	Team members feel informed and they have sufficient information to do their job properly! Improved communication between PH projects and locality workers and wider team members. Enabling greater cascade of project information and engagement in the communities and with stakeholders	Kirsty Hillier	→	↑	Recent staff survey results show that internal communications has been improved with a revamp of our internal intranet The Wall and training for the team in appropriate use of emails. We are now developing an internal communications strategy for the service and looking to integrate more with LiveWell Dorset.
3.1.8 Improve		Improve relationships and ensure comms messages are effectively shared across the system.	Kirsty Hillier	↑	^	Communications manager for Public Health Dorset has been seconded to the ICS as a head of communications. This is driving collaboration forwards and making sure comms teams across the system are working together. Next steps is to create a system wide communications forward plan that we can all sign up to and implement as a group.
stakeho	olders (incl. LA and acute trusts) to spread the ness and success of the LiveWell Dorset service	Internal and external partners are aware of LiveWell Dorset's work and successes. LiveWell Dorset profile is being raised and increased confidence and engagement with the service.	Matt Fisher			
.2 Organisational Development		Raise the profile of LiveWell as a brand as well as a service. To enable other relevant PHD work to feature under LiveWell and enable greater awareness and profile.				

	Support cultural change	PHD are leading by example for staff wellbeing and staff feel wellbeing has improved. Business plan annual cycle implemented and working efficiently. Shared on the Wall for all to see. Staff are informed and supported through structure changes. Office areas are being used by teams and providing a conducive environment to the work being carried out.	Barbara O'Reilly	→	1	Significant progres has been made to support chane through activities, engagement and communcations across the team, this will be continuous. KH developed 'one pager' business plan following PMT meetings to ensure no areas of the business pan are missed from people's workplan.
3.2.2	Recruit and retain high quality staff and maximise staff engagement	Staff actively engaged in team meetings and away days. Positive staff feedback regarding engagement events. Improvements made based on staff feedback. Year on year improvements in staff survey results. Improved internal communications, where staff feel they are informed and have access to relevant information to them. LWD accessing and engaged with wider team internal communications		→	→	Improvements are being made which is demonstrated through the Staff Survery results, however, this continues to be work in progress. Internal comms plan is in development with links to PHD and DC themes.
3.2.3	Support staff health and well-being	Improve staff health and wellbeing. Staff feel supported through work to look after their health and well-being. PHD are practising what we preach!	Barbara O'Reilly Barbara O'Reillyy	→	1	Real progress has been made with an increasing range of activities and support on offer. Information is being shared on 'The Wall' to support all staff.
3.2.4	Build leadership and capability	CPD offer delivered and valued and helpful for staff. New CPD needs identified through PDR needs assessment. Improvements in the use of CCC in the team. Handbook and guidance being followed and working effectively and efficiently to meet team needs. Monitoring process of training budget developed and implemented.		→		CPD programme set out for first quarter of 2020, staff actively involved in delivery of sessions to share learning Intranet pages enhanced to make access to learning and development informaiton simpler
	Align individual performance with business and development planning	Staff feel involved and are aware of PHD business strategy/vision. Staff have an annual work plan to include objectives within the PDR process. Meaningful feedback is included in the PDR process and staff value this to take forward. Staff have access to business plan monitoring and outcomes. PH skills are being effectively used	Jo Tibbles Barbara O'Reilly	→	>	This is work in progress, through PDR's and Mid Year Reviews using the Business Plan to be involved and aware of the PHD business strategy and vision. Staff have access to business plan monitoring and outcomes.
3.3 Business Support			Barbara O Kelliy		_	<u> </u>
3.3.1	To support PAS workstreams and carry out Business as Usual activities	Improved support to workstreams and clarity of roles for business support. Better use of resource and skill mix and efficiencies within the team. Business processes effectively implemented.	Barbara O'Reilly	>	↑	Significance progress in clarity of Business support role and process and timeline in place for reports and reporting to Sycle. Incrased support for localities.
3.4 Public Health Intelligen	ice					
3.4.1	Joint Strategic Needs Assessment (JSNA)	System-wide shared understanding of population health and wellbeing needs. Public Health Contribution to the Dorset Integrated Care System.	Chris Skelly/Vicki Fearne	→	→	Ongoing work across the system.
3.4.2	Population Health Modelling	Public Health Contribution to the Dorset Integrated Care System.	Chris Skelly	→	→	Ongoing work, new contract in place and 3 projects training analysts in the techniques
3.4.3	Facilitated Problem Solving to help clients understand and articulate what change they are trying to effect	Problem solving offer to our clients.	Natasha Morris	→	→	Workshop process developed and implemented as part of JSNA process.
3.4.4	Programme Evaluation	Public Health Contribution to the Dorset Integrated Care System.	Susan McAdie	→	→	Review of current projects completed and assessed. Ongoing 6 monthly team reviews

3.4.5 Health Sy	ystems		Hayley Haynes/ Daryl Houghton/ Steph Farr	→	>	CHIS performance monitoring dashboards up and running. Intelligence input into new sexual health scorecards. Substance misuse contract dashborads continue. Dashboards also informing JPHB meetings.
3.4.6 Healthy P	Places Research	Support for Healthy Places Programme.	Rupert Lloyd	→	→	Dorset Greenspace accessibility analysis and Mosaic population profiles are being used to support the identification of sites for interventions through BCP Council's Future Parks Accelerator Project.
3.4.7 Cardiff M	/lodel i	improve data quality and use data to inform practice.	Rob Spencer/Hayley Haynes	→	1	Meeting held with ED partners in December to discus data quality and submissions going forward. Work in hand to update spreadsheet submissions and keep EDs informed of the value of the information they provide.
