

## Equality Impact Assessment (EqIA) Template

Before completing the EQIA please have a look at the [Dorset Council style guide](#) and also use the [accessibility checker](#) to make sure your document is easy for people of all abilities to read.

### Some key tips

- avoid tables and charts, if possible please provide raw data
- avoid pictures and maps if possible.
- avoid using bold, italics or colour to highlight or stress a point
- when using numbering or bullet points avoid using capitals at the beginning unless the name of something
- date format is dd month yyyy (1 June 2021)
- use clear and simple language
- where you need to use technical terms, abbreviations or acronyms, explain what they mean the first time you use them
- if using hyperlinks, make sure the link text describes where the link goes rather than 'click here' Please note equality impact assessments are published on the Dorset Council [website](#)

Before completing this form, please refer to the [supporting guidance](#). The aim of an Equality Impact Assessment (EqIA) is to consider the equality implications of your policy, strategy, project or service on different groups of people including employees of Dorset Council, residents and users of our services and to consider if there are ways to proactively advance equality.

Where further guidance is needed, please contact the Inclusion Champion or the [Diversity & Inclusion Officer](#).

### 1. Initial information

Name of the policy, project, strategy, project or service being assessed:

Polling District, Polling Place and Polling Station Review

### 2. Is this a (please delete those not required):

Review of electoral areas (e.g. the polling districts) within the Dorset Council area and the polling stations allocated to the polling districts.

3. Is this (please delete those not required):

External (residents, communities, partners)

4. Please provide a brief overview of its aims and objectives:

- To ensure, as far as practicable, that polling stations and places are accessible to everyone.
- To ensure that all electors have such reasonable facilities for voting as are practicable in the circumstances
- To try and identify new polling stations in areas where the existing provisions are inadequate

This enables the Returning Officer to fulfil the statutory responsibility under the Electoral Registration and Administration Act 2013 to complete a formal review of their parliamentary polling districts and their polling places and ensuring polling districts, polling places and polling stations used are accessible, practicable and appropriate.

5. Please provide the background to this proposal?

To consider responses to the consultation on the statutory review of polling districts, polling places and polling stations within Dorset and to approve the proposed arrangements. The council has a duty to carry out a review every 5 years in accordance with the Electoral Registration and Administration Act 2013.

Evidence gathering and engagement

6. What sources of data, evidence or research has been used for this assessment? (e.g national statistics, employee data):

- Information relating to current polling stations
- Site visits to each polling station gathering checklists
- Information relating to the projected electorate figures in 2028
- A consultation has gone out seeking the views of residents, councillors, local disability groups.

**Updated April 2023**

All the current polling stations are listed as appendix 1 attached to this document.

## 7. What did this tell you?

That some polling stations, where possible, require some adaptations e.g. doorbells to ensure electors can get the attention of staff if required to access the polling station.

There are some polling stations which, we believe, need additional equipment to ensure electors are able to get into the polling station if they require. E.g. in some instances, the door is not visible to polling station staff and if electors need assistance then portable doorbells will be provided so that electors can ring for assistance. These are:

- Bothenhampton Village Hall
- Chettle Village Hall (if this is not relocated to Ashmore)
- East Chaldon Village Hall
- Edmondsham Village Hall
- Evershot Village Hall
- Eype Schoolroom
- Herston Hall
- Langton Matravers Village Hall
- Mappowder Village Hall
- Milton Abbas Reading Room
- PCC Stoke Abbot Village Hall
- Pamphill Parish Hall
- Pentridge Village Hall
- Powerstock Village Hall
- Spetisbury Village Hall
- St Edmunds Church Hall
- Sutton Waldron Village Hall
- Etches collection
- Witchampton Village Hall
- West Stafford Village Hall

Ramp and or / handrails identified that we may look to supply:-

- James Hargreaves Community Hall
- Long Bredy Village Hall
- Milton Abbas Reading Room

**Updated April 2023**

- Pentridge Village Hall

Additional interior lighting:

- Black Dog, East Stoke
- Weld Arms, East Lulworth

8. Who have you engaged and consulted with as part of this assessment?

- Dorset Councillors
- Elected MPs
- Town and Parish Clerks
- Election agents (e.g. political party agents)
- Scope
- People's health trust
- Mencap
- Partnership for older people programme
- Access Dorset Council Diverse Abilities
- Dorset Advocacy
- Dimensions – love your vote team
- Age UK
- Autism Wessex
- Citizen's Advice
- Disability Rights
- Dorset Blind Association
- DOTS disability
- North Dorset Disability Information
- People First Dorset

9. Is further information needed to help inform decision making?

No.

Is an EQIA required?

Not every proposal will need an EqIA. The data and research should inform your decision whether to continue with this EqIA. If you decide that your proposal does not need an EqIA, please answer the following question:

This policy, strategy, project or service does not require and EqIA because (provide details):

## Assessing the impact on different groups of people

For each of the protected characteristics groups below, please explain whether your proposal could have a positive, negative, unclear or no impact. Where an impact has been identified, please explain what it is and if unclear or negative please explain what mitigating actions will be taken.

- use the evidence you have gathered to inform your decision making.
- consider impacts on residents, service users and employees separately.
- if your strategy, policy, project or service contains options you may wish to consider providing an assessment for each option.
- see guidance for more information about the different [protected characteristics](#).

| Armed forces communities   | Positive impact | Polling stations are allocated within areas where we know there are armed forces communities. For example, Blandford and Bovington. Polling stations are open from 7am - 10pm. For those that are unable to get to the polling station within these times they can opt to vote by post or proxy.   |

**Updated April 2023**

Please provide a summary of the impacts:

- Polling stations are provided at a location within a designated polling district that electors are able to get to. We understand that not everyone can get to the polling station due to their personal circumstances and may vote by other means, e.g. post or proxy.
- In some locations 20 locations have been highlighted as possibly having the need for doorbells to be provided. These help electors grab the attention of polling station staff. In some locations the entrance cannot be seen from the polling station and this way staff can help electors – e.g. by opening doors if they need to. All doorbells will be placed at the correct height to ensure that those electors who may be in a wheelchair for example are able to use the doorbell. In some areas the local community like to use the community halls, or there may not be other polling stations available particularly in some of the rural areas where venues are limited.
- 4 polling stations have been highlighted as having either requiring ramps or handrails to enable electors to gain access to the polling station where they are not already in place.
- Additional lighting will be provided in some polling stations.
- Where possible, schools are not used to minimise disruption. Where schools have been used, they are able to keep the polling station separate from the school.

## Action Plan

Summarise any actions required as a result of this EqIA.

| Issue    | Action to be taken   | Person(s) responsible | Date to be completed by |
|----------|--|-----------------------|-------------------------|
| 13.11.23 | Arrange for ramps to be fitted / made to the polling stations that are identified.   | Kerri Oliver          | 01.04.2024              |
| 13.11.23 | Arrange for doorbells and lights to be sourced for those polling stations highlighted.   | Kerri Oliver          | 01.04.2024              |
| 17.11.23 | Within the training for polling station staff ensure that EQIA is covered. For example, and not limited to:- <ul style="list-style-type: none"><li>• Religious beliefs and explaining the need that they will need a female member of staff to check their ID. ID can be checked behind a privacy screen or other electors will need to wait outside the polling station in smaller polling stations (e.g. portacabins).</li><li>• Access to the polling station is constantly under review to ensure no obstacles are in the way and electors are able to get into the polling station.</li><li>• Go through scenarios which may happen in the polling station, e.g. A trans resident coming into vote and the options available to have their ID checked in private.</li></ul> | Kerri Oliver          | 01.04.2024              |
