## EASTERN AREA PLANNING COMMITTEE

### MINUTES OF MEETING HELD ON WEDNESDAY 3 MAY 2023

**Present:** Cllrs Toni Coombs (Chairman), Shane Bartlett (Vice-Chairman), Alex Brenton, Mike Dyer, Barry Goringe, David Morgan, David Tooke, Bill Trite and John Worth

**Present remotely:** Cllrs

**Apologies:** Cllrs Mike Barron, Robin Cook and Julie Robinson

**Also present:**

**Also present remotely:**

**Officers present (for all or part of the meeting):**

Mike Garrity (Head of Planning), Kim Cowell (Development Management Team Leader), Elaine Tibble (Senior Democratic Services Officer), Megan Rochester (Democratic Services Officer), Hannah Massey (Lawyer - Regulatory), Joshua Kennedy (Apprentice Democratic Services Officer), Elizabeth Adams (The Development Management Team Leader), Naomi Shinkins (Planning Officer), James Brightman (Senior Planning Officer), Ursula Fay and Fiona McDonnell

**Officers present remotely (for all or part of the meeting):**

356. **Apologies**

Apologies for absence were received from Cllrs Robin Cook, Mike Barron, and Julie Robinson.

357. **Declarations of Interest**

No declarations of disclosable pecuniary interests were made at the meeting.

358. **Minutes**

The minutes of the meeting held on Wednesday 5<sup>th</sup> April were confirmed and signed.

359. **Registration for public speaking and statements**

Representations by the public to the Committee on individual planning applications are detailed below. There were no questions, petitions or deputations received on other items on this occasion.

360. **Planning Applications**

Members considered written reports submitted on planning applications as set out below.

361. **P/OUT/2021/05751- Land at Matchams Stadium Matchams Lane St Leonards BH24 2BU**

The Case Officer provided members with an update as follows;

- Paragraph 15.150 refers to the site being adjacent to the Avon Valley Area of Great Landscape Value (AGLV) as identified the East Dorset District Council Area of Great Landscape Value SPG. This designation does also extend into the site in some areas.

With the aid of a visual presentation, the Case Officer explained the planning application to members. Details including photographs of site access, proposed designs, site location and surrounding settlement boundaries was discussed. The Case Officer provided members with aerial photographs, drone footage and panoramas of the site as well as information regarding the current use of site.

Members were informed that a recent assessment concluded that there were limited adverse impacts on the site due to its use for racing. However, it was noted that undiscovered contamination areas could be possible. There were some contaminated areas on site which posed a low to moderate risk to the environment. The presentation included photographs of the contamination strategy that had been carried out. The Case Officer also informed members that the site was within the Green Belt Boundary and was surrounded by an Area of Great Landscape Value (AGLV). Details regarding heritage assets near the site were also provided.

With the aid of photographs, The Case Officer presented the proposed site plans, site use and access using illustrative masterplans. Illustrative green infrastructure strategy details were also discussed, in particular, walking routes, viewpoints, seating areas and alternative natural greenspaces. The Case Officer also gave details of bus routes and unconnected national cycle networks. Members were informed that the proposal fell to make a contribution to affordable housing, but that the applicant had declined to agree to this. The presentation also included information regarding vehicle tracking and access parameter plan, visibility splays as well as existing and proposed Biodiversity Net Gain plans.

The Case Officer provided details regarding Natural England objections and discussed the outcomes. Members were also shown the visual effects of site using different viewpoints from Dark Skies map and images from lighting surveys. The presentation also included details of the Water Drainage Strategy and proposed soakaways. The Case Officer concluded her presentation by stating that the Green Belt would be negatively impacted. The proposal was considered to cause harm to Habitats Sites which could not be mitigated, and to have unacceptable impacts on protected areas of particular importance, the Officer's recommendation was to refuse.

**Public Participation**

Jay Trim spoke in objection to the proposal. She explained that the site had created a supportive community. Ms Trim also discussed how the Local area plans had not been considered by the applicant, therefore the application should not go ahead. Members were also informed that protected species were still existent on the site, the proposed development could be damaging. Ms Trim also discussed the narrow road which wasn't overly accessible, as well as there being no local need for care homes in the area. The objector had concerns regarding where their newfound community would go if the site was granted.

The agent spoke in favour of the development. He discussed the contamination on the site and believed that the proposed development would bring several benefits. In particular, the creation of new jobs and housing for an aging population which would reduce pressure on national health services. The agent believed that the response from Natural England was flawed and was disappointed with the outcome. Mr Garnett informed members that the site was a unique opportunity to transform a degraded site, he felt that doing nothing was not an option.

### **Members questions and comments**

- Members thanked the officer for a comprehensive presentation.
- The many objections were noted, particularly from Natural England.
- Comments regarding condition of the site.
- Concerns regarding surface water strategies.
- Concerns regarding site access for emergency vehicles and evacuation.
- Concerns regarding scattered properties and facilities being distanced from some properties. They would not be as accessible for some.
- Desperate need for houses for younger people.
- The site may not be pristine but could be quite biodiverse. Offered a controlled version but not necessarily better.
- Any concerns from water drainage to Avon Valley.
- Members questioned the need for the scale of development in the area.
- Responses from minimalists and waste.
- Concerns regarding pet provenance on the site.
- Members noted the adverse impacts and lack of affordable housing.
- Constraints outweigh the benefits.

Having had the opportunity to discuss the merits of the application and an understanding of all this entailed; having considered the officer's report and presentation; the written representatives; and what they had heard at the meeting, a motion to **approve the officer's recommendation to refuse planning permission as recommended**, was proposed by Cllr Bill Trite and seconded by Cllr Mike Dyer.

**Decision: To approve the officer's recommendation to refuse.**

In accordance with Procedural Rule 8.1 the committee voted to extend the duration of the meeting.

362. **P/VOC/2022/07839- Land at Leigh Road Colehill Wimborne BH21 2BZ**

The Case Officer provided members with an updated officer recommendation as follows;

A) Grant permission subject to the completion of a legal agreement under section 106 of the Town and Country Planning Act 1990 (as amended) in a form to be agreed by the legal services manager to secure the following:

- further affordable housing contribution of £99,911

And the conditions noted below

OR

B) Refuse permission if the legal agreement under section 106 of the Town and Country Planning Act 1990 (as amended) is not completed by (6 months from the date of committee) or such extended time as agreed by the Head of Planning.

The case officer also noted the following amendment to the officer report:

- Land where the diverted culvert was located is protected by covenants and is not required to be transferred to the school site.
- Paragraph 17.0 of the officer report advises conditions 9,10, 12, 15, 19 and 20 have been discharged. Condition 14 for landscaping has also recently been discharged and will be updated to a compliance condition.

With the aid of a visual presentation, the Case Officer explained the planning application to members. Details including photographs of the site, proposed designs, and the site location. Members were shown existing properties near the site and were provided with the history of the site. The site junction is within the Green Belt, however, upon consultation with the Highways team, the proposed access to the site would be reduced in size. The Case Officer showed members the approved plan and reminded them what had previously been approved, including information regarding approved drainage. The Officer's recommendation was to approve.

Steve Savage, Dorset Council's Transport Development Manager, informed members that the proposed amendment to the size of the junction was appropriate for the level of traffic movement. He highlighted that it would tie into the new local cycle network. Highways believed that it was an appropriate amendment to what had previously been approved.

### **Public Participation**

Mr Hoskinson spoke on behalf of the applicant. He informed members that the development was progressing well, and the revised junction had several benefits including a reduction in construction, a simplified junction and a reduced cost which allowed for additional contributions to go towards affordable housing. He hoped members would support the officer's recommendation.

## **Members questions and comments**

- Members were pleased with the amendment to the previous approved plans.
- Praised the officer's report and noted the benefit of an increase in contributions towards affordable housing.

Having had the opportunity to discuss the merits of the application and an understanding of all this entailed; having considered the officer's report and presentation; the written representatives; and what they had heard at the meeting, a motion to **approve the officer's recommendation to approve planning permission as recommended**, was proposed by Cllr Shane Bartlett, and seconded by Cllr David Morgan.

**Decision: To approve the officer's recommendation to grant.**

### **363. P/RES/2022/08401- Land East of New Road West Parley**

The Case Officer provided members with an update as follows;

- Paragraph 15.48 of the officer report relates to plot 384.

With the aid of a visual presentation, the Case Officer explained the planning application to members. Details including photographs of site location, access, and proposed designs were included. Members were also provided with details of rights of way and the relationship between the proposed site and Dorset Heathlands. The Case Officer's presentation also included details regarding SANG and the proposed layout of the development and heights of the elevations. Members were informed of the housing mix and approved designs and were shown the link roads and approved access points. Retention and plantation of trees, foliage and Surface Water Drainage strategies were also discussed and considered sufficient.

## **Public Participation**

The agent praised the officer's detailed report. He informed members that the development had a detailed design code which had been submitted and approved by the council. Mr Packer assured members that the site met the local housing needs and was well connected. The agent also discussed the suitable drainage structure to support the development as well as design and layout considerations. He hoped that the delivery of a high-quality development would encourage members to endorse the officer's recommendation to grant.

The Local Ward Member raised concerns from residents. He felt that the roads would not be compliant, and the development needed further consideration regarding sewage. Cllr Parry discussed the local need for immunities, including

doctors' surgeries. A new development would add to the constraints and pressure on health services. The Ward member also discussed the greenspace and informed members that the view from the community was to refuse.

### **Members questions and comments**

- Pleased to see an inclusion of 3-bedroom affordable housing.
- Clarification regarding affordable housing location on the site.
- Clarification regarding if roads met safety standards but not adoption standards.
- Maintenance and management of roads.
- Confirmation of visual appearance of flats in both phases 1 and 2 being similar to ensure continuity.
- Consider a LEAP or LAP area to accommodate for young children.
- Assurance of refuse vehicles.
- Clarification regarding sizes of apartments.
- Concerns regarding limited access from the flats to the green space area.
- Lack of play areas across the site for children.
- Members noted the concerns of the local ward member and residents.

Having had the opportunity to discuss the merits of the application and an understanding of all this entailed; having considered the officer's report and presentation; the written representatives; and what they had heard at the meeting, a motion to **approve the officer's recommendation to approve planning permission as recommended**, was proposed by Cllr Shane Bartlett, and seconded by Cllr John Worth.

**Decision: To approve the officer's recommendation to grant.**

#### **364. P/FUL/2022/07443- Warlands, 71 Burnbake Road, Verwood BH31 6ES**

With the aid of a visual presentation, the Case Officer explained the planning application to members. Details including photographs of site access, existing properties, proposed designs, and the history of the site were discussed. The Case Officer also informed members that Highways were satisfied and did not raise any concerns. The presentation also included proposed street scene designs for the proposed development and provided members with details of potential overlooking and distances between existing and proposed dwellings. Retention and plantation of trees and hedging was also discussed. Members were informed that parking had been allocated for each dwelling and The Case Officer discussed the additional conditions. The recommendation was to grant subject to conditions.

### **Public Participation**

The agent spoke in favour of the application. He informed members that the site was within a sustainable location with links to public transport. He discussed the design of the properties as well as reflecting on the character of the area. Mr Moir also discussed the assess points which had been considered safe by highways as

well as the reinforcement of highways. The agent believed that the proposal accepted and addressed the concerns of the previous scheme. He hoped members would support the officer's recommendation.

### **Members questions and comments**

- Clarification regarding conditions set out in the officer's report.
- Added an advisory note for traffic movement on the lane. Members requested to update the informative note.
- Amendment to condition of provisions of landscaping.

Having had the opportunity to discuss the merits of the application and an understanding of all this entailed; having considered the officer's report and presentation; the written representatives; and what they had heard at the meeting, a motion to **approve the officer's recommendation to approve planning permission as recommended**, was proposed by Cllr Shane Bartlett, and seconded by Cllr Barry Goringe, subject to amended and additional conditions.

**Decision: To approve the officer's recommendation to grant.**

### 365. **P/FUL/2023/01030- Knoll Beach Ferry Road Swanage BH19 3AQ**

With the aid of a visual presentation, the Case Officer explained the planning application to members. Details including aerial photographs of the site as well as proposed floor plans and elevations were shown. The Case Officer also provided members with details of the proposed building materials and informed them that the site was within the AONB, but the site caused no harm. Members were informed of flood risks and the condition of mitigation was discussed. The recommendation was to grant.

### **Public Participation**

There was no public participation.

### **Members questions and comments**

- Praised the officer's report.
- Members had no concerns and believed the site would accommodate for more people.
- Members considered that a sedum roof for the building would be an improvement and the decision for the application was delegated to officers to see if a sedum roof could be provided.

Having had the opportunity to discuss the merits of the application and an understanding of all this entailed; having considered the officer's report and presentation; the written representatives; and what they had heard at the meeting, a motion to **approve the officer's recommendation to approve planning**

**permission as recommended**, was proposed by Cllr Shane Bartlett, and seconded by Cllr Bill Trite.

**Decision: To approve the officer's recommendation to grant.**

366. **Urgent items**

There were no urgent items.

367. **Exempt Business**

There was no exempt business.

**Decision Sheet**

**Duration of meeting:** 10.00 am - 1.43 pm

**Chairman**

.....

## Eastern Area Planning Committee 3<sup>rd</sup> May 2023 Decision List

**Application Reference:** P/OUT/2021/05751

**Application Site:** Land at Matchams Stadium Matchams Lane St Leonards BH24 2BU

**Proposal:** Demolition of existing buildings and structures and erection of a continuing care retirement community with up to 330 extra care units (Use Class C2) and up to 60 bed care home (Use Class C2), associated communal and care facilities, landscaping and open space, Alternative Natural Greenspace (ANG), parking and infrastructure, means of access and internal access roads. Use of land as nature conservation area, to include ecological enhancements and restoration (outline application to determine access only with all other matters reserved)

**Recommendation:** **REFUSE permission for the reasons set out at the end of this report.**

### 3.0 Reason for the recommendation:

- The proposal would result in adverse impacts to the Dorset Heathlands SPA and New Forest SPA
- The proposal fails to make a policy-compliant contribution to affordable housing
- The proposal is contrary to green belt policy
- It has not been satisfactorily demonstrated that the proposed surface water drainage scheme can be viably implemented
- It has not been satisfactorily demonstrated that the proposal will not have adverse effects on the dark skies of the New Forest National Park

### Decision: Recommendation

**REFUSE permission for the reasons set out below.**

1. The proposal would have adverse impacts on the Dorset Heathlands SPA and New Forest SPA which cannot be mitigated, contrary to Policy ME2 of the adopted Christchurch and East Dorset Local Plan – part 1 2014, the Dorset Heathlands Planning Framework 2020-2025 SPD, and paragraphs 180-182 of the National Planning Policy Framework. This forms a clear reason for refusal of the proposal in accordance with NPPF para 11 d) i.
2. The proposed development fails to make an appropriate contribution to affordable housing, contrary to Policy LN3 of the adopted Christchurch and East Dorset Local Plan – Part 1, 2014.
3. The proposal, by way of the parameters proposed for scale and massing, along with the urbanising effects of more regular traffic movements, represents inappropriate

development in the Green Belt. Contrary to Policy KS3 of the adopted Christchurch and East Dorset Local Plan – Part 1, 2014, and paragraphs 147-151 of the National Planning Policy Framework. This forms a clear reason for refusal of the proposal in accordance with NPPF para 11 d) i.

4. Insufficient information has been provided regarding surface water management from the development. It has not been demonstrated that the proposed surface water drainage scheme can be viably achieved on the site. Contrary to Policy ME6 of the adopted Christchurch and East Dorset Local Plan – part 1, 2014, and paragraphs 167 and 169 of the National Planning Policy Framework.
5. The proposal, by bringing artificial lighting into an area currently lit only sporadically, is likely to result in an increase in light pollution. Insufficient information has been submitted to fully understand the effects of the development on nearby receptors including the New Forest National Park. Contrary to Policy HE3 of the adopted Christchurch and East Dorset Local Plan 2014, and paragraphs 176 and 185 of the National Planning Policy Framework.

**Informatives:**

1. National Planning Policy Framework

In accordance with paragraph 38 of the NPPF the council, as local planning authority, takes a positive approach to development proposals and is focused on providing sustainable development. The council works with applicants/agents in a positive and proactive manner by:

- offering a pre-application advice service, and –
- as appropriate updating applications/agents of any issues that may arise in the processing of their application and where possible suggesting solutions.

In this case:

- The applicant and council have worked together to minimise the reasons for refusal.

2. If planning permission is subsequently granted for this development at appeal, it will be subject to the Community Infrastructure Levy (CIL) introduced by the Town and Country Planning Act 2008. A CIL liability notice will then be issued by the Council that requires a financial payment, full details of which will be explained in the notice.

**Application Reference:** P/VOC/2022/07839

**Application Site:** Land at Leigh Road Colehill Wimborne BH21 2BZ

**Proposal:** Application to Vary Condition 1 of Approved P/A 3/17/0848/FUL (*Hybrid planning application comprising*

*1) Full application for 44 dwellings with associated roads, footways, amenity areas, parking, open space, a drainage pumping station and a sustainable urban drainage system with*

*surface water attenuation ponds in the eastern sector of the site as well as the provision of a principal access road from Leigh road as per the scheme approved under ref 3/14/1097/FUL other than the amended surface water drainage arrangements and*

*2) Outline planning application for a First School of 1.2 hectares in extent with means of access via the road and footway system incorporated in the accompanying full application and other matters reserved :- all as part of the*

*development provided for under Policy WWMC8 of the Christchurch and East Dorset Local Plan Part 1 - Core Strategy (2014).*

To vary the extent of the site access further to detailed discussions with Dorset Highways

**Recommendation:** GRANT subject to conditions and securing an additional affordable housing for the following reason:

- Proposed changes to conditions amend the access in line Dorset Council Highways requirements only and does not materially change the nature of development already approved.

**Decision:** A) Grant permission subject to the completion of a legal agreement under section 106 of the Town and Country Planning Act 1990 (as amended) in a form to be agreed by the legal services manager to secure the following:

- further affordable housing contribution of £99,911

And the conditions noted below

OR

B) Refuse permission if the legal agreement under section 106 of the Town and Country Planning Act 1990 (as amended) is not completed by (6 months from the date of committee) or such extended time as agreed by the Head of Planning.

**Conditions:**

1. The development hereby permitted shall be carried out in accordance with the following approved plans:

095\_DI\_08.4 Site Location Plan

**095\_DI\_23.21 Planning Application Site Layout**

095\_DI\_24.9 Parking Layout

095\_DI\_25.12 Boundary Materials Layout

 2036-P406 Plans and Elevations – Double 90 Degree Garage

Reason: For the avoidance of doubt and in the interests of proper planning.

2. Before the development of the first school hereby approved is occupied a traffic calming scheme shall be constructed along the access road to the south of the proposed school site, between the two speed reducing bends to the south west and south east, in accordance with a specification first agreed in writing with the Local Planning Authority.

Reason: These specified works are seen as a pre-requisite for allowing the development to proceed, providing the necessary highway infrastructure improvements to mitigate the likely impact of the proposal.

3. Before the development hereby approved is occupied or utilised the following works must have been constructed in accordance with schemes that have been submitted to the Local Planning Authority and approved in writing:
  - The construction of a new junction on Leigh Road which incorporates the needs of vehicle, cycles and pedestrians, to be agreed in writing with the Local Planning Authority.
  - The diversion of the existing watercourse that runs along the south side of Leigh Road, in accordance with a scheme to be agreed in writing with the Local Planning Authority.

Reason: These specified works are seen as a pre-requisite for allowing the development to proceed, providing the necessary highway infrastructure improvements to mitigate the likely impact of the proposal.

4. Before the development hereby approved is occupied or utilised, the submitted Travel Plan (March 2017) must be implemented and operational.

Reason: In order to reduce or mitigate the impacts of the development upon the local highway network and surrounding neighbourhood by reducing reliance on the private car for journeys to and from the site.

5. The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plan 18009-BT5 before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason: In order to prevent damage during construction to trees that are shown to be retained on the site.

6. No construction work in relation to the development, including preparation prior to operations, shall take place other than between the hours of 07.30 hours to 18.00 hours Monday to Friday and 07.30 hours to 13.00 hours on Saturdays and at no time on Sundays or Public or Bank Holidays.

Reason: To safeguard the amenity of existing residents having regard to Local Plan Policy HE2.

7. The proposed surface water drainage for the site shall be carried out in accordance with the preliminary strategy documents as follows:

- W511-15B
- W511-06 Rev L
- W511-25
- 3-17-0848-FUL\_Other+documents\_FRA\_Part\_1
- 3-17-0848-FUL\_Other+documents\_FRA\_Part\_2
- 3-17-0848-FUL\_Supporting Document\_W511-FN02 FRA Supplementary Note
- 180315 RESPONSE W511-FN01 FULL
- Leigh Road W511-FN05 FRA Further Supplementary Note Oct 18

Reason: To prevent the increased risk of flooding or overwhelming of existing drainage infrastructure, and to protect water quality.

8. The development phase hereby permitted in full, namely the 44 dwellings with associated roads, footways, amenity areas, parking, open space, foul drainage pumping station, sustainable urban drainage system with surface water attenuation ponds and principle access road from Leigh Road, shall be begun before the expiration of three years from the date of this permission.

Reason: This condition is required to be imposed by Section 91 of the Town and Country Planning Act 1990.

9. The surface water management for the phase permitted in full shall be carried out in accordance with 'W528-FN09 Surface Water Drainage Statement'.  
The surface water scheme shall be implemented in accordance with the agreed details before the development of the school site is completed.

Reason: To prevent the increased risk of flooding or overwhelming of existing drainage infrastructure, and to protect water quality.

10. The maintenance and management of the surface water sustainable drainage scheme for the phase permitted in full shall be carried out in accordance with W528-FN10 Surface Water Drainage Maintenance & Management Plan.  
The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. The details should be for the lifetime of the development and include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the surface water drainage scheme throughout its lifetime.

Reason: To ensure future maintenance of the surface water drainage system, and to prevent the increase risk of flooding.

11. Before the development is occupied or utilised the access, geometric highway layout, turning and parking areas shown on Drawing Number 095\_DA\_23.20b (Site Layout) must be constructed, unless otherwise agreed in writing by the Local Planning Authority. Thereafter, these must be maintained, kept free from obstruction and available for the purposes specified.

Reason: To ensure the proper and appropriate development of the site.

12. The development phase permitted in full and access road connecting it to the development permitted under application 3/14/1097/FUL, shall be carried out in accordance with the approved Construction Traffic Management Plan (CTMP) 'A015-CTMP-Construction Traffic Management Plan - Sheet 1' and 'A015-CTMP-Construction Traffic Management Plan - Sheet 2' for the residential development, access road and first school site levelling and access points

Reason: to minimise the likely impact of construction traffic on the surrounding highway network and prevent the possible deposit of loose material on the adjoining highway.

13. The development phase permitted in full shall not be first brought into use unless and until the protected species mitigation measures as detailed in the approved mitigation plan dated 19 June 2017 and subsequent addendum documents 'Leigh Rd Ecology Report Addendum' submitted 9 December 2020, have been completed in full unless any modifications to the agreed mitigation plan as a result of the requirements of a European Protected Species Licence or the results of subsequent bat surveys are required and have first been submitted to and agreed in writing by the Local Planning Authority.

Thereafter approved mitigation measures shall be permanently maintained and retained in accordance with the approved details, unless otherwise first agreed in writing by the Local Planning Authority.

Reason: This information is required prior to the commencement of development to ensure that bat/barn owl species are protected and their habitat enhanced, in accordance with the Wildlife and Countryside Act 1981 as amended, the Conservation of Habitats and Species Regulations 2010 and policy ME1 of the Christchurch and East Dorset Core Strategy.

14. No residential development above DCP (damp proof course) shall take place until full details of soft landscape works based on drawing 095\_DI\_26.17 (Landscape Strategy) have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried in accordance with the approved details. These details shall include soft landscaping design; details of tree planting to replace trees lost during the creation of the Leigh Road access; details of boundary planting, schedules of plants (noting species, plant sizes and proposed numbers/densities where appropriate).

All hard and soft landscape works including boundary treatments shall be carried out in accordance with the approved plans and details. The works shall be carried out prior to the occupation of the development to which they relate or in accordance with a programme agreed in writing by the Local

Planning Authority. Any planting found damaged, dead or dying in the first five years following their planting are to be duly replaced with appropriate species.

Reason: This information is required prior to above ground work commencing as the long term establishment, maintenance and landscaping of the site is necessary to preserve the amenity of the locality. This decision has also had regard to Policies HE2 and HE3 of the Local Plan and Government Guidance contained in the National Planning Policy Framework.

15. The residential development shall be built in accordance with the materials approved in the document ' Leigh Road - Condition 15 - Brick and Roof Tile Materials Palette'

Reason: This information is required prior to above ground work commencing to ensure satisfactory visual relationship of the new development to the existing.

16. The window(s) on the:

- \* Southern elevation of Plot 2
- \* South-western elevation of Plot 7
- \* North-eastern elevation of Plot 19
- \* North-western elevation of Plot 27
- \* South-eastern elevation of Plot 29
- \* North-western elevation of Plot 30
- \* North-eastern elevation of Plot 31
- \* South-western elevation of Plot 32
- \* North-eastern elevation of Plot 33

shall be glazed with obscure glass to Level 5 Obscurity and shall either be a fixed light or hung in such a way as to prevent the effect of obscure glazing being negated by reason of overlooking and these shall be retained for the lifetime of the development. Furthermore, notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015, or any subsequent re-enactment, no further fenestration or door shall be installed in the said elevation without express planning permission.

Reason: To preserve the amenity and privacy of the adjoining properties.

17. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, or any subsequent re-enactment, the proposed single garages for plots 27 and 36 shall not be altered or extended, nor shall any new outbuilding be constructed within the curtilage of these dwellings, without express planning permission.

Reason: to protect the amenity of the neighbouring property 2B The Paddocks.

18. Works relating to site levels and finished floor levels for the residential development shall be undertaken strictly in accordance with the details as set out in drawing 'W511/28 Rev B Contours and finished Floor Levels'.

Reason: To ensure details of the proposal having regard to the existing site levels, flood risk mitigation and those adjacent hereto.

19. The residential development approved shall be carried out in accordance with the approved energy statement 'Leigh Road Energy Statement' and PV plan 'PV-100'.

Reason: To help meet the UK's carbon emissions targets and comply with Policy ME4 of the Christchurch and East Dorset Core Strategy.

20. The residential development approved shall be carried out in accordance with the approved water efficiency calculations for plots 1-44.

Reason: This condition contributes to sustainable development and meeting the demands of climate change. Increased water efficiency for all new developments also enables more growth with the same water resources.

21. The development phase hereby permitted in outline, namely the construction of a first school, shall be begun either before the expiration of three years from the date of this permission or before the expiration of two years from the date of approval of the last of the reserved matters.

Reason: This condition is required to be imposed by Section 91 of the Town and Country Planning Act 1990.

22. (a) With the exception of site levelling and access connections, prior to commencement of development of the first school details of 'Reserved Matters', (that is any matters in respect of which details have not been given in the application and which concern the siting, design or external appearance of the building(s) to which this permission and the application relates, or to the means of access to the building(s) or the landscaping of the site) shall be submitted to and approved in writing by the Local Planning Authority.

(b) An application for approval of any 'Reserved Matters' must be made not later than the expiration of three years beginning with the date of this permission.

(c) The development to which this permission relates must be begun not later than the expiration of two years from the final approval of the Reserved

Matters or, in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: (a) This condition is required to be imposed by the provisions of Article 5(1) of the Town and Country Planning (Development Management Procedure) Order 2015: (1) of the (b) and (c) These conditions are required to be imposed by Section 92 of the Town and Country Planning Act 1990.

23. With the exception of site levelling and access connections, prior to commencement of the first school development hereby approved in outline a Construction Traffic Management Plan (CTMP) for that part of the development must be submitted to and approved in writing by the Local Planning Authority. The CTMP must include:

- construction vehicle details (number, size, type and frequency of movement)
- a programme of construction works and anticipated deliveries

- timings of deliveries so as to avoid, where possible, peak traffic periods
- a framework for managing abnormal loads
- contractors' arrangements (compound, storage, parking, turning, surfacing and drainage)
- wheel cleaning facilities
- vehicle cleaning facilities
- Inspection of the highways serving the site (by the developer (or his contractor) and Dorset Highways) prior to work commencing and at regular, agreed intervals during the construction phase
- a scheme of appropriate signing of vehicle route to the site
- a route plan for all contractors and suppliers to be advised on
- temporary traffic management measures where necessary

The development must be carried out strictly in accordance with the approved Construction Traffic Management Plan.

Reason: to minimise the likely impact of construction traffic on the surrounding highway network and prevent the possible deposit of loose material on the adjoining highway.

24. The first school development phase hereby approved shall not be first brought into use unless and until the protected species mitigation measures as detailed in the approved mitigation plan dated 19 June 2017 and subsequent addendum documents 'Leigh Rd Ecology Report Addendum' submitted 9 December 2020, have been completed in full unless any modifications to the agreed mitigation plan as a result of the requirements of a European Protected Species Licence or the results of subsequent bat surveys are required and have first been submitted to and agreed in writing by the Local Planning Authority.

Thereafter approved mitigation measures shall be permanently maintained and retained in accordance with the approved details, unless otherwise first agreed in writing by the Local Planning Authority.

Reason: This information is required prior to the commencement of development to ensure that bat/barn owl species are protected and their habitat enhanced, in accordance with the Wildlife and Countryside Act 1981 as amended, the Conservation of Habitats and Species Regulations 2010 and policy ME1 of the Christchurch and East Dorset Core Strategy.

25. With the exception of site levelling and access connections no development shall take place in relation to the first school site until a detailed surface water management scheme for that part of the site, based upon the hydrological and hydrogeological context of the development has been submitted to and agreed in writing by the local planning authority. The surface water scheme shall be implemented in accordance with the agreed details before the development of the school site is completed.

Reason: To prevent the increased risk of flooding or overwhelming of existing drainage infrastructure, and to protect water quality.

26. With the exception of site levelling and access connections no development hereby approved shall take place in relation to the first school site until details of maintenance and management of the surface water sustainable drainage scheme for that part of the site have been submitted to and approved in writing by the local planning authority. The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. The details should include a plan for the lifetime of the development, the arrangements for adoption by any public body or statutory undertaker,

or any other arrangements to secure the operation of the surface water drainage scheme throughout its lifetime.

Reason: To ensure future maintenance of the surface water drainage system, and to prevent the increase risk of flooding.

**Informatives:**

1. Safeguards should be implemented during the construction phase to minimise the risks of pollution and detrimental effects to the water interests in and around the site. Such safeguards should cover the use of plant and machinery, oils/chemicals and materials; the use and routing of heavy plant and vehicles; the location and form of work and storage areas and compounds and the control and removal of spoil and wastes. We recommend the applicant refer to the Environment Agency's Pollution Prevention Guidelines, which can be found at:  
<https://www.gov.uk/guidance/pollution-prevention-for-businesses>
2. If any controlled waste is to be removed off site, then site operator must ensure a registered waste carrier is used to convey the waste material off site to a suitably authorised facility. If the applicant require more specific guidance it is available on the Environment Agency's website <https://www.gov.uk/howto-classify-different-types-of-waste>
3. The highway improvement(s) referred to in the recommended condition above shall be carried out to the specification and satisfaction of the Local Highway Authority in consultation with the Local Planning Authority and it will be necessary to enter into an agreement, under Section 278 of the Highways Act 1980 (or "Minor Works Agreement"), with the Local Highway Authority, before any works commence on the site.
4. The applicant is advised that, notwithstanding this consent, if it is intended that the highway layout be offered for public adoption under Section 38 of the Highways Act 1980, the applicant should contact Dorset County Council's Development team. They can be reached by telephone at 01305 225401, by email at [dli@dorsetcc.gov.uk](mailto:dli@dorsetcc.gov.uk) , or in writing at Development team, Dorset Highways, Environment and the Economy, Dorset Council, County Hall, Dorchester, DT1 1XJ
5. The applicant should be advised that the Advance Payments Code under Sections 219-225 of the Highways Act 1980 may apply in this instance. The Code secures payment towards the future making-up of a private street prior to the commencement of any building works associated with residential, commercial and industrial development. The intention of the Code is to reduce the liability of potential road charges on any future purchasers which may arise if the private street is not made-up to a suitable standard and adopted as publicly maintained highway. Further information is available from Dorset Council's Development team. They can be reached by telephone at 01305 225401, by email at [dli@dorsetcc.gov.uk](mailto:dli@dorsetcc.gov.uk), or in writing at Development team, Dorset Highways, Environment and the Economy, Dorset Council, County Hall, Dorchester, DT1 1XJ.
6. Given the proximity of some of the proposed gardens to neighbouring houses (which are not positively drained) and the required land raising to achieve finished floor levels, the applicant should ensure that over compaction of land near to these areas is prevented so that runoff into neighbouring gardens does not increase post construction. The Detailed Drainage Strategy (DDS) required in condition 16 should discuss how this will be managed during the

construction phase as part of the Surface Water Construction Management Plan requested via this condition.

7. If the applicant wishes to offer for adoption any SW drainage to Wessex Water (WW) for adoption, they should contact WW as soon as possible. As we will expect to see evidence of a section 104 agreement in respect of any Discharge of Conditions application.
8. Prior Land Drainage Consent (LDC) may be required from DCC's FRM team, as relevant LLFA, for all works that offer an obstruction to flow to a channel or stream with the status of Ordinary Watercourse (OWC) – in accordance with s23 of the Land Drainage Act 1991. The modification, amendment or realignment of any OWC associated with the proposal under consideration, is likely to require such permission. We would encourage the applicant to submit, at an early stage, preliminary details concerning in-channel works to the FRM team. LDC enquiries can be sent to [floodriskmanagement@dorsetcc.gov.uk](mailto:floodriskmanagement@dorsetcc.gov.uk).
9. The application should be read in conjunction with the S106 planning obligation (dated 1<sup>st</sup> April 2022) between:

(1) DORSET COUNCIL

(2) JOHN WILLIAM ARTHUR CORRINGHAM-RUDD AND DR JANE BETHAN DAVIES

(3) LEWIS WYATT (CONSTRUCTION) LIMITED

(4) NATIONAL TRUST FOR PLACES OF HISTORIC INTEREST OR NATURAL BEAUTY

And the Deed of Variation to secure the additional affordable housing contribution.

**Application Reference:** P/RES/2022/08041

**Application Site:** Land East of New Road West Parley

**Proposal:** Reserved Matters submission comprising layout, scale, appearance and landscaping pursuant to condition 1 of outline permission ref.

3/17/3609/OUT for Phase 2 comprising 148 dwellings (Use Class C3) with public open space and landscaping. Vehicular access off Christchurch Road and Church Lane as approved in the outline planning permission.

**Recommendation:** Approval of Reserved Matters

**Decision: APPROVAL of Reserved Matters:**

Subject to the following conditions:

1. The development hereby permitted shall be carried out in accordance with the following approved plans:

Proposed Site Layout Plan 22124-P101-T

2. Prior to the commencement of any development hereby approved, above damp course level, and pursuant to the Energy Strategy Statement (Briary Energy (March 2021), full details of the Photo Voltaic panels and their positioning shall be submitted and approved in writing by the Local Planning Authority. All works are to be carried out in accordance with the approved details.

Reason: To help meet the UK's carbon emissions targets and comply with Policy ME4 of the Christchurch and East Dorset Core Strategy.

3. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order) (with or without modification) no enlargement(s) of the dwellinghouse hereby approved on plot 384, permitted by Class A and Class B of Schedule 2 Part 1 of the 2015 Order, shall be erected or constructed.

Reason: To protect the amenity of neighbouring properties.

#### **Informatives:**

1. Informative: National Planning Policy Framework Statement

In accordance with paragraph 38 of the NPPF the council, as local planning authority, takes a positive approach to development proposals and is focused on providing sustainable development.

The council works with applicants/agents in a positive and proactive manner by:

- offering a pre-application advice service, and
- as appropriate updating applications/agents of any issues that may arise in the processing of their application and where possible suggesting solutions.

In this case:

- The applicant/agent was updated of any issues and provided with the opportunity to address issues identified by the case officer.
- The applicant was provided with pre-application advice.

2. Informative: This development constitutes Community Infrastructure Levy 'CIL' liable development. CIL is a mandatory financial charge on development and you will be notified of the amount of CIL being charged on this development in a CIL Liability Notice. To avoid additional financial penalties it is important that you notify us of the date you plan to commence development before any work takes place and follow the correct CIL payment procedure.

- 2. Informative: It is recommended that areas providing for the drying of washing within the rear amenity courtyards of flatted blocks.

**Application Reference:** P/FUL/2022/07443

**Application Site:** Warlands, 71 Burnbake Road, Verwood BH31 6ES

**Proposal:** Erect 3 dwellings (amended scheme)

**Recommendation:** GRANT subject to conditions

1. The development to which this permission relates must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: This condition is required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the following approved plans:

Reason: For the avoidance of doubt and in the interests of proper planning.

3. Before the development hereby approved is occupied or utilised the turning/manoeuvring and parking shown on Drawing Number P201 G must have been constructed. Thereafter, these areas, must be permanently maintained, kept free from obstruction and available for the purposes specified.

Reason: To ensure the proper and appropriate development of the site and to ensure that highway safety is not adversely impacted upon.

4. Prior to development above damp proof course level, a soft landscaping and planting scheme shall be submitted to, and approved in writing, by the Local Planning Authority. The approved scheme, which shall include the retention of hedging along the boundaries with Bugdens Lane, shall be implemented in full during the planting season November – March following commencement of the development or within a timescale to be agreed in writing with the Local Planning Authority. The scheme shall include provision for the maintenance and replacement as necessary of the trees and shrubs for a period of not less than 5 years and the retention of front boundary hedging thereafter.

Reason: In the interest of visual amenity.

5. Prior to development above damp proof course level, details (including colour photographs) of all external facing materials for the wall(s) and roof(s) shall have been submitted to, and approved in writing by the Local Planning Authority. Thereafter, the development shall proceed in accordance with such materials as have been agreed.

Reason: To ensure a satisfactory visual appearance of the development.

6. The detailed biodiversity mitigation, compensation and enhancement/net gain strategy set out within the approved Biodiversity Plan certified by the Dorset Council Natural Environment Team on 16/07/2021 must be strictly adhered to during the carrying out of the development.

The development hereby approved must not be first brought into use unless and until the mitigation, compensation and enhancement/net gain measures detailed in the approved biodiversity plan have been completed in full, unless any modifications to the approved Biodiversity Plan as a result of the requirements of a European Protected Species Licence have first been submitted to and agreed in writing by the Local Planning Authority.

Thereafter approved mitigation, compensation and enhancement/net gain measures must be permanently maintained and retained in accordance with the approved details, unless otherwise first agreed in writing by the Local Planning Authority.

Reason: To mitigate, compensate and enhance/provide net gain for impacts on biodiversity.

7. Details of 2 bat boxes, 2 bird boxes and 2 bee bricks shall be submitted to and agreed in writing by the Local Planning Authority which shall be erected as agreed prior to first occupation or use of the development hereby approved.

Reason: To enhance or protect biodiversity.

8. Prior to commencement of development hereby approved a Construction Traffic Management Plan and programme of works shall be submitted to and approved in writing by the Local Planning Authority. The Plan shall include construction vehicle details (number, size, type and frequency of movement), vehicular routes, delivery hours and contractors' arrangements (compound, storage, parking, turning, surfacing, drainage and wheel wash facilities). The development shall thereafter be carried out strictly in accordance with the approved Construction Traffic Management Plan.

Reason: In the interests of road safety.

**Informatives:**

1. Informative: National Planning Policy Framework Statement

In accordance with paragraph 38 of the NPPF the council, as local planning authority, takes a positive approach to development proposals and is focused on providing sustainable development.

The council works with applicants/agents in a positive and proactive manner by:

- offering a pre-application advice service, and

- as appropriate updating applications/agents of any issues that may arise in the processing of their application and where possible suggesting solutions.

In this case:

- The applicant/agent was updated of any issues and provided with the opportunity to address issues identified by the case officer.

2. Informative: This development constitutes Community Infrastructure Levy 'CIL' liable development. CIL is a mandatory financial charge on development and you will be notified of the amount of CIL being charged on this development in a CIL Liability Notice. To avoid additional financial penalties it is important that you notify us of the date you plan to commence development before any work takes place and follow the correct CIL payment procedure.
3. The proposed works are in the vicinity of the public right of way E54/1, as recorded on the County Definitive Map and Statement of rights of way. New housing will front onto this footpath (via Bugdens Lane) vehicle and pedestrian access will be required directly along E54/1 to access these properties.

Throughout the duration of the development the full width of the public footpath must remain open and available to the public, with no materials or vehicles stored on the route.

It should be noted that the use of this footpath by vehicular traffic without lawful authority is an offence contrary to the Road Traffic Act 1988. Any damage to the surface of the path attributable to the development must be repaired to Dorset Council's specification, in accordance with Section 59 of the Highways Act 1980.

The free passage of the public on all rights of way must not be obstructed at anytime. If the public are unlikely to be able to exercise their public rights on the above path, then a Temporary Path Closure Order must be obtained. This can be applied for through this office, but the application must be completed and returned at least thirteen weeks before the intended closure date. It should be noted that there is a fee applicable to this application.

4. The applicants are reminded that Bugdens Lane is a private road which may be subject to restrictions that lie beyond the remit of planning.
5. The developer is advised that the Construction Traffic Management Plan required by condition 8 should include measures to ensure that the condition of the Bugdens Lane is surveyed and photographed prior to commencement of works and the Lane reinstated to that condition prior to occupation of the dwellings hereby approved.

**Application Reference:** P/FUL/2023/01030

**Application Site:** Knoll Beach Ferry Road Swanage BH19 3AQ

**Proposal:** Disabled persons WC and changing building

**Recommendation:** GRANT subject to conditions

**Decision: Grant, subject to the following conditions:**

1. The development to which this permission relates must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: This condition is required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the following approved plans:

Drawing No. RADPT.0001 Rev 1: Planning Drawings

Reason: For the avoidance of doubt and in the interests of proper planning.

3. The building hereby approved shall incorporate the following flooding resilience measures prior to first use:

- Waterproof flooring (including 150mm up the walls)
- Floor gully to allow any water in the building to flow out via waste pipes
- Multipanel Hydrolock walling to prevent water reaching the plasterboard / timbers / insulation
- Sealed floor insulation to prevent water penetration
- Waterproof paint for the steel frame of the building
- Ventilation behind the cladding to allow walls to dry out easily
- Moisture resistant Insulation inside the walls
- Finished floor level to be higher than adjacent ground levels

Reason: To mitigate against the risk of groundwater flooding to the building.

4. Before using any external facing and roofing materials in the construction of the development, details of their manufacturer, colour and type shall have been submitted to and approved in writing by the Local Planning Authority (LPA). All works shall be undertaken strictly in accordance with the details as approved, unless otherwise agreed in writing with the LPA.

Reason: To ensure the development uses external materials appropriate for its context.

**Informative Notes:**

1. Informative: National Planning Policy Framework Statement

In accordance with paragraph 38 of the NPPF the council, as local planning authority, takes a positive approach to development proposals and is focused on providing sustainable development.

The council works with applicants/agents in a positive and proactive manner by:

- offering a pre-application advice service, and
- as appropriate updating applications/agents of any issues that may arise in the processing of their application and where possible suggesting solutions.

In this case:

- The applicant/agent was updated of any issues and provided with the opportunity to address issues identified by the case officer.
2. Please check that any plans approved under the building regulations match the plans approved in this planning permission or listed building consent. Do not start work until revisions are secured to either of the two approvals to ensure that the development has the required planning permission or listed building consent.
  3. In respect of Condition 3, flood proofing / to be included in the proposed building should accord with the Communities & Local Government advice 'Improving the flood performance of new buildings' (2007)
