Parking restriction not mentioned in any literature. Management of Spyglass said that 20 minutes parking would be allowed. However, do the management have the right to allow this as parking often run by an external company. Why were parking arrangements not mentioned on poll card?	Not aware of any other suitable alternative buildings within the polling district. We would check on booking of the premises that 20 minutes parking is still viable and this information to be included on the poll card. Current arrangements adequate – no changes proposed

However, the approach from Dorchester Road is hardly ideal for those of us with vision and or mobility problems. In May this year there were 2 stations within 1 room due to the different parish ward boundaries. I think this can confuse the electorate and cause stress to the polling station officials. In practice, it is unlikely, considering the small number of eligible voters who can actually be bothered to turn out and vote, the current status quo may not cause too many problems. The distance was raised by many residents, especially the elderly and physically disable who found it impossible to get there. It is a very long walk for a large proportion of the electorate. Wool Parish Council – Having spoken to the other Trustees we would like to make The D'Urberville Centre available as a polling station. We can meet all your requirements using Meeting Room 1. Meeting Room 1 can be accessed directly from a main door to the building. In the event of a snap election I have already written the following clause into our Terms and Conditions of Hire ' <i>The committee reserves the right to cancel this hiring in the event of the centre being required for use as a polling station for parliamentary/local government/by-election, in which case the hirer shall be entitled to a refund of any monies paid</i> ' Complaint received from elector during May Elections – Access is past a smoking shelter and last time billows of smoke greeted me. I have also taken my children with me and it is not right for them to see people drinking and smoking. I agree school premises are equally unsuitable but what on earth is wrong with our village centre??? I fail to see why my right to vote in person is jeopardised by this inappropriate venue .	Change station to The D'Urberville Centre as recommended subject to availability.

He's a wheelchair user and found the longer journey from his home to the polling station difficult. He would like it changed back to Milton Road.</p> <p>Resident of Wedgwood Road – called to complain about the polling station she's been allocated to (Dorset Close Centre). She had to go on foot and for 2 pensioners the distance to the polling station was too far (1 ½ hour round trip and 2 ½ miles). They also passed 4 other polling stations on their way to the Dorset Centre. Polling station staff had told her that a number of older people had had to get taxis in order to be able to vote at the polling station.</p> <p>Resident of Wedgwood Road – I live in Wedgewood Road and am unable to vote in my local polling station which is 2 minutes from my house. Why is this?</p>	The station that electors were previously allocated to in Milton Road is no longer used. Electors were allocated to Dorset Close Centre to keep the Wards and Parish wards together as much as possible to avoid confusion at the polling station. Following the comments received from electors we will be moving them to the nearest station to which is Ebenezer Evangelical Church, Cromwell Road. A separate station within the building will be set up for any parish elections to ensure that the papers would be kept separate. For all other elections only 1 station would be required.
