

**Full Council – 3 September 2020  
Questions from the Public**

**Question 1 – submitted by Tony Walter**

**Getting to zero carbon: lobbying national government**

On 15 July, Dorset Council published its long-awaited Draft Climate and Ecological Emergency (CEE) Strategy, now passed for public consultation by Place Scrutiny Committee and Cabinet. One of the most striking things about this strategy from a council controlled by the same party as the UK government is its highlighting of *national* policies and regulations, a *national* lack of direction and low *national* standards, hampering local authorities from moving to zero carbon, including several policies/regulations/standards introduced in the last decade (p.17). Reforming this national framework is essential if the UK is to achieve the government's de-carbonisation commitments.

**The Strategy (pp.27,30,48,49,55) promises to lobby government on the national policies, regulations and standards that undermine its climate & ecological ambitions in 5 of the Strategy's 8 areas for action:**

**Renewable energy (p.26)**

- Uncertainty at national level re strategy & direction
- National grid limits deployment of renewable energy at scale
- Current policy framework does not support the move to low carbon
- The planning system does not actively encourage renewable energy

**Buildings and assets (p.29)**

- Lack of national strategy for heating
- Current & potential *Future Homes* standards for new builds not high enough to deliver national carbon-reduction targets
- Lack of legal requirement to retrofit buildings

**The economy (p.35)**

- Low carbon & renewable energy economy growing only slowly & adversely affected by recent changes in legislation and incentives
- Government introduced Additional Business Rates Levy penalising businesses that install renewable energy on their premises
- Circular economy heavily influenced by national policy & regulation

**Water (p.41)**

- Government limits councils' power to enforce water conservation in new developments

**Transport (p.47)**

- Lack of national direction and policy

**Question: How does Dorset Council propose to lobby government effectively?**

### **Question 2 – submitted by Joe Burlington**

Greta Thunberg(1) said “I’ve met many of the most powerful people in the world. And even among them, **pretty much everyone lacks even some of the most basic knowledge**” and, in *The Guardian*, Rebecca Willis (2) wrote “(One MP) said that **just a few of her 600 or so fellow parliamentarians took climate seriously** as an issue: ‘You might not get into double figures’.” The Council has acknowledged that there is ‘a climate emergency and an ecological crisis’ but its current policies will not deliver a sustainable future and it is clear that many politicians (and most voters) are unaware of dire threats to the future of our children.

Question:

What actions will Councillors take to educate themselves and the public about these matters?

To this end, I am willing to support councillors in person or by Zoom (or similar). I am a former physics teacher. I have been studying these matters intensively for 16 years.

(1) *Summer with Greta* (Chapter 8) “(P)eople understand much less about the climate crisis than you’d think ... **the level of knowledge and awareness is close to nonexistent.**” July 2020

**Question 3 – Submitted by Professor Philip Marfleet (on behalf of Dorset Says – Low Pay, No Way** - Convenor, Weymouth and Portland Action on Wages (WeyPAW), and Jenny Lennon-Wood - Secretary, Dorset Trades Union Council

### **Real Living Wage for employees of Dorset Council**

Question:

Dorset Council (DC) proposes increased payments to Council members and new paid roles for members of the majority party. Our Council appears to have

ignored repeated recommendations to introduce the Real Living Wage for its employees and those working for its contractors. Dorset is a low-wage county: we need urgent action to address a crisis of poverty wages and declining social mobility. Why is DC directing funds to its senior members while thousands of Council workers and others struggle to make ends meet?

**Statement:**

Over a year ago, local organisations urged DC to tackle poverty incomes and declining social mobility:

- Declare its public commitment to meet legal requirements on the National Minimum Wage, Equal Pay for women, and terms and conditions of employment - and expect this of its contractors.
- Prepare to introduce the Real Living Wage (£9.30 an hour) and encourage others to follow suit.
- Take the lead in educating our young people about rights at work.

Our proposals were referred to the Executive Advisory Panel on Economic Growth, to which we gave a presentation in September 2019. Having heard nothing from the Panel, we raised questions at the Council's meeting in February 2020 and were informed that the issues would be considered during development of the Council's *Economic Growth Strategy (EGS)*. The Cabinet has apparently approved this Strategy without the benefit of democratic debate by Full Council. There are no proposals to introduce the Real Living Wage; meanwhile, senior Council members are to be appointed to new paid positions, increasing the annual cost of councillors' fees by over £100,000.

DC has undertaken a preliminary assessment of the implications of introducing the Real Living Wage - yet the *EGS* contains no evidence of practical measures to address the injustice of low pay. Almost a third of jobs in the Council's area pay less than the Real Living Wage: in Weymouth and Portland this rises to 48%, the second-worst record in the country (government figures).

Many of Dorset's low-paid jobs are in tourism and retail - among the sectors hardest hit by the COVID crisis. Termination of the government's Job Retention Scheme could have a devastating impact. HMRC recorded claims to furlough a third of all eligible jobs in Dorset by the end of July - around 51,600 potential redundancies. Dorset is likely to be one of the areas worst affected by the COVID crisis – its low wages making many families vulnerable.

Cornwall shares many economic problems with Dorset. Its Council introduced the Real Living Wage for all employees in 2015. Why can't DC do the same?

DC should abandon plans to increase payments to councillors. Instead, let's work together to make Dorset a Living Wage County.
