

The Waters Edge Cafe at number 19 Coombe Street has applied for a alcohol licence in addition to changing its opening hours. When the cafe first opened it was agreed with the landlord that the cafe would open from 9am till 5pm, as the cafe is in a residential area this would be the least disruptive to the neighbours.

This application to now serve alcohol and open till 9pm will be very disruptive. My husband and I both have jobs which start early in the morning , therefor we tend to go to bed fairly early, in addition the cafe seating area is within 1.5 metres from my door and I have no wish to have people sitting outside my house eating and drinking till 9pm. The cafe would then need to clean when the customers eventually left for the previous days trade, this could then become 10pm by the time the cafe closes. This cafe is within a mostly residential area and we object that granting this licence would be disruptive to the area.
