

Dear licensing team i write to lodge my objection to the application made for an outside licence for the rendezvous nite club in weymouth it asks for a licence for space directly outside 49 st thomas street but according to the plan the area they wish to close off is actually custom house quay adjacent to the anchor public house although all connected to the same building the postal addresses are different i know this has been done in the past and has resulted in some trouble being caused by a drunken and drugged up minority but as a commercial fisherman whose boat has been damaged 3 times in the past by having ariels ripped off the wheelhouse roof windows smashed and deck littered in broken glass and plastic glasses not to mention human excrement nearly every time a festival is put on and with the new road alterations going on it is making it more difficult to carry on the business and seeing these premises have been given so much more outside seating surely this is enough for this area if left as is everyone can carry on with their business surely as the notice on the poles around custom house quay state that they are applying for a licence directly outside 49 st thomas street amounts to a false statement under the terms stated on the notice.

yours

p.s. Sorry to send it this way but email failed
