### APPENDIX 3 - CONDITIONS ATTACHED AFTER A HEARING BY THE LICENSING AUTHORITY

#### CONDITIONS SET BY ENVIRONMENTAL HEALTH

- (1) At least 2 months before any outdoor event takes place, a Noise Management Statement and Plan shall be produced by a suitably qualified acoustic consultant and submitted to Environmental Protection and agreed prior to the event taking place. The plan shall appropriately reflect the Guidelines in Sections 3.1,3.2, 3.3,3.4, 3.5,3.7, 3.8,3.9, 3.10, 4.2, 4.3, 4.7, 4.8 (\*see note), 4.9, 4.10, 4.11 and 4.12 of the Code of Practice on Environmental Noise at Concerts, as produced by the Noise Council (The Code). *\* In relation to Section 4.8, it is not expected that such sound tests should be performed before every event. However, such a test should be performed after any significant change to the sound system or attenuation measures, and at least once every year.*

In particular, but without prejudice to the generality of Condition 1, the following conditions shall apply. (Note that a suitably worded Noise Management Plan, as required by Condition 1, should include provisions to address these following points):

- (2) The acoustic consultant shall identify appropriate sensitive receptors which may be affected by noise from the Licensed Premises. These will be sensitive premises likely to experience the largest increase in noise/highest noise level as a result of noise from the Licenced Premises. These shall be agreed with Environmental Protection prior to any event. The acoustic consultant shall carry out a survey in calm meteorological conditions to determine the representative background noise levels (as defined by the Code of Practice on Environmental Noise Control at Concerts) at these receptor locations, or locations acoustically representative of them. The information obtained from this survey shall be made available to an authorised officer of the council or a police constable upon request.
- (3) As soon as a music event is being prepared, a noise propagation test shall be undertaken in order to set appropriate control limits at the sound mixer position. The sound system shall be configured and operated in a similar manner as intended for the actual music events. The sound source used for the test shall be similar in character to the music likely to be produced during the events. *It is not expected that such sound tests should be performed before every event. However, such a test should be performed after any significant change to the sound system or attenuation measures, and at least once every year.*
- (4) The control limits set at the mixer position shall be adequate to ensure that the Music Noise Level (MNL) (as defined in the Code) shall not reasonably foreseeably at any noise sensitive premises exceed the background noise level (as determined in pursuit of compliance with Condition 2) by more than 15dB(A), or at such other differential level that may be agreed in writing between the applicant and the Environmental

- Health Service of Dorset Council, over a 15 minute period throughout the duration of music events rehearsals, or other checks.
- (5) The Licensee shall ensure that the promoter, sound system supplier, sound engineers and any other personnel with responsibilities affecting noise levels are informed of the sound control limits and that any instructions from the acoustic consultant regarding noise levels shall be implemented.
  - (6) The Licensee shall ensure that the appointed acoustic consultant makes arrangements for the continual monitoring (with sound level meter) of noise levels at the sound miser position, and for prompt feedback to the sound engineer accordingly to ensure that the noise limits are not exceeded. An authorised officer of the Council shall have access to the results of the noise monitoring at any time.
  - (7) Music events shall be run in accordance with the Noise Management Statement and Plan.
  - (8) The Licensee shall take all reasonable steps to ensure that the MNL arising from the licensable activities do not exceed the limit set in Condition (4) at the sensitive receptors identified in response to Condition (2).
  - (9) Measurements will include octave and one third octave band measurement where useful in identification of any intrusive frequency. In particular measurements required by Condition (6) will be made at 63Hz and 125Hz octave bands.
  - (10) A written record of the method by which monitoring and measurements were undertaken shall be made by the acoustic consultant and maintained by or on behalf of the Licensee.
  - (11) All noise measurements shall be undertaken in accordance with recognised professional acoustic practice. Written proof shall be available on request an authorised officer of the council so that any sound level meter used in pursuit of compliance with these conditions has been appropriately calibrated within a suitable timescale before its use.
  - (12) In the event of the limits in Condition (4) being exceeded, or it being determined as necessary to reduce the noise levels to these limits, then in either case the Licensee shall: (i) take and keep a written record of the time and date when such levels are exceeded or the noise levels are required to be reduced (as the case may be); (ii) take and keep a written record of every step undertaken to reduce the noise levels below the limits and the time when such action was taken; and (iii) Produce such a written record to any officer of the Council (or other person appointed to act upon its behalf) upon request.
  - (13) All data in respect of the monitoring carried out in pursuit of compliance with these conditions shall be in writing and that information, together with that secured by virtue of conditions (2) and (3) above, shall be both provided to the an authorised officer of the council within 15 working days of any request. The information shall be provided: (a) Unedited form; and (b) such other additional form(s) as the authorised officer may at any time required in writing.
  - (14) Live and recorded music shall be played only within the hours specified on the Application for Premises Licence WDPL0768.
