The committee considered the issues arising from the report and during discussion, the following areas were covered:

- Strengthening of word within paragraph 2.1 of the report to set out the role the Council 'must' have in this area
- Clarification of the wording in paragraph 8.1 of the report with regard to wellbeing issues
- Further information to be included with regard to how the Council looked at issues around supply chains.

#### **Recommendation to Cabinet**

That the proposed Modern Slavery Transparency Statement be approved, (subject to the amendments requested by the Place and Resources Overview Committee as set out above).

#### **Response amendments to the above**

- **The statement was reviewed on an annual basis**

As discussed in this report, it will be a requirement for the Council to publish a statement on an annual basis.

- **The requirement for a generic point of contact on the Community Safety website**

Note that the emergency response points of contact shown on the Community Safety website are generic. The section concerned (referenced by Place and Resource Overview Committee) holds points of contact for specific agency leads who can be contacted by professionals within their organisation for non-urgent advice and information to Modern Slavery. Many of these are external agencies however the Council's Community Safety team will work with the external agencies concerned to see whether it is possible and appropriate for them to provide generic points of contract.
