Application reference: P/FUL/2022/05149

Site address: The Moors at Arne East of the community of Ridge and North of Arne Road

Proposal: The creation of intertidal habitat and restricted tidal exchange shallow saltwater lagoons, through managed realignment involving selective breaching of existing tidal embankments. The provision of new set-back earth embankments, including the provision of flapped surface water outfalls, tidal exchange culverts, and an improved channel and outfall for the Furzebrook Stream. The formation of permissive footpaths and screens for public to view birds from, maintenance access tracks and the provision of associated gates, fences and boundary treatment works.
