Subject: New Permanent Premises Licence for St. Giles Park, Wimborne St Giles, Wimborne, Dorset BH21 5NA.

Dear Licencing Authority, I wish to OBJECT to the granting of the above licence on the following grounds:-

1. Traffic. the road past St. Giles Park is not adequate for the traffic likely to be generated by this event, it is already an accident black spot. I use the road 2 or 3 times a week and every year there is a car or motorcycle in the hedge and a diversion on several occasions. The road is not wide enough for people to queue for entrance without blocking the road. There have been other "Camping" events there recently, with people walking along the unlit road without even an adequate grass verge for them to walk on.

2. Light Pollution. The site is on the edge of the Cranborne Chase Dark Skies Area. The event will produce a significant amount of Light Pollution over several nights.

3. Noise Pollution. The event will also produce a considerable amount of NOISE, this is not compatible with the Rural nature of the area.

There are already a large number of events like this in Dorset and south Wiltshire, we do not need any more to add to the nuisance caused to local residents.

I have noticed that there has been almost no publicity in the area about this proposal. The only notices have been scattered in the hedgerows where they are impossible to read. It was only by walking from a layby for several hundred yards that I found the notice.

I note that it is called a "Multi-day Event". Even one day will be too many.

Yours Sincerely, [REDACTED]
