Hello,

Having viewed the application I am concerned that this licence allows up to 5,000 people to attend. I believe the previous licences for this event were restricted to 500. The narrow roads through the village to the car park are already compromised with the current 500 attendees. There are nuisance and safety aspects to consider. Where people are leaving vehicles to collect the next day (thereby not drinking and driving) they are left along the main, narrow road through the village. There is very little space for them and the potential of obstructing emergency vehicles. I do not think this application should be permitted without much reduced limits on numbers of attendees and revised parking facilities.
