I should like to comment re: the recent events license application concerning Chesil Rocks.

I have lived in Langton Herring for over 50 years. In that time I have seen outdoor events, small and large from Rock Concerts in support of Headway Charity at the Elm Tree to Village Fetes in support of Village activities on The Green. Indeed I have attended most of the them and been a volunteer worker at many.

Chesil Rocks is now I believe nine years old, it has grown of course as things must if they are not to dwindle. One of its strengths, is I believe in its carefully chosen Children's events. It is very much a family affair.

I believe it to be as well organised and managed as any thing like this can be. Professional security service are visible on the gates.

Of course there are lots of cars but there are also lots of Marshals.

It is remarkable how little litter is distributed around the village. I have regularly seen volunteers with their sacks picking up the bits and pieces which may have been left.

I hope you will grant the requested license.

Yours. Faithfully
