To whom it may concern

I am writing to you with an objection to the following premises license for 54 st thomas street weymouth

I and many of of my fellow business owners feel that mr c zorel has followed the rules and regulations that we all as business owners are happy to follow. By opening without the correct licenses and insurance he has put many of the public at risk as well as the the member of staff.

So i feel that if mr zorel is going to dismiss our town business regulation then how can he guarantee the correct training given for himself and his staff to ensure that there is a high duty of care providers to the public. However i also believe that this would cause many noise and nuisance in that area as people would all stay there after they come out of the local clubs instead of spreading out.
