

- 1) I read recently that you are considering putting up taxi fares I'm writing in to say I wouldn't agree with that. A lot of local people rely on taxis daily or frequently so it's the last thing we need at the moment with everything else going up . Taxi drivers say they are doing OK, they have all the holiday makers down here ,and maybe a few from the Cruises and these are all extra trips.

So no I don't think we want to pay more for our taxis let's keep them at a reasonable rate so more people will use them, because any fare increases soon start to add up .
