Appendix Climate Change wheel ACCESSIBLE TABLE SHOWING IMPACTS

Natural Environment, Climate & Ecology Strategy Commitments	Impact
Energy	major positive impact
Buildings & Assets	No known impact
Transport	major positive impact
Green Economy	major positive impact
Food & Drink	No known impact
Waste	major positive impact
Natural Assets & Ecology	minor positive impact
Water	minor positive impact
Resilience and Adaptation	major positive impact

Corporate Plan Aims	Impact
Prosperity	strongly supports it
Stronger healthier communities	strongly supports it
Sustainable Development & Housing	minor positive impact
Responsive & Customer Focused	strongly supports it

TABLE OF RECOMMENDATIONS

Recommendations	Responses -will this be incorporated into your proposal? How? And if not, why not?
Energy	
Provide advice and/or signpost business to sources of information on how they can reduce their bills and environmental impact by fitting renewable energy	Improving digital infrastructure and reducing digital exclusion will enable business to access sources of information on how they could reduce their bills and environmental impact.
Buildings & Assets	
No recommendations found for this category	
Transport	

Promote active travel opportunities	Improved digitial infrastructure and inclusion will enable online travel enquiries and bookings, bus tracking, service updates, online parking payment at park and ride facilities all of which should encourage use of public transport and active travel alternatives.

Green Economy
No recommendations found for this category

Food & Drink
No recommendations found for this category

Waste
No recommendations found for this category

Natural Assets & Ecology	
Use the opportunity to bring land into positive management (See links below for more information)	Agri-tech is supported by digital infrastructure. Improving connectivity across the county and digital inclusion offers opportunities for improved monitoring of agricultural land / livestock, encouraging the productive use of land for agriculture
Use the opportunity to create a new or protect existing marine habitats	The infrastructure strategy is more focussed on benefits to land based communities, businesses and visitors. If digital infrastructure is to benefit marine habitats then connectivity will need to be deliberately extended over the water

Water
