Risk Management Update

For Review and Consultation

Portfolio Holder: Cllr S Flower, Leader of the Council

Executive Director: J Mair, Corporate Director, Legal & Democratic

Report Author: Marc Eyre
Title: Service Manager for Assurance

Report Status: Public

Brief Summary: The continual development and promotion of risk management will ensure that Dorset Council remains well placed to demonstrate that objective and informed decisions are taken. The Senior Leadership Team own strategic risk management, with an agreed risk management framework and appetite statement both of which set out the Council's commitment. The focus of this report is to provide an overview of the highest level risks identified within the service risk registers.

Recommendation: That Audit and Governance Committee note the key risks identified in the risk registers, with escalation to Scrutiny Committees where appropriate.

Reason for Recommendation: To ensure that the Council's risk management methodologies remain current, proportionate, and effective in enabling risk informed decisions to be made.

1. Report

- 1.1 A [PowerBI dashboard](#) has been developed by colleagues within the Business and Intelligence team that helps to present improved graphical focus and accessible information surrounding risk management across directorates and teams.
- 1.2 There are ten strategic risk themes informed by operational service level risks owned by Heads of Service and Service Managers.

Current Risk Themes	
Communities	Political & Leadership
Compliance	Safeguarding
Digital & Technology	Service Delivery
Finance	Transformation
Health, Safety & Wellbeing	Workforce

- 1.3 Councillors can view the full schedule of risks by theme from [this link](#).
- 1.4 Both the People and Health Scrutiny Committee and Place and Resources Scrutiny Committee consider the detail of individual risks. The role of Audit and Governance Committee is to satisfy itself over the adequacy of the risk management framework.
- 1.5 As reported at previous meetings, an action plan has been developed to respond to recommendations from the South West Audit Partnership review of the Council's risk management arrangements. This report recognised that the Council has developed and refined a functional system of risk management between officers and elected members, and that stakeholders cited the support provided positively. However, it was recognised that further work was necessary to embed risk management across services, which presented resourcing challenges.
- 1.6 The Risk Management and Reporting Officer commenced duties at the beginning of December 2023. The risk management function has now therefore transferred across from the Assurance Service to the Business Intelligence and Performance team. There will be a period of induction

and training whilst this service transitions across, but work can now commence on the key actions identified within the SWAP report, including:

- A review of the Council's risk appetite (post elections);
- Reviewing and rolling out further training for risk owners;
- Enabling a process of peer challenge of risk scoring;
- Ensuring a consistent process of review and challenge across all Directorates.

1.7 It was highlighted to members that, with the absence of a dedicated risk management resource since June, there had been a higher proportion of risks that have not been reviewed within target timescales. The responsibility for update rests with individual risk owners rather than the risk function, but this demonstrates the need for regular prompts and challenge. Reviews remain significantly behind target this quarter, but it is anticipated that with risk resource now in place, we will begin to see an improvement in updates over coming months.

2. Financial Implications

No budget implications specifically, although unmanaged risks may pose a threat to the Council's financial stability. Identified risk improvement measures may also have direct budget implications, each of which need to be subject to a cost/benefit analysis prior to implementation.

3. Climate Implications

None specifically, however the risk register itself identifies several climate related risks.

4. Well-being and Health Implications

Health, safety, and wellbeing is identified as one of our corporate risk themes.

5. Other Implications

None

6. Risk Assessment

Having considered the risks associated with this decision; the level of risk has been identified as:

Current Risk: HIGH

Residual Risk: HIGH

The risk level is identified as High as Appendix A provides an update on those Extreme level risks which are currently identified within the Council's risk register.

7. Equalities Impact Assessment

None specifically, however the risk register itself identifies several equality related risks.
