TABLE OF RECOMMENDATIONS

Recommendations	Responses -will this be incorporated into your proposal? How? And if not, why not?
Energy	
Replace fossil fuel boilers with low carbon heating systems.	Air source heat pumps were considered but it was felt not suitable for a property with a high turnover of tenants and no council presence on site.
Consider fitting solar pv panels to optimise cost of scaffolding	PV not fitted as considered harmful to the non-designated heritage asset and its character/appearance.
