Councillor Questions

Question from Cllr M Parkes

Residents in Stapehill Road remain concerned to the amount of vehicles not adhering to the 30mph speed limit. A recent consultation carried out by the Town Council concluded that there was not enough support from residents of the town to reduce the limit to 20mph however Cllr Lugg and I recognise that the percentage of residents in the road that supported the reduction was greater.

It is our belief that enforcement of the existing speed limit would be far more appropriate and request that the council use CIL money to install ANPR cameras to enforce the speed limit as has been done in other areas within Dorset.
