
Fw: Licence application for 49 Cheap Street

From Roy MacLeod [REDACTED]
Date Wed 12/11/2025 14:28
To Kathryn Miller [REDACTED]

Hello Kathryn

I have had a reply after talking to the applicant regarding the addition of a condition to control the noise from glass disposal.

She is quite happy for this and I hope the email below suffices to acknowledge her agreement.

It is highlighted in yellow

1 Activities relating to the onsite disposal of glass (including placing into external receptacles) and bottles and recyclable materials shall only take place between 08:00 and 22:00.

If you have alternative wording which is clearer, please let me know.

Best regards
Roy

Good afternoon Rod

Great speaking to you earlier, as mention we intend to dispose of any bottles in the morning (after 8am) to prevent any noise that this may cause.

Raychalle

Subject: Licence application for 49 Cheap Street

Good morning

I am the Environment Protection officer for Dorset Council, looking at the applicaiton for the licence at 49 Cheap Street, Sherborne.

I would like to propose a condition to be added to the licence which addresses the noise which can result from disposal of glass late at night:

Prevention of Public Nuisance.

1 Activities relating to the onsite disposal of glass (including placing into external receptacles) and bottles and recyclable materials shall only take place between 08:00 and 22:00.

If this is acceptable, please can you confirm and I shall pass this to the licencing officer responsible for consultation on this application.
