

Coombe House

Annual Performance Report 2025

Introduction

We're doing things a little differently this year and letting the pupils of Coombe House School introduce our Annual Report. We invited them to tell us about the highlights of their year, and they said.....

" I have really enjoyed being able to go to breakfast club for toast, it helps me start the day. I also think PE is great and I like having time with my friends.
Charlie

" Being able to play badminton!
Josh

" Sports Day – I really liked it, and I haven't been able to do a sports day since I was little too, I think that was really good. Also, I use the gym all the time and it is great.
James

" I really like our community visits. Enrichment is really good especially on a Friday afternoon, going to see the chickens at the farm every week and making friends are also my favourites.
Edison

" The Longleat trip was good – my favourite thing was that we didn't see the monkeys – they would have pulled the bus apart!!!
Mason

" When I passed my first exams ever in English and maths. It made me feel like a could achieve anything.
David

" Going swimming in the pool at school each week.
Dolcie

" My first singing lesson was the most amazing experience when I thought I was talented at something. It was me singing accompanied with the grand piano and it sounded awesome.
Ollie

" My highlight was being in my class – I have a lot of good memories in there with my classmates.
Teddi

Summary of the Last Year

What a year! The past twelve months are best summarised by the word 'progress'. From the Company's breadth of community offer, growth in pupil numbers within the School, the development of our curriculum and relational approach, expansion of our leadership team, the development of our personalised support packages, and our new Ofsted report, we've progressed significantly.

Within this report, we have articulated a summary of our new School curriculum. This is an amalgamation of the work that has gone into innovation and improvement since the current leadership team have been in post, and the final articulation and presentation of this is a real milestone.

The approach sets out how important it is to have a well-rounded holistic education, and that to progress to a happy and fulfilled adulthood, where pupils can aspire to have meaningful relationships, be independent and employed in line with their potential, keep themselves and others safe, and contribute positively towards society means they need to learn a much wider range of skills that the typical educational offer in this country provides.

We're proud that we are pushing boundaries and challenging norms, and the progress being made by our community is already yielding results. It is, by design, inclusive. All pupils, whatever level of personalisation they require can learn and have their progress measured within the same framework – it meets the needs of all.

We know that our commitment to continually develop our offer means that there is much more to come but we know that the model will provide the foundations for all future improvements is strong and research based .

Embracing 'Therapeutic Thinking' as the overarching structure supporting our relational approach has also been a highlight. Again, built on the foundations of careful research-based practice, this approach, which has long been supported by Dorset Council and others, is now fully embedded into our culture. Put simply, we're all in!

Collating this performance report provides a helpful reminder of why we are here, and why Dorset Council took the bold decision to invest in a new and innovative way of doing things; to offer both excellent quality and excellent value for money.

Every school placement makes a significant saving compared to the fees that are charged by other independent special schools, and the culmination of these savings continue to increase over time and are now highly significant. We believe that our model is part of the solution for Dorset, and other authorities facing similar challenges of ensuring all children and young people get an education that meets their needs, sustainably and equitably.

Leaders within the Company and School are united in the belief that we do not do what we do to please the regulator! It would be remis however, to miss the excellent Ofsted result from this opening summary. To receive such positive feedback, including being judged as Outstanding in certain aspects, marks a significant improvement in a short period of time.

None of this would have been possible without the partnership working with Dorset Council, the exceptional efforts of our Directors, leaders and staff, and of course the incredible resilience and support shown by the families of our pupils and the pupils themselves, who got the opening page of this report handed over to show their views for a reason!

We close by sharing our optimism for the future. We are keen to grow further, to do more, to provide excellent value for money for the next phase of investment, and to continue making a difference to the children and families of Dorset.

With thanks

Curriculum Improvements

We’ve been on an ongoing journey of development regarding our curriculum offer but in the last year, we finalised our modelling and the associated policy.

Our ‘Curriculum Wheel’ represents our holistic curriculum that acknowledges the School is not just about academic outcomes, and that progression to a happy and fulfilled adulthood is about a rounded education where you also learn about resilience, social skills, emotional intelligence and working with others (to name a few).

To ensure we are able to deliver our curriculum as intended, we have invested in our resources to ensure we are able to meet all needs. The development of our therapeutic farm, forest skills area, art and cookery spaces continued alongside the opening of a brand-new hair and beauty suite, which has been a huge hit with our pupils.

Having an ever-increasing range of personalised options for our pupils means we are often able to reduce the spend on external Alternative Provision as we are increasingly able to do this ‘in house’. We have more plans too – we’d love to add more, with mechanics and construction areas near the top of the list.

To read more about our curriculum approach see here:

Ofsted Summary

Our focus is to meet the needs of each child so that they can experience a transformational educational experience and meet their potential. This is what drives our practice and provides our motivation every day.

However, we were also pleased to welcome Ofsted in July 2025 when they undertook a full standard inspection. Their feedback validated the progress we knew had been made since their last visit and led to a report being published detailing that all the Independent School Standards had been met, and that the School had “Good” and “Outstanding” practice.

A selection of our favourite quotes from their report are shown on the opposite page.

Follow the QR Code to view our report

Coombe House School is a vibrant place to learn.

Staff take time to understand each pupil's needs well. They use this knowledge effectively to build strong and trusting relationships with pupils.

Pupils feel valued and know that they are appreciated and belong.

Pupils meet staff's high expectations academically, socially and emotionally. They enjoy learning and take pride in their work.

The school has placed a sharp focus on reading. Pupils are supported to engage in texts in a variety of ways such as listening to adults read or audiobooks. They are exposed to a rich diet of reading materials, including novels, instructions and emails.

The school meticulously analyses the attendance of each pupil to find out what support it can offer pupils and their families to build positive attendance habits. This has had a demonstrable impact in individual cases.

The school's personal development offer is exceptional and worthy of being shared. It is highly effective and supports pupils to experience repeated success.

Personal Development

We were very pleased that the School's broad and personalised curriculum was celebrated by Ofsted during their recent visit.

The experiences on offer are broad and challenging. Some of the highlights of the year have been:

- » A whole-school trip to Longleat Safari Park, supported by the Rotary Club – an amazing day where many of our pupils went on a 'proper school coach trip' for the first time ever!
- » Visits to castles, abbeys, museums and galleries and learning more about different religions and cultures.
- » Learning to use public transport through real-world experiences, using buses and trains - importantly making sure you get on the right one going to the right place!
- » Producing and sharing artwork with the community, including having an exhibition at Shaftesbury Lido.
- » Amazing expeditions, volunteering and learning experiences as part of the Duke of Edinburgh scheme.
- » A number of successful fundraising events, including non-uniform days, sponsored challenges and shoebox appeal.
- » Our amazing sports day – in some cases the first sports day attended by our pupils – determination and success seen throughout!
- » Supplementing our careers lessons by visiting a variety of local employers, and local further education colleges.
- » Collecting and donating much needed supplies to local food banks, including some grown on the farm!
- » Life Skills – we have embedded budgeting, money handling, planning and practical shopping trip experiences to ensure that our pupils are ready to manage themselves financially, now and in the future.

We are excited that we are adding to our personal development offer by partnering with PEDALL Inclusive Cycling, meaning that our pupils have the opportunity to learn safe riding and road safety skills with expert cycle leaders within the New Forest National Park.

Academic Outcomes

The number and breadth of our externally accredited academic qualifications really stepped up this year, with some of the headlines being:

100%

Pass rate for pupils entered for English GCSE

100%

Pass rate for pupils entered for Maths GCSE

22

Functional Skills qualifications earned in English

11

Functional Skills qualifications earned in Maths

16

Pupils earning qualifications in both English and Maths

There were several notable individual success stories, ranging from pupils earning qualifications despite missing up to two years of school prior to enrolling at Coombe House, others who experienced particularly significant barriers to learning but achieved anyway, to one individual who graduated with six GCSEs, all at Grade 5 and above!

Some of these qualifications were taken by those in Year 11, whereas others were taken as 'confidence-building stepping stones' towards more and higher qualifications for those lower down in the School.

Alongside the more academic qualifications earned, pupils also have the opportunities to earn Duke of Edinburgh accreditations, ASDAN Unit Awards and qualifications from Swim England.

The range of courses on offer is already impressive for such a young school but there's more choice and a wider range still to come!

Destinations

We are very proud of our Year 11 and Year 12 leavers. Although some continue to learn with us in our sixth form, continuing to make leaps with their development, others progressed onto new challenges elsewhere.

▶ Six leavers progressed to study in a variety of college environments, applying the skills they learned with us in a much larger, busier, less supported setting – what an achievement!

Key Stage 4 Options

For the first time since opening, our pupils have been provided with the opportunity to choose their Key Stage 4 'options' in line with their peers nationally.

After a focus on embedding English and maths accreditation, pupils are now able to opt into two further choices. Following an 'options fayre' where pupils could find out more and explore what was available, they were asked to make their preferred choices.

The options available to pupils were:

- Art led by Holly Gatrell
- Citizenship led by Jane Smith
- Thinking as a Coder led by Sam Akhurst
- Duke of Edinburgh led by Rich Moore
- Food Technology led by Holly Gatrell
- Hair and beauty led by Ali Clare
- Land Based studies led by Nigel Benjamin
- Media Studies led by Tom Chazot
- Sports Leaders led by Mark Stocker

EBSA (Emotionally Based School Avoidance)

Horizons Class – A New Offer at Coombe House

This year has marked the exciting launch of Horizons Class, a new provision designed to support pupils who face barriers to school attendance, including those experiencing EBSA (Emotionally Based School Avoidance).

Horizons provides a safe, flexible, and nurturing environment where pupils can reconnect with education at their own pace, supported by strong relationships, therapeutic input, and personalised learning.

Horizon's offer is wide-ranging. Pupils can access virtual afternoon sessions and weekly assemblies that focus on connection, belonging, and gentle re-engagement. One-to-one tutoring support ensures that learning is tailored to individual needs, while a focus on family partnerships provides parents and carers with practical strategies and ongoing communication.

Alongside this, pupils are encouraged to stay active through online PE sessions and develop curiosity and awareness of the world through resources such as Picture News.

Strategically, Horizons represents a whole-school commitment to flexible and creative pathways. The curriculum blends academic, vocational, and therapeutic learning, with opportunities for mindfulness, nature-based activities, and creative projects.

Through this innovative provision, Horizons aims not only to re-establish positive routines around learning but also to foster resilience, confidence, and a genuine sense of belonging. Regular reviews and multi-agency collaboration will ensure the offer continues to evolve, placing pupil voice and family partnership at the heart of every step forward.

Promoting wellbeing with PE

The introduction of virtual PE classes has been particularly well received. Pupils have reported that they enjoy the accessible and engaging nature of these sessions, which are helping to promote a balanced approach to wellbeing – integrating physical activity with mental health support in a sustainable and enjoyable way.

Elliot Smith, teacher for Horizons

Engagement and Reconnection

Virtual afternoon sessions are offered three times weekly and have been effective in re-engaging pupils. These sessions combine emotional support with light academic content, and attendance has remained consistently strong. There has been a marked increase in pupil confidence and enthusiasm, with several requesting additional personalised sessions – an encouraging indicator of trust and motivation.

Pupils who were previously reluctant to engage had started attending regularly and actively participating in discussions. This gradual reintroduction to learning has helped create a safe, positive environment that has supported both academic and emotional development.

Individualised Tutoring

Our one-to-one tutoring provision is also showing positive outcomes. Feedback from pupils and parents has been very encouraging, with three pupils already demonstrating increased confidence in their learning and presentation skills. Notably, our first Horizons pupil successfully accessed and used the Century platform, signalling growing independence and digital engagement.

Family Partnerships and Emotional Support

Strong relationships with families remain central to our approach. Regular communication has enabled us to tailor support to individual needs, and parents have expressed appreciation for the consistent check-ins and practical strategies provided to support their child's emotional wellbeing.

Financial Position & Value for money

The Company has had another successful year with, once more, strong financial performance against budget.

The better-than-budget-year-end figures have further reduced the losses incurred during the first two years of operation and have meant that no further draw down on the working capital loan facility provided by the Shareholder has been necessary.

Having kept the placement fee unchanged since inception in summer 2022, the Company applied an unavoidable increase effective 1 April 2025. Factors that drove the decision included an unexpected plateau in capital investment to the site, inflationary pressures on running costs, changes to the business rates and council tax charges due for unoccupied parts of the site and the increase to pay costs borne from the Government's changes to employers' National Insurance.

The Company continues to meet the Shareholder's expectation that it will provide high quality places at a significantly lower cost than other independent special schools, in order both to meet the needs of children and to alleviate pressure on the High Needs Block of the Dedicated Schools Grant.

The Company recognises the increasing cost pressures that the Shareholder also faces, as well as the rising High Needs funding pressure and is particularly glad that careful partnership working with the Shareholder has ensured the School's current fee remains highly competitive and continues to offer significant value compared to other independent SEN providers.

Finances continue to be very well managed. Wherever possible we have sought cost savings, always with a focus that they do not impact on the delivery of the quality of school experience for our pupils. Investment is carefully planned. For example, efforts have been made to ensure all solar arrays and both of our biomass boilers are fully operational. These assets not only reduce electricity costs but are also generating additional income through solar energy feed-in-tariffs and renewable heat incentive payments.

To further control our costs, a firm of chartered surveyors has been engaged to challenge our business rates and Council Tax liabilities, an ongoing effort which, to date, has successfully mitigated our Council Tax charges going forward.

Based on current pupil enrolment, the Company is in a better financial position to support itself, make repayments against the Shareholder's loan, and invest in projects to enhance the experience of the cohort.

Audit / Governance

In line with the Shareholder Agreement, the Board commissioned an independent financial audit to provide valuable assurance over the accuracy and integrity of our financial records to all stakeholders.

The external auditor conducted a detailed review of the accounts, examining financial records, assessing compliance with internal policies and relevant accounting standards, identifying risks, and confirming that the financial statements present a true and fair view of the Company's financial position.

The year ending 31 March 2025 was our second year of external audit, and once again the financial statements received an unqualified opinion, meaning the auditor was fully satisfied with their findings.

As part of the process, the auditor reports their conclusions to management and the Board of Directors, including any recommendations for further improvement. For the second consecutive year, no weaknesses were identified in our financial systems - an exceptionally positive outcome that reflects the strength and robustness of our controls and governance.

Staff Growth, Strengthened Teams

Over the past three years, we have seen substantial growth in headcount, with average staff numbers more than doubling, rising steadily from around 50 in late 2022 to over 100 by mid-2025. This reflects the successful expansion of the Company and its linked recruitment activity.

To support our continued growth and to ensure we deliver the highest quality support and education, we have invested in several key new roles over the past year. These include the appointment of a dedicated Farm Manager and two Farm Assistants (Education Workers) to enhance the learning opportunities provided through our therapeutic farm provision.

We have strengthened leadership capacity with the recruitment of an additional Assistant Headteacher and created a combined Safeguarding, Alternative Provision & Behaviour Coordinator role to provide focused support in these critical areas.

To meet the needs of a growing pupil population, we have expanded operational support with additional Housekeepers and increased administrative capacity with an additional Education, Health and Care Plan (EHCP) Co-ordinator to manage our EHCPs more effectively.

Together, these roles demonstrate our commitment to strengthening teams, improving provision, and ensuring our School can meet the needs of every pupil as we continue to grow.

Alongside this expansion, we have improved retention. This combination of workforce growth and greater stability demonstrates that we are confident in moving beyond the 'start-up' phase into a more mature and sustainable Company.

It reflects a stronger employer brand, improved employee experience, and a culture where people choose to stay. This stability helps ensure we have the capacity to deliver on our strategic goals while maintaining an engaged team capable of supporting our continued success.

Total Number of Staff and Staff Leaving

The video highlights real staff and facilities, fostering trust and transparency to appeal to candidates aligned with the School's values, culture, vision, and supportive environment. The recruitment video offers a chance to promote the School's culture, setting it apart in a competitive job market, reaching a broader pool of candidates.

In October 2024 the HR team collaborated with a videographer to create a promotional recruitment video aimed at creating a compelling, informed and personal connection with prospective applicants, inspiring their interest and commitment before applying.

This initiative is part of our Recruitment and Retention Strategy leveraging social media and digital platforms to reach a wider audience, promote the School in a visually engaging way, and to attract and engage high-quality candidates in a competitive job market.

Scan the QR code for the Recruitment Video

Staff Training & Development

This year has seen significant investment in professional development of our staff team.

Our Deputy Headteacher (Social Emotional Mental Health) has commenced the National Professional Qualification for Senior Leadership (NPQSL), further strengthening leadership capacity. We have successfully promoted staff into Deputy Headteacher and Assistant Headteacher roles, demonstrating our commitment to internal professional development and creating clear career pathways.

We secured levy transfer funding for two Level 7 Postgraduate Teacher Apprenticeships with Qualified Teacher Status (QTS), offered to existing Learning Support Assistants. These colleagues will specialise in 5–11 SEND Teacher QTS and Maths QTS respectively, supporting both individual career progression and our strategic workforce planning.

Our inset programme has been wide-ranging and impactful, including sessions on relational and therapeutic practice, curriculum and community engagement, and creative approaches to reading. Keynote speakers included Childhood Trauma and Behaviour Specialist Shahana Knight, who delivered practical strategies for therapeutic and trauma-informed practice, and Dean Beadle, who offered insight into understanding and celebrating autistic pupils.

Ongoing Continuing Professional Development (CPD) has included autism training through the Autism Education Trust, phonics fundamentals for Key Stages 3–5, and workshops covering dyscalculia awareness, sensory integration, social skills development, and demand avoidance.

A focus in the latter part of this year has been embedding Therapeutic Thinking as a whole-school approach to behaviour and emotional regulation. Our Headteacher and Managing Director completed the three-day Therapeutic Thinking course, equipping them to strategically lead this work. 20 additional staff members have completed a two-day course, and all school staff attended a full day of training at the start of this academic year.

This investment ensures staff have a shared language and consistent framework for responding to the needs of our pupils. The approach emphasises dignity, safety, and long-term positive change for pupils, helping to reduce exclusions, build emotional resilience, and increase access to learning.

In addition, our HR team led the implementation of a new Prevention of Sexual Harassment Policy in line with legislative changes, with whole-staff training completed to ensure a safe and supportive working environment.

Spotlight on Internal Promotions

We are proud to celebrate the career journey of our newly appointed Deputy Headteacher (SEMH). Jenny joined Coombe House School in September 2023 as a class Teacher after moving from mainstream primary education, motivated by a desire to “provide pupils with what they truly needed in order to thrive.”

Jenny’s passion for supporting pupils with Special Educational Needs and Disabilities (SEND), particularly those with SEMH needs quickly became clear as she took on extra responsibilities, contributing to projects such as the development of the primary curriculum and the design of Willow, our new primary classroom block.

In 2024, Jenny became an Assistant Headteacher (SEMH), combining leadership responsibilities with teaching to further deepen her understanding of the pupils’ needs.

Reflecting on this step, she shared:

“During this time, I developed my skills and knowledge regarding people management, strategic decision making and project design and implementation.”

This year, Jenny took the next step to Deputy Headteacher/Head of Education (SEMH). Her motivation is clear:

“I am most excited about the positive impact that Coombe House School can have on every pupil and the part that I would play in that as a school leader. I relish the challenge and strive to be the best I can possibly be by inspiring staff and pupils to live our value of belonging, ambition and kindness.”

Jenny’s story is a great example of how professional growth and leadership development are nurtured at Coombe House School, creating clear pathways for progression and impact.

We are pleased to celebrate the journey of our newly appointed Assistant Headteacher.

Dave joined Coombe House School in February 2024 as our first Maths Specialist, motivated by a desire to

“Develop a curriculum that better met the needs of our pupils and gave staff the skills and confidence to deliver it.”

He also supported the development of pathways for pupils preparing for Functional Skills and GCSE examinations.

In September 2024, Dave became a Class Tutor, enabling him to form a closer relationships with a group of pupils and gain valuable experience in pastoral work, EHCPs and working closely with parents. Moving from a mainstream background, he reflects that he has learnt “an incredible amount about working with SEND,” and is now preparing to begin his NPQSL to strengthen his leadership practice.

Dave’s leadership potential grew as he took on wider curriculum development, working closely with senior leaders. A highlight for him was the recent Ofsted inspection, which he describes as “a meaningful recognition of the team’s hard work”.

Appointed Assistant Headteacher in April 2025, Dave is excited to support the School’s continued growth, sharing:

“I love working on strategic projects... I’m excited to learn from those around me as the School continues to develop.”

His journey reflects the strong culture of professional progression at Coombe House School.

Staff Feedback, Engagement and Wellbeing

We believe that the growth in our staff numbers, and further improvements with retention is partly due to the investment we make in their wellbeing.

Regular wellbeing and engagement events help support mental health, team morale, and a positive workplace culture. Over the year, we have continued to prioritise opportunities for staff to connect, recharge, and feel valued. We have delivered a wide range of initiatives focused on engagement, connection, and personal wellbeing.

Initiatives have included the introduction of Wellbeing Wednesdays each half term, giving staff the option to take part in mindfulness, sporting, or social activities.

Seasonal engagement events including an Easter celebration and a pet-themed competition further encouraged a sense of community and team spirit.

We offered a Women's Self-Defence Workshop to build confidence and awareness outside of the workplace. Our Mental Health Awareness Week 2025 programme ran over two weeks, featuring physical and wellbeing activities such as rounders, a treasure hunt, and gong healing sessions, alongside daily snack baskets in staff rooms.

As part of our Employee Engagement, Recognition, and Reward Strategy, we continue to celebrate service anniversaries, recognise contributions through our popular Hug in a Mug initiative, and bring colleagues together through termly staff breakfasts, social events, and bake-off competitions.

This year also saw a review and renewal of our Employee Assistance Programme (EAP), offering tailored mental health and wellbeing resources for our staff.

Feedback from our engagement surveys shows that staff value open communication, professional growth, and feeling supported by leadership. This year we have increased opportunities for two-way feedback between staff and leadership, including structured listening exercises, 1:1 meetings, and surveys.

This has strengthened communication, enabled staff to share insights and suggestions, and provided leadership with actionable information to identify areas for improvement and implement meaningful changes.

"It's without question the best job within education that I've ever had."

(Teacher, May 2025)

"Staff are dedicated to giving the pupils the best support and experience."

(Support Staff, March 2025)

"I feel very supported and valued by the whole school team."

(Teacher, May 2025)

Policy Strategy and Development

We remain aware of significant recruitment and retention challenges in the education sector, particularly for Teachers and Learning Support Assistants with SEND experience. Nationally, vacancies in secondary and special schools are rising.

Across the UK, teacher shortages are increasing pressures on both mainstream and SEND schools.

Small class sizes at Coombe House School mean higher staff-to-pupil ratios, placing additional challenges for recruitment to ensure our pupils receive the highest quality support.

In response, we have focussed our People Strategy on the individual, targeting those with a passion for SEND education and a commitment to making a positive impact on pupils' lives.

By developing policies and strategic frameworks - such as the Recruitment and Retention Strategy – we are creating a structured, supportive environment aimed at attracting, engaging, and retaining talented staff.

During the last year, several new policies were introduced to enhance compliance, staff welfare, and operational clarity:

- » Neonatal Care Leave, (April 2025) to support staff during early stages of parenthood.

- » Prevention of Sexual Harassment Policy, (October 2024) to reinforce a safe and respectful workplace.

- » Working in Hot Weather, Protective Clothing, and Damage to Personal Property were all implemented to ensure staff safety and clear guidance around workplace risks and responsibilities.

In addition, we have reviewed and updated key policies to reflect best practice, legislative changes, and evolving staff needs:

- » Menopause/Perimenopause Policy; Strengthened guidance and support for staff experiencing menopause-related health issues.
- » Remuneration Policy; Revised to align with broader pay and progression frameworks and ensure equity and transparency.

A key focus this year has been the development and refinement of our strategic HR frameworks to support organisational growth, staff welfare, and retention.

Incremental Pay Progression (IPP) Framework

A significant strategic initiative was the development of the IPP Framework for non-teaching staff, aligned with the Remuneration Policy, Recruitment & Retention Strategy (2025–2027), and organisational values.

Key features include:

- » Clear eligibility criteria linked to performance and professional development.
- » Structured governance and moderation processes ensuring fairness and consistency.
- » A transparent approach to reward and progression that supports retention and recognises contributions in roles that are often under-recognised in educational settings.
- » Alignment with the broader HR strategy, providing a framework for career development and reinforcing our commitment to valuing all staff.

Recruitment and Retention Strategy (2025-2027)

This critical document has been revised to address key challenges, including recruiting experienced Teachers and Learning Support Assistants, retaining employees during periods of change, and meeting resource needs to support business growth.

Through these initiatives, we have demonstrated a proactive, strategic approach to policy and HR development. Policies, progression frameworks, and people strategies work cohesively to attract, engage, and retain talented staff, mitigate sector-wide recruitment pressures, and deliver high-quality services to children and families. This integrated approach ensures fairness, transparency, and staff well-being, reinforcing the Company's values and long-term sustainability.

Impact of Therapy

The Therapy Team have been working hard over the past year to deliver an effective service at Universal, Targeted and Specialist levels of intervention.

Through close collaboration with teaching staff, specific strategies and approaches have been incorporated into curriculum delivery and classroom practice to ensure that all pupils have an appropriate level of support.

Teaching staff have access to a weekly 'Therapy Clinic' where they can meet with a member of the Therapy Team to discuss specific issues and get advice.

At a Universal and Targeted level, our Therapy Assistant has delivered a range of group interventions such as Sensory Explorers, Sensory Swimming and Construction Groups.

At a Specialist level, our Occupational Therapist and Speech and Language Therapist provide advice and support to teaching staff alongside carrying out assessments with those pupils who require specialist support.

Our Educational Psychologist has carried out a wide range of consultations with teaching staff in order to support specific pupils both directly and indirectly, as well as working in conjunction with the Music Therapist to deliver class based Reflective Supervision sessions.

Through these sessions, teaching staff are given the opportunity to problem solve and reflect on how they can support pupils more effectively.

Communication and sensory environment audits continue to be carried out in classrooms to ensure that the School environment is appropriately modified for the needs of the pupils.

There is a robust outcome measures system in place to monitor the effectiveness of intervention. This has been reviewed and analysed at regular intervals.

Over the past year, the Therapy Team have continued to work closely with parents / carers to ensure that they feel empowered to support their children whilst they are not in school. Online parent / carer training sessions are planned for the coming school year.

Estates Development

Our Estates team have worked tirelessly to ensure that our efforts to continuously improve and develop our buildings and grounds have had impact.

As well as the extensive ongoing proactive and preventative maintenance projects, such as redecorating and replacing carpets, they have also led on:

- » Creating additional classroom spaces by redeveloping our library spaces.
- » Adding a Hair and Beauty studio, to allow our new BTEC course to launch successfully.
- » Alterations to our offices, to allow for more confidential working spaces.
- » Overseeing significant improvements to our farm buildings.
- » Continuing the rollout of our therapeutic classroom model.

Solar / Environmental

Our commitment to producing as much green energy as possible continues, with improvements made this year to our solar panel efficiency, and improvements to our biomass boiler.

This has financial benefits that go along with the environmental impact, with continuing revenue from the renewable heat incentive and feed-in-tariff payment schemes.

Work to improve our biodiversity has been prioritised, with the installation of wildflower meadows, and efforts to increase the health and quality of our woodland environments.

A new Environmental Committee has been set up with teaching staff, support staff and pupils, who are determined to make Coombe House as environmentally friendly as it can be.

Leisure

We continue to offer our swimming facilities to the local community. For much of the year, a local primary school has visited for weekly swimming lessons, that have been funded by Sports England. We have also started a new arrangement with 'Baby Squids' who offer high quality swimming lessons to local families, saving the commute to nearby Gillingham.

Our community swim club continues to be popular and based on feedback, is now offered during some early evenings, as well as in the original morning slots. During the summer holidays in 2025, the leisure team piloted our own swimming lessons, which were very well received. Local families, and adults, signed up and fed back very positively about their experiences.

Our pool is excellent quality and has received further investment this year, with new technology now installed to reduce the amount of chemicals needed to maintain our exceptional water quality at its current standards.

Progression of our Therapeutic Farm

This year has been an exceptionally busy and transformative period for the farm, laying the groundwork for exciting developments for the next phase. Our focus continues to be on creating a rich, hands-on learning environment while enhancing therapeutic and educational outcomes for pupils.

Infrastructure Developments

- » **Farm Building & Facilities:** The farm building has undergone significant improvements this year. Pupils and staff now benefit from a fully installed lavatory, an outdoor handwashing facility, electricity, hot water, and a fire alarm system. While work is still ongoing, these upgrades represent a major step forward in creating a safe, functional, and welcoming space for both learning and farm activities.
- » **Duck Enclosure:** Pupils were involved in every stage of this project, from building the structure and digging out the pond, to constructing the small duck house and planting surrounding flowers. This project offered practical learning in teamwork, problem-solving, and animal care.
- » **Polytunnel Expansion:** An additional polytunnel was installed to extend our growing areas, enabling the future introduction of flower propagation and cultivation, giving pupils experience with seasonal planting cycles and horticultural techniques.

- » **Wooden Lodge (upcoming):** Funding has been secured for a dedicated indoor teaching space for EBSA pupils, providing a calm and flexible learning environment in all weathers.

Animal Enclosures and Care

- » **Chickens:** Chickens have now been introduced into the care aspect of the farm, allowing pupils to learn about daily care routines, egg collection, and animal wellbeing.
- » **Guinea Pig Enclosure:** A new, large enclosure has been built to maximise animal welfare and enrich the learning experience for pupils.
- » **Duck Enclosure:** Fully functional, supporting hands-on learning in duck care and habitat management.
- » **Sheep Partnership:** A collaboration with a local farmer has brought 19 sheep onto site. They are used for grazing and interactive learning sessions, supporting practical lessons in animal husbandry.

Land-Based Studies

This year saw the introduction of a BTEC land-based studies programme, delivering the Maintaining the Health of Animals unit to over five individual pupils. Pupils gain practical skills and formal qualifications while engaging directly with the farm environment.

School Engagement

The School continues to be our primary user and this year we implemented a new referral form process to better link pupils with farm activities and programmes. This ensures a more coordinated approach to learning and therapeutic interventions, helping to maximise the benefits for each individual.

A new online farm page has been created, designed like a website for pupils to access every day. This interactive resource includes educational farm-related games and activities, a photo gallery, farm news, and much more, allowing pupils to engage with the farm both on-site and remotely.

Farm Team Development

The farm team has expanded to four staff members, bringing a mix of skills and expertise that strengthen both educational delivery and therapeutic outcomes. This growth allows for more personalised support and broader development of the farm.

Funding and Grants

We are delighted to have secured over £30,000 through the Farming in Protected Landscapes (FiPL) programme, funded by Cranborne Chase National Landscape, which has funded much of our recent development. This funding will enable major further improvements across the farm, helping us to enhance both our facilities and educational opportunities, including:

- » Pond restoration.
- » Planting of espalier fruit trees around the walled garden.
- » Creation of a four-acre wildflower meadow.
- » Fencing enhancements.
- » Installation of a large Ridan composting system.
- » Construction of the wooden lodge teaching space for EBSA pupils.

Summary

Through improvements to infrastructure, the introduction of new animal enclosures, the launch of land-based studies, and enhanced engagement with pupils via our 'website' and referral process, we have laid strong foundations for the future. These developments not only support the educational and therapeutic outcomes of our pupils but also ensure the farm continues to grow as a vibrant, hands-on learning environment that connects children with the natural world.

Bespoke Packages

This year, in partnership with Dorset Council, we have developed a new offer to ensure we are meeting local commissioning needs.

As well as offering high value for money places to a large cohort of pupils, we are also now offering highly bespoke packages for a smaller number of pupils that need packages of support that are far more personalised.

Examples of provision put in place including outreach, learning in the home, partnerships with alternative provision and a range of off-site pastoral and therapeutic provision in the community. For some of the children and young people being supported, their needs mean that initially they are unlikely to be able to physically attend any school site unless extensive work occurs before to help them to build the skills they need to do so successfully.

We've already had feedback that the packages on offer have provided high quality education to children and young people who otherwise would have had no provision at all – i.e. all other providers, at whatever cost, were unable to offer a place.

We are proud that we are developing the capacity to help a more diverse range of children and meeting the clearly stated needs of our Shareholder in doing so.

The New Plan for Growth

As we reach our temporary capacity on pupil numbers, whilst plans for the further capital investment that will unlock further places are considered by the Council, we are keen to work in solution-focussed and creative ways to ensure we are able to help the maximum number of children and young people.

We are looking at options that mean potential pupils could attend a specialist setting closer to their homes and are seeing if there are any initial steps that could be taken by the Company, to open up some of the 'easier to convert' areas on our main campus in a cost effective and efficient way.

Supplementing this with ideas about outreach and support means we have no intention of standing still!

Work with other Local Schools

At the top of our values diagram, we have “so every child can thrive” and in our induction sessions, we explain to new colleagues that this is about all children and young people, including those who do not attend our School.

To this end, we always look for ways to learn from and share with others, so that as many children as possible have a positive experience at their school.

We are working increasingly closely with other local Headteachers, from other specialist and mainstream settings. Where there are ideas about how we could help each other, we quickly engage and are keen to grow this area of our work.

We have also taken an active role with national consultations about upcoming reforms. We want to be part of the solution for the wider SEND system, which is routinely reported as needing improvement.

Where we can help,
we do all we can to do so.

So every
child can
thrive

Our Fundamentals

“A culture of kindness”
“A sense of belonging”
“A belief in ambition”

Our Mission

Creating nurturing environments to enable each unique child and young person to overcome challenges, learn and live a healthy fulfilling life.

Our Strategic Priorities

Safety First – being safe, feeling safe
People and Culture – compassionate communities
Transforming Lives – life changing outcomes
The Ripple Effect – sharing what works with others

Dorset Transport

We know how challenging it is to manage the transport needs of our pupils, and to do so where there are budgetary pressures.

To that end, we have prioritised supporting the Dorset Council team to make efficiencies wherever possible. By us supporting pupils to develop the skills to share vehicles and use learned strategies to manage these journeys, we've reduced the number of journeys that need to be commissioned.

Member of Parliament

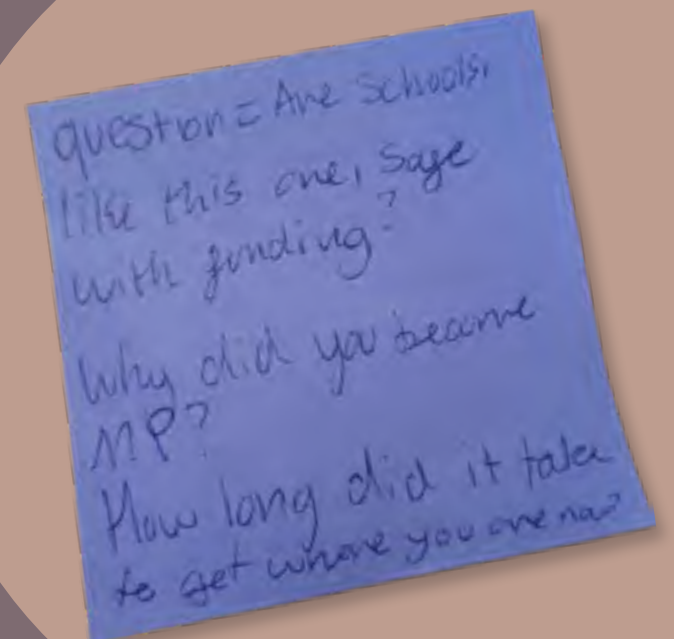

"A belief in ambition" is one of our three fundamental values and we do all we can to put this into action. We have high expectations of our pupils and want to expose them to rich and challenging experiences.

As an example, as part of the School's Citizenship lessons, pupils welcomed Simon Hoare MP, Member of Parliament for North Dorset to school for a question-and-answer session.

The pupils asked excellent questions on lots of topics including inheritance tax, funding for schools, the tax on family farms and immigration.

Mr Hoare was generous with his replies and for the way he interacted so engagingly with the pupils.

Shoebox Project

This year, the staff have been taking part in the Rotary Shoebox Scheme. Our teams, from the Farm, Human Resources, Therapies, Teaching staff, Leisure staff and Shared Services have been filling shoeboxes to be distributed to disadvantaged families abroad.

The shoeboxes have contained items such as toys, games, clothes, toiletries, candles, writing materials, and much more and are promised to make a real difference to those who receive them.

Catering

At the end of the current three-year catering contract, we took the opportunity to review arrangements to ensure that we were providing our pupils with the very best quality food at good value for money.

We are passionate that food and nutrition should play a positive role in the learning of our community and so re-evaluating with this in mind has really focussed the mind.

Our new chosen catering partner will join us in January 2026 and our pupils, particularly those who had a preview during the tasting day, are very much looking forward to it!

Parent Feedback

“ The professionalism, wisdom, clarity of information and support we have been afforded by you all has been outstanding and we wanted to say a huge, heartfelt THANK YOU. She was squealing with excitement on Friday, relieved that she doesn't have to leave her lovely school! Have a terrific week; we shall – safe in the knowledge that she can stay put. ”

“ He has never managed anything outside the home unless accompanied by mum. Before Easter he managed a Burger King Trip with me and ate in front of me, he has managed a McDonalds trip and eaten in front of me and last week he got in the swimming pool for the first time. Mum is so grateful for everything and the fact that even though he won't admit it, he is happy at school. ”

“ What made this even was speaking to their teachers and LSAs and a lot of other staff that had nothing but positive things to say about my boy. ”

“ It was an absolutely gorgeous evening. The staff are and were amazing. Still mesmerised by everything! Thank you! ”

“ Was such a lovely evening, always blown away by the lovely grounds and facilities for our children. Staff are always so friendly, thank you ”

“ Just a quick message to say thank you to all of the wonderful staff at Coombe House School for giving her a wonderful, nurturing and fun filled 2 years during her time here. ”

“ Last nights open evening was just wonderful. In fact, the vibe felt more like a party – to celebrate the achievements of the young people and the top team that have enabled a barrel load of wins! Huge thanks and a shouty round of applause to the Coombe House Crew! ”

“ He's had a really good 3 weeks back-to-back, and I'm especially proud of him participating in sports day as it's been something he has refused to do since a very early age, so keep doing what you're doing! ”

“ It just feels that the 10 years' worth of fighting with LA's [Local Authorities] and everyone in between it was so worth it! I just feel incredibly proud for him to attend such a lovely place ”

“ Thank you for your email, we are obviously bursting with pride. She is becoming more herself day by day because of attending Coombe House; yourself and your amazing team really deserve to take all the credit for that. There's no words to describe how grateful and happy the whole family is for her being there. ”

Sports Day

“ Thank you so much. I had a very proud boy come home after winning his first proper trophy. He's blessed to have such a wonderful school. ”

“ Well done boys and girls and thank you to all the teachers for organising. ”

Longleat Trip

“ Thank you so much to all the staff at Coombe (House) and to the rotary club. My son had the best time and didn't stop talking about it, it was a beautiful moment seeing him so happy. Thank you xxx ”

“ Our grandson had a lovely day thank you Coombe House for being amazing and also to the Rotary Club. ”

“ Thank you Coombe House School and to the Rotary Club, both of our boys said they had a fantastic time x ”

MP Visit

“ She really enjoyed this... which I'm delighted about ”

“ It was a great pleasure. Let's get you up to Westminster soon ”
