OFFICIAL

Good afternoon Kathryn

Further to the application for a Premises Licence for Native Willow, please accept this representation on behalf of the Chief Officer of Dorset Police.

The application, as submitted, contains omissions and ambiguities in relation to the promotion of the Licensing Objectives, specifically the Prevention of Crime and Disorder and Public Safety. Dorset Police sought clarification by email on 10 August, 19 August, 24 August, 26 August and 1 September, thereby offering the applicant ample opportunity during the Consultation process to respond to the concerns identified, and to engage in mediation regarding appropriate and proportionate conditions to be attached to any Premises Licence granted.

However, the applicant either failed to respond to the correspondence or, where responses were received, did not adequately address the matters raised. As a result, several queries have not been addressed.

In particular, the applicant has failed to provide sufficient assurances regarding the provision of CCTV. Dorset Police considers CCTV to be a fundamental and widely accepted measure for the prevention of crime and disorder. Despite repeated requests, the applicant has neither provided satisfactory details of any proposed CCTV provision nor engaged meaningfully in discussions regarding appropriate conditions to support the licensing objectives.

Given the lack of detail within the application, the applicant's failure to engage during the consultation process, and the absence of sufficient information to demonstrate how the Licensing Objectives will be promoted, Dorset Police does not have confidence that the premises will be operated in a manner consistent with the effective promotion of the Licensing Objectives.

Accordingly, Dorset Police objects to the grant of the Premises Licence, specifically in relation to the Licensing Objectives of the Prevention of Crime and Disorder and Public Safety.

Kind Regards
Louise

OFFICIAL

Good afternoon Karen

Thank you for your emails and the information you have provided regarding the proposed CCTV arrangements at the premises.

Dorset Police are unable to comment on or endorse specific CCTV systems or manufacturers. However, provided that the CCTV system installed is capable of fully complying with the condition set out below, this would be considered acceptable from a licensing perspective.

However, please be aware that Dorset Police would object to this premises licence being granted unless a compliant CCTV system is installed and fully operational before the commencement of any licensable activities.

The proposed CCTV condition is as follows:

A CCTV system shall be installed to cover all entry and exit points, enabling frontal identification of every person entering in any light condition. The CCTV system shall continually record and cover areas where alcohol is kept for selection and purchase by the public whilst the premises is open for licensable activities. It shall operate during all times when customers remain on the premises.

All recordings shall be stored for a minimum period of 31 days with correct date and time stamping. Recordings shall be made available immediately upon the request of Police or an authorised officer of the Council throughout the preceding 31-day period. The CCTV system shall be updated and maintained according to Police recommendations.

A staff member from the premises who is conversant with the operation of the CCTV system shall be on the premises at all times when the premises are open to the public. This staff member must be able to show a Police or authorised Council officer recent data or footage with the absolute minimum of delay when requested.

CCTV footage shall be downloaded upon request by the Police or an authorised officer of the Council. Appropriate signage advising customers that CCTV is in operation shall be prominently displayed within the premises.

A documented check of the CCTV system shall be completed weekly to ensure all cameras remain operational and that the minimum 31-day retention period for recordings is being maintained.

I trust this clarifies Dorset Police's position.

Should you have any further queries regarding the licensing process, or to confirm you are happy with the above, please do not hesitate to contact me.

Kind Regards
Louise

Good afternoon

Further to your application for a Premises Licence, I would be grateful if you could expand on the CCTV and SIA provision as your application unclear – *'CCTV systems or security staff will be installed and used via the appropriate SIA'*

Could you also advise the nature of private functions that you propose and provide a risk assessment that you will be utilising for such functions?

Kind Regards
Louise
